Food Sanitation Rules

Effective Date: January 1, 2002
Revised 2006
DEPARTMENT OF HUMAN SERVICES
DIVISION 150
FOOD SANITATION RULE

Introduction
Authority, Purpose, Incorporation by Reference, and Deletions

(1) Authority and Purpose.
   (a) This rule is authorized by ORS 624.100.
   (b) This rule establishes definitions, sets standards for management and personnel, food protection, and equipment and facilities, water supply, sewage disposal, provides for food establishment plan review, and employee restriction to safeguard public health and provide consumers food that is safe, unadulterated, and honestly presented.

(2) Incorporation by Reference.
The requirements as found in the U.S. Public Health Service, Food and Drug Administration, Food Code 1999, Chapters 1 through 8 is adopted and incorporated by reference.

(3) Deletions.
The following sections, paragraphs or subparagraphs of the 1999 FDA Food Code are deleted in their entirety: 1-201.10(B)(36), 2-103.11(H), 3-201.16, 3-301.11(C), 3-401.11(D)(3), 4-301.12(C)(5), (D) and (E), 4-501.115, 4-603.16(B) and (C), 8-302.11, 8-302.14(E), 8-401.10(B), 8-401.20, 8-402.20(A)(3), 8-402.40, 8-406.11, and Annex 1 through 8.

Chapter 1
Purpose and Definitions

Parts
1-1 TITLE, INTENT, SCOPE
1-2 DEFINITIONS

1-1 Subparts: 1-101 Title
1-102 Intent
1-103 Scope

1-101.10 Food Code.
These provisions shall be known as the Food Code, hereinafter referred to as “this Code.”

1-102.10 Food Safety, Illness Prevention, and Honest Presentation.
The purpose of this Code is to safeguard public health and provide to consumers food that is safe, unadulterated, and honestly presented.

1-103.10 Statement.
This Code establishes definitions; sets standards for management and personnel, food operations, and equipment and facilities; and provides for food establishment plan review, permit issuance, inspection, employee restriction, and permit suspension.
1-2 DEFINITIONS

1-201.10 Statement of Application and Listing of Terms.

(A) The following definitions apply in the interpretation and application of this Code.
(B) Terms Defined.

(1) Accredited program.
   (a) "Accredited program" means a food protection manager certification program that has been evaluated and listed by an accrediting agency as conforming to national standards for organizations that certify individuals or approved by the Department of Human Services.
   (b) "Accredited program" refers to the certification process and is a designation based upon an independent evaluation of factors such as the sponsor's mission; organizational structure; staff resources; revenue sources; policies; public information regarding program scope, eligibility requirements, recertification, discipline and grievance procedures; and test development and administration.
   (c) "Accredited program" does not refer to training functions or educational programs.

(1.1) “Actively cooled” means that once the temperature of a potentially hazardous food has fallen below 60°C (140°F), it is placed in cooling or cold holding equipment and cooled according to §§ 3-501.14 and 3-501.15.

(2) Additive.
   (a) "Food additive" has the meaning stated in the Federal Food, Drug, and Cosmetic Act, § 201(s) and 21 CFR 170.
   (b) "Color additive" has the meaning stated in the Federal Food, Drug, and Cosmetic Act, §201(t) and 21 CFR 70.

(3) "Adulterated" has the meaning stated in the Federal Food, Drug, and Cosmetic Act, § 402.

(4) "Approved" means acceptable to the regulatory authority based on a determination of conformity with principles, practices, and generally recognized standards that protect public health.

(4.1) “Assembly” means the act of putting together foods that do not require further preparation. This includes, but is not limited to, placing a hot dog on a bun, or placing beans, lettuce and cheese on a tortilla.

(5) "a_w" means water activity which is a measure of the free moisture in a food, is the quotient of the water vapor pressure of the substance divided by the vapor pressure of pure water at the same temperature, and is indicated by the symbol a_w.

(5.1) “Base of Operation” means the licensed restaurant, commissary or warehouse that services a mobile unit or vending operation.

(6) "Beverage" means a liquid for drinking, including water.

(7) "Bottled drinking water" means water that is sealed in bottles, packages, or other containers and offered for sale for human consumption, including bottled mineral water.

(7.1) “Catering” means the preparation of food in an approved food establishment and the transportation of such food for service and consumption at some other site.

(8) "Certification number" means a unique combination of letters and numbers assigned by a shellfish control authority to a molluscan shellfish dealer according to the provisions of the National Shellfish Sanitation Program.

(9) CIP.
   (a) "CIP" means cleaned in place by the circulation or flowing by mechanical means through a piping system of a detergent solution, water rinse, and sanitizing solution onto or over equipment surfaces that require cleaning, such as the method used, in part, to clean and sanitize a frozen dessert machine.
   (b) "CIP" does not include the cleaning of equipment such as band saws, slicers, or mixers that are subjected to in-place manual cleaning without the use of a CIP system.

(9.1) “Close” means to summarily stop the operation of a food establishment pursuant to ORS 624.085 and ORS 624.370.
(10) "CFR" means Code of Federal Regulations. Citations in this Code to the CFR refer sequentially to the Title, Part, and Section numbers, such as 21 CFR 178.1010 refers to Title 21, Part 178, Section 1010.

(10.1) “Code” shall have the same meaning as rule.

(11) "Code of Federal Regulations" means the compilation of the general and permanent rules published in the Federal Register by the executive departments and agencies of the federal government which:
(a) Is published annually by the U.S. Government Printing Office; and

(11.1) “Combination Food Service Establishment” means any food establishment located within a single structure or at a single site, but which is engaged in activities that are subject to licensing or inspecting requirements of both the Department of Human Services and the Oregon Department of Agriculture, and the regulated activities are common to the same operator.

(11.2) “Commercial warewashing machine” means a warewashing machine designed and manufactured specifically for use in a food service establishment such as a restaurant and not for domestic or light-commercial purposes.

(12) Comminuted.
(a) "Comminuted" means reduced in size by methods including chopping, flaking, grinding, or mincing.
(b) "Comminuted" includes fish or meat products that are reduced in size and restructured or reformulated such as gefilte fish, gyros, ground beef, and sausage; and a mixture of 2 or more types of meat that have been reduced in size and combined, such as sausages made from 2 or more meats.

(12.1) “Commissary” means a commissary catering establishment, restaurant, or any other place in which, food, beverage, ingredients, containers, or supplies are kept, handled, packaged, prepared or stored, and from which vending machines or mobile units are serviced.

(12.2) “Complete Inspection” means any inspection conducted at the election of the licensing agency evaluating for all items on the inspection form.

(12.3) “Condiments” means garnishes, toppings, or seasonings that are added to a food to enhance or compliment the flavor, such as diced onions, dice tomatoes, hot sauce, ketchup, mayonnaise, mustard, relish, salt, shredded cheese and sugar.

(13) “Confirmed disease outbreak” means a foodborne disease outbreak in which laboratory analysis of appropriate specimens identifies a causative agent and epidemiological analysis implicates the food as the source of the illness.

(14) "Consumer" means a person who is a member of the public, takes possession of food, is not functioning in the capacity of an operator of a food establishment or food processing plant, and does not offer the food for resale.

(15) "Corrosion-resistant material" means a material that maintains acceptable surface cleanability characteristics under prolonged influence of the food to be contacted, the normal use of cleaning compounds and sanitizing solutions, and other conditions of the use environment.

(16) "Critical control point" means a point or procedure in a specific food system where loss of control may result in an unacceptable health risk.

(17) Critical item.
(a) "Critical item" means a provision of this Code that, if in noncompliance, is more likely than other violations to contribute to food contamination, illness, or environmental health hazard.
(b) "Critical item" is an item that is denoted in this Code with an asterisk *.

(18) "Critical limit" means the maximum or minimum value to which a physical, biological, or chemical parameter must be controlled at a critical control point to minimize the risk that the identified food safety hazard may occur.
(18.1) "Critical violations" means those items weighted zero (0), four (4) or (5) points on the Inspection Report or the Inspectional Guide.
“Critical violations creating an imminent danger to public health” means those critical violations in which at least one of the following conditions exists:
(a) Food and drink is spoiled, unwholesome, or contaminated with pathogenic or fecal organisms, toxic chemicals, insect or rodent parts or excreta, or other harmful substances or articles;
(b) Potentially hazardous foods have been kept at temperatures above 45 degrees F. and below 140 degrees F. for four (4) hours or more;
(c) Food employee has a reportable disease or medical condition under § 2-201.11.

“Critical violations creating a potential danger to public health” means all critical violations other than those that create an imminent danger to public health.

“Critical violations creating a significantly increased risk for foodborne illness” include:
(a) Potentially hazardous foods at improper temperatures.
(b) Cross contamination of raw to ready to eat foods.
(c) Poor personal hygiene and handwashing.

“Danger to public health” is a condition which is conducive to propagation or transmission of pathogenic organisms or, a chemical or physical hazard which presents a reasonably clear possibility that the public is exposed to physical suffering or illness.

“Department” means the Department of Human Services.

“Director” means the Director of the Department of Human Services or authorized representative.

Drinking Water.
(a) "Drinking water" means water that meets 40 CFR 141 National Primary Drinking Water Regulations.
(b) "Drinking water" is traditionally known as "potable water."
(c) "Drinking water" includes the term "water" except where the term used connotes that the water is not potable, such as "boiler water," "mop water," "rainwater," "wastewater," and "nondrinking" water.

"Dry storage area" means a room or area designated for the storage of packaged or containerized bulk food that is not potentially hazardous and dry goods such as single-service items.

Easily Cleanable.
(a) "Easily cleanable" means a characteristic of a surface that:
   (i) Allows effective removal of soil by normal cleaning methods;
   (ii) Is dependent on the material, design, construction, and installation of the surface; and
   (iii) Varies with the likelihood of the surface's role in introducing pathogenic or toxigenic agents or other contaminants into food based on the surface's approved placement, purpose, and use.
(b) "Easily cleanable" includes a tiered application of the criteria that qualify the surface as easily cleanable as specified under Subparagraph (a) of this definition to different situations in which varying degrees of cleanability are required such as:
   (i) The appropriateness of stainless steel for a food preparation surface as opposed to the lack of need for stainless steel to be used for floors or for tables used for consumer dining; or
   (ii) The need for a different degree of cleanability for a utilitarian attachment or accessory in the kitchen as opposed to a decorative attachment or accessory in the consumer dining area.

"Easily movable" means:
(a) Portable; mounted on casters, gliders, or rollers; or provided with a mechanical means to safely tilt a unit of equipment for cleaning; and
(b) Having no utility connection, a utility connection that disconnects quickly, or a flexible utility connection line of sufficient length to allow the equipment to be moved for cleaning of the equipment and adjacent area.

"Employee" means the permit holder, person in charge, person having supervisory or management duties, person on the payroll, family member, volunteer, person performing work under contractual agreement, or other person working in a food establishment.

"EPA" means the U.S. Environmental Protection Agency.
(25) **Equipment.**

(a) "Equipment" means an article that is used in the operation of a food establishment such as a freezer, grinder, hood, ice maker, meat block, meat tenderizer, mixer, oven, reach-in refrigerator, scale, sink, slicer, stove, table, temperature measuring device for ambient air, vending machine, or warewashing machine.

(b) "Equipment" does not include items used for handling or storing large quantities of packaged foods that are received from a supplier in a cased or overwrapped lot, such as hand trucks, forklifts, dollies, pallets, racks, and skids.

(26) **Fish.**

(a) "Fish" means fresh or saltwater finfish, crustaceans and other forms of aquatic life (including alligator, frog, aquatic turtle, jellyfish, sea cucumber, and sea urchin and the roe of such animals) other than birds or mammals, and all mollusks, if such animal life is intended for human consumption.

(b) "Fish" includes an edible human food product derived in whole or in part from fish, including fish that have been processed in any manner.

(27) "**Food**" means a raw, cooked, or processed edible substance, ice, beverage, or ingredient used or intended for use or for sale in whole or in part for human consumption, or chewing gum.

(28) "**Foodborne disease outbreak**" means the occurrence of two or more cases of a similar illness resulting from the ingestion of a common food.

(29) "**Food-contact surface**" means:

(a) A surface of equipment or an utensil with which food normally comes into contact; or

(b) A surface of equipment or an utensil from which food may drain, drip, or splash:

(i) Into a food, or

(ii) Onto a surface normally in contact with food.

(30) "**Food employee**" means an individual working with unpackaged food, food equipment or utensils, or food-contact surfaces.

(31) **Food Establishment.**

(a) "Food establishment" means an operation that prepares, assembles, packages, serves, stores, vends, or otherwise provides food for human consumption.

(b) "Food establishment" includes but is not limited to:

(i) Bars, bed and breakfast facilities, cafeterias if open to the public, catered feeding locations, caterers, coffee shops, commissaries, conveyance used to transport people, hospitals if open to the public, hotels, microbreweries, motels, private clubs if open to the public, restaurants, satellite sites, senior citizen centers, snack bars, taverns, vending locations, warehouses, or similar food facilities;

(ii) An operation that is conducted in a mobile food unit, temporary food establishments, or permanent facility or location; where consumption is on or off premises; and regardless of whether there is a charge for the food.

(iii) The premises of a fraternal, social, or religious organization where food is prepared for the public.

(iv) Except as specified in 1-201.10(B)(31)(c)(xiv), school food service that is provided by a private person, business, or organization; and that serve persons other than enrolled students, invited guests or staff.

(v) That relinquishes possession of food to a consumer directly through a restaurant takeout order.

(c) "Food establishment" does not include:

(i) An establishment that offers only prepackaged foods that are not potentially hazardous;

(ii) A produce stand that only offers whole, uncut fresh fruits and vegetables;

(iii) A food processing plant;

(iv) A private home where food is prepared or served for family and guests, and where the public is not invited.

(v) A private home that receives catered or home-delivered food.

(vi) An establishment licensed and inspected by the Oregon Department of Agriculture.

(vii) An establishment or organization that prepares or sells the following food items shall be exempt from licensure and the provisions of ORS 624.010 to 624.120, and ORS 624.310 to 440:

1. Candy, candied apples, cookies and non-potentially hazardous confections;

2. Commercially prepackaged ice cream and frozen desserts;

3. Commercially pickled products, commercially processed jerky, nuts, nutmeats, popcorn, and prepackaged foods such as potato chips, pretzels, and crackers;

4. Unopened bottled and canned non-potentially hazardous beverages to include alcoholic beverages;

5. Coffee and tea, with non-potentially hazardous ingredients;

6. Hot beverages prepared by the customer from individually packaged powdered mixes and water; and
(7) Other food items as determined by the Department of Human Services.
(viii) Private vehicles used for home deliveries.
(ix) Personal chef who prepares food for an individual or private party. The personal chef may purchase food from a grocery store, but shall not store food or prepare food in advance. The personal chef may use his or her own equipment, utensils and spices.
(x) Continental breakfast served by a traveler’s accommodation licensed under ORS 446 and that is limited to the following: individual or bulk dispensed containers of commercially prepared juices; commercially prepared non-potentially hazardous pastries; whole uncut fresh fruit with peel, coffee and tea with non-potentially hazardous ingredients.
(xi) Except as specified in 1-201.10(B)(31)(b)(i), mobile food units that are operated by a market, are located on the property of the market and are under the jurisdiction of the Oregon Department of Agriculture.
(xii) Except as specified in 1-201.10(B)(31)(b)(i), outdoor barbecues operated by a market that are located on the property of the market and are under the jurisdiction of the Oregon Department of Agriculture.
(xiii) Food service that is provided by a state, county, or other governmental entity.
(xiv) Except as specified in 1-201.10(B)(31)(b)(iv), school food service that is provided by a state, county, or other governmental entity; or is providing food to students, teachers, other school staff, and invited guests.
(xv) Any person holding a “one-day, special retail beer or special retail wine license” for a private residence; or anyone who possesses a “temporary” license from the Oregon Liquor Control Commission who serves alcoholic beverages to the public, but serves only foods exempted under 1-201.10(B)(31)(c)(vii) and uses single-service articles.
(xvi) A bed and breakfast facility with two or less rooms for rent on a daily basis.
(xvii) A home processor licensed by the Oregon Department of Agriculture that serves only prewrapped, non-potentially hazardous food at a farmer’s market.

(32) **Food Processing Plant.**
(a) "**Food processing plant**" means a commercial operation or a domestic kitchen licensed by the Oregon Department of Agriculture that manufacture, packages, labels, or stores food for human consumption and does not provide food directly to a consumer.
(b) "**Food processing plant**" does not include a food establishment as defined under Subparagraph 1-201.10(B)(31).

(33) **Game Animal.**
(a) "**Game animal**" means an animal, the products of which are food, that is not classified as cattle, sheep, swine, goat, horse, mule, or other equine in 9 CFR Subchapter A - Mandatory Meat Inspection, Part 301, as Poultry in 9 CFR Subchapter C - Mandatory Poultry Products Inspection, Part 381, or as fish as defined under Subparagraph 1-201.10(B)(26).
(b) "**Game animal**" includes mammals such as reindeer, elk, deer, antelope, water buffalo, bison, rabbit, squirrel, opossum, raccoon, nutria, or muskrat, and nonaquatic reptiles such as land snakes.
(c) "**Game animal**" does not include ratites such as ostrich, emu, and rhea.

(34) "**General use pesticide**" means a pesticide that is not classified by EPA for restricted use as specified in 40 CFR 152.175.

(35) "**Grade A standards**" means the requirements of the United States Public Health Service/FDA "Grade A Pasteurized Milk Ordinance" and "Grade A Condensed and Dry Milk Ordinance" with which certain fluid and dry milk and milk products comply.

(36) **Group Residence. [Deleted]**

(37) "**HACCP plan**" means a written document that delineates the formal procedures for following the Hazard Analysis Critical Control Point principles developed by The National Advisory Committee on Microbiological Criteria for Foods.

(38) "**Hazard**" means a biological, chemical, or physical property that may cause an unacceptable consumer health risk.

(39) "**Hermetically sealed container**" means a container that is designed and intended to be secure against the entry of microorganisms and, in the case of low acid canned foods, to maintain the commercial sterility of its contents after processing.
(40) "Highly susceptible population" means a group of persons who are more likely than other populations to experience foodborne disease because they are immunocompromised or older adults and in a facility that provides health care or assisted living services, such as a hospital or nursing home; or preschool age children in a facility that provides custodial care, such as a day care center.

(41) "Imminent health hazard" means the same as 1-201.10(B)(18.1).

(42) "Injected" means manipulating a meat so that infectious or toxigenic microorganisms may be introduced from its surface to its interior through tenderizing with deep penetration or injecting the meat such as by processes which may be referred to as "injecting," "pinning," or "stitch pumping."

(42.1) “Integral” means that all equipment associated with a mobile unit must be rigidly and physically attached to the unit without restricting the mobility of the unit while in transit. This does not preclude the use of a barbecue unit in conjunction with a Class IV mobile food unit.

(43) "Juice", when used in the context of food safety, means the aqueous liquid expressed or extracted from one or more fruits or vegetables, purées of the edible portions of one or more fruits or vegetables, or any concentrate of such liquid or purée. This definition does not apply to standards of identity.

(44) "Kitchenware" means food preparation and storage utensils.

(45) "Law" means applicable local, state, and federal statutes, regulations, and ordinances.

(45.1) “License” means the same as permit for the purposes of this rule.

(45.2) “License holder” means the same as permit holder for the purposes of this rule.

(46) "Linens" means fabric items such as cloth hampers, cloth napkins, tablecloths, wiping cloths, and work garments including cloth gloves.

(46.1) "Maximum Contaminant Level (MCL)" means the maximum allowable level of a contaminant in water for consumption delivered to the users of a system, except in the case of turbidity where the maximum allowable level is measured at the point of entry to the distribution system.

(47) "Meat" means the flesh of animals used as food including the dressed flesh of cattle, swine, sheep, or goats and other edible animals, except fish, poultry, and wild game animals as specified under Subparagraphs 3-201.17(A)(3) and (4).

(48) "mg/L" means milligrams per liter, which is the metric equivalent of parts per million (ppm).

(48.1) “Mobile Food Unit” means any vehicle that is self-propelled or that can be pulled or pushed down a sidewalk, street, highway or waterway, on which food is prepared, processed or converted or which is used in selling and dispensing food to the ultimate consumer.

(49) "Molluscan shellfish" means any edible species of fresh or frozen oysters, clams, mussels, and scallops or edible portions thereof, except when the scallop product consists only of the shucked adductor muscle.

(49.1) “Outdoor Barbecue” means an open-air preparation by a restaurant of food by cooking over an open fire utilizing either a permanent or portable grill, where the purpose of barbecuing is to impart a unique flavor to the food.

(50) Packaged.
   (a) "Packaged" means bottled, canned, cartoned, securely bagged, or securely wrapped, whether packaged in a food establishment or a food processing plant.
   (b) "Packaged" does not include a wrapper, carry-out box, or other nondurable container used to containerize food with the purpose of facilitating food protection during service and receipt of the food by the consumer.

(51) "Permit" means the document issued by the regulatory authority that authorizes a person to operate a food establishment.
(52) "Permit holder" means the entity that:
   (a) Is legally responsible for the operation of the food establishment such as the owner, the owner's agent, or other
       person; and
   (b) Possesses a valid permit to operate a food establishment.

(53) "Person" means an association, a corporation, individual, partnership, other legal entity, government, or
     governmental subdivision or agency.

(54) "Person in charge" means the individual present at a food establishment who is responsible for the operation at the
     time of inspection.

(55) **Personal Care Items.**
   (a) "Personal care items" means items or substances that may be poisonous, toxic, or a source of contamination
       and are used to maintain or enhance a person's health, hygiene, or appearance.
   (b) "Personal care items" include items such as medicines; first aid supplies; and other items such as cosmetics,
       and toiletries such as toothpaste and mouthwash.

(56) "pH" means the symbol for the negative logarithm of the hydrogen ion concentration, which is a measure of the
     degree of acidity or alkalinity of a solution.
     Values between 0 and 7 indicate acidity and values between 7 and 14 indicate alkalinity. The value for pure distilled
     water is 7, which is considered neutral.

(57) "Physical facilities" means the structure and interior surfaces of a food establishment including accessories such as
     soap and towel dispensers and attachments such as light fixtures and heating or air conditioning system vents.

(58) "Plumbing fixture" means a receptacle or device that:
   (a) Is permanently or temporarily connected to the water distribution system of the premises and demands a supply
       of water from the system; or
   (b) Discharges used water, waste materials, or sewage directly or indirectly to the drainage system of the premises.

(59) "Plumbing system" means the water supply and distribution pipes; plumbing fixtures and traps; soil, waste, and
     vent pipes; sanitary and storm sewers and building drains, including their respective connections, devices, and
     appurtenances within the premises; and water-treating equipment.

(60) "Poisonous or toxic materials" means substances that are not intended for ingestion and are included in 4
     categories:
     (a) Cleaners and sanitizers, which include cleaning and sanitizing agents and agents such as caustics, acids, drying
         agents, polishes, and other chemicals;
     (b) Pesticides, except sanitizers, which include substances such as insecticides and rodenticides;
     (c) Substances necessary for the operation and maintenance of the establishment such as nonfood grade lubricants
         and personal care items that may be deleterious to health; and
     (d) Substances that are not necessary for the operation and maintenance of the establishment and are on the premises
         for retail sale, such as petroleum products and paints.

(61) **Potentially Hazardous Food.**
   (a) "Potentially hazardous food" means a food that is natural or synthetic and that requires temperature control
       because it is in a form capable of supporting:
       (i) The rapid and progressive growth of infectious or toxigenic microorganisms;
       (ii) The growth and toxin production of *Clostridium botulinum*; or
       (iii) In raw shell eggs, the growth of *Salmonella enteritidis*.
   (b) "Potentially hazardous food" includes an animal food (a food of animal origin) that is raw or heat-treated; a
       food of plant origin that is heat-treated or consists of raw seed sprouts; cut melons; and garlic-in-oil mixtures that
       are not modified in a way that results in mixtures that do not support growth as specified under Subparagraph (a) of
       this definition.
(c) "Potentially hazardous food" does not include:
   (i) An air-cooled hard-boiled egg with shell intact;
   (ii) A food with an \(a_n\) value of 0.85 or less;
   (iii) A food with a pH level of 4.6 or below when measured at 24°C (75°F);
   (iv) A food, in an unopened hermetically sealed container, that is commercially processed to achieve and
        maintain commercial sterility under conditions of nonrefrigerated storage and distribution;
   (v) A food for which laboratory evidence demonstrates that the rapid and progressive growth of infectious or
        toxigenic microorganisms or the growth of \(S.\ enteritidis\) in eggs or \(C.\ botulinum\) can not occur, such as a food
        that has an \(a_n\) and a pH that are above the levels specified under Subparagraphs (c)(ii) and (iii) of this definition
        and that may contain a preservative, other barrier to the growth of microorganisms, or a combination of barriers
        that inhibit the growth of microorganisms; or
   (vi) A food that does not support the growth of microorganisms as specified under Subparagraph (a) of this
        definition even though the food may contain an infectious or toxigenic microorganism or chemical or physical
        contaminant at a level sufficient to cause illness.

(62) Poultry.
   (a) "Poultry" means:
       (i) Any domesticated bird (chickens, turkeys, ducks, geese, or guineas), whether live or dead, as defined in 9
           CFR 381 Poultry Products Inspection Regulations; and
       (ii) Any migratory waterfowl, game bird, or squab such as pheasant, partridge, quail, grouse, or guineas,
           whether live or dead, as defined in 9 CFR 362 Voluntary Poultry Inspection Program.
   (b) "Poultry" does not include ratites.

(63) "Premises" means:
   (a) The physical facility, its contents, and the contiguous land or property under the control of the permit holder; or
   (b) The physical facility, its contents, and the land or property not described under Subparagraph
       (a) of this definition if its facilities and contents are under the control of the permit holder and may impact food
       establishment personnel, facilities, or operations, and a food establishment is only one component of a larger
       operation such as a health care facility, hotel, motel, school, recreational camp, or prison.

(63.1) “Preparation” means the process whereby food is transformed into a consumable form. This includes, but is not
limited to, slicing or dicing vegetables, grating cheese, portioning foods, slicing sandwiches, blending foods, or cooking
or reheating foods.

(64) "Primal cut" means a basic major cut into which carcasses and sides of meat are separated, such as a beef round,
pork loin, lamb flank, or veal breast.

(65) "Public water system" has the meaning stated in 40 CFR 141 National Primary Drinking Water Regulations.

(65.1) "Quarterly Sampling" means a sample is taken and submitted according to the following schedule: 1st Quarter
is January 1 through March 31, 2nd Quarter is April 1 through June 30, 3rd Quarter is July 1 through September 30 and
the 4th Quarter is October 1 through December 31.

(65.2) “Raw-to-Finish” means cooking foods that are potentially hazardous when in a raw state to a finished, edible
state. This practice includes, but is not limited to, cooking raw hamburgers or barbecuing raw meats.

(66) Ready-to-Eat Food.
   (a) "Ready-to-eat food" means food that is in a form that is edible without washing, cooking, or additional
       preparation by the food establishment or the consumer and that is reasonably expected to be consumed in that form.
   (b) "Ready-to-eat food" includes:
       (i) Potentially hazardous food that is unpackaged and cooked to the temperature and time required for the
           specific food under Subpart 3-401;
       (ii) Raw, washed, cut fruits and vegetables;
       (iii) Whole, raw fruits and vegetables that are presented for consumption without the need for further washing,
            such as at a buffet; and
       (iv) Other food presented for consumption for which further washing or cooking is not required and from which
            rinds, peels, husks, or shells are removed.
(66.1) **"Recheck Inspection"** means  
(a) An inspection to determine whether specified corrections have been made or alternative procedures maintained for violations identified in previous inspections; or  
(b) An inspection to determine whether specific corrections have been maintained for critical violations creating a significantly increased risk for foodborne illness. Recheck inspections may be conducted either on pre-announced dates or unannounced.

(67) **Reduced Oxygen Packaging.**  
(a) "**Reduced oxygen packaging**" means:  
   (1) The reduction of the amount of oxygen in a package by removing oxygen; displacing oxygen and replacing it with another gas or combination of gases; or otherwise controlling the oxygen content to a level below that normally found in the surrounding, 21% oxygen atmosphere, and  
   (2) A process as specified in Subparagraph (a)(1) of this definition that involves a food for which **Clostridium botulinum** is identified as a microbiological hazard in the final packaged form.  
(b) "**Reduced oxygen packaging**" includes:  
   (i) Vacuum packaging, in which air is removed from a package of food and the package is hermetically sealed so that a vacuum remains inside the package, such as sous vide;  
   (ii) Modified atmosphere packaging, in which the atmosphere of a package of food is modified so that its composition is different from air but the atmosphere may change over time due to the permeability of the packaging material or the respiration of the food. Modified atmosphere packaging includes: reduction in the proportion of oxygen, total replacement of oxygen, or an increase in the proportion of other gases such as carbon dioxide or nitrogen; and  
   (iii) Controlled atmosphere packaging, in which the atmosphere of a package of food is modified so that until the package is opened, its composition is different from air, and continuous control of that atmosphere is maintained, such as by using oxygen scavengers or a combination of total replacement of oxygen, nonrespiring food, and impermeable packaging material.

(68) **"Refuse"** means solid waste not carried by water through the sewage system.

(69) **"Regulatory authority"** means the local, state, or federal enforcement body or authorized representative having jurisdiction over the food establishment.

(69.1) **“Repeat violation”** means a violation of a rule that is the same specific problem or process as indicated on the Food Service Inspection Report occurring in two consecutive semi-annual inspections.

(70) **"Restricted use pesticide"** means a pesticide product that contains the active ingredients specified in 40 CFR 152.175 Pesticides classified for restricted use, and that is limited to use by or under the direct supervision of a certified applicator.

(71) **"Safe material"** means:  
   (a) An article manufactured from or composed of materials that may not reasonably be expected to result, directly or indirectly, in their becoming a component or otherwise affecting the characteristics of any food;  
   (b) An additive that is used as specified in § 409 or 706 of the Federal Food, Drug, and Cosmetic Act; or  
   (c) Other materials that are not additives and that are used in conformity with applicable regulations of the Food and Drug Administration.

(71.1) **“Sample”** as it relates to ORS 624.010 means no more than a two to three ounce portion of a food or beverage.

(72) **"Sanitization"** means the application of cumulative heat or chemicals on cleaned food-contact surfaces that, when evaluated for efficacy, is sufficient to yield a reduction of 5 logs, which is equal to a 99.999% reduction, of representative disease microorganisms of public health importance.

(73) **"Sealed"** means free of cracks or other openings that allow the entry or passage of moisture.

(73.1) **“Semi-annual inspection”** means an unannounced complete inspection conducted twice during the calendar year; one in each half of the year, but not less than 90 days or more than 270 days apart.
(74) "Service animal" means an animal such as a guide dog, signal dog, or other animal individually trained to provide assistance to an individual with a disability.

(75) "Servicing area" means an operating base location to which a mobile food establishment or transportation vehicle returns regularly for such things as vehicle and equipment cleaning, discharging liquid or solid wastes, refilling water tanks and ice bins, and boarding food.

(76) "Sewage" means liquid waste containing animal or vegetable matter in suspension or solution and may include liquids containing chemicals in solution.

(77) "Shellfish control authority" means a state, federal, foreign, tribal, or other government entity legally responsible for administering a program that includes certification of molluscan shellfish harvesters and dealers for interstate commerce.

(78) "Shellstock" means raw, in-shell molluscan shellfish.

(79) "Shucked shellfish" means molluscan shellfish that have one or both shells removed.

(80) "Single-service articles" means tableware, carry-out utensils, and other items such as bags, containers, placemats, stirrers, straws, toothpicks, and wrappers that are designed and constructed for one time, one person use after which they are intended for discard.

(81) Single-Use Articles.
   (a) "Single-use articles" means utensils and bulk food containers designed and constructed to be used once and discarded.
   (b) "Single-use articles" includes items such as wax paper, butcher paper, plastic wrap, formed aluminum food containers, jars, plastic tubs or buckets, bread wrappers, pickle barrels, ketchup bottles, and number 10 cans which do not meet the materials, durability, strength, and cleanability specifications under §§ 4-101.11, 4-201.11, and 4-202.11 for multiuse utensils.

(82) "Slacking" means the process of moderating the temperature of a food such as allowing a food to gradually increase from a temperature of -23°C (-10°F) to -4°C (25°F) in preparation for deep-fat frying or to facilitate even heat penetration during the cooking of previously block-frozen food such as spinach.

(83) "Smooth" means:
   (a) A food-contact surface having a surface free of pits and inclusions with a cleanability equal to or exceeding that of (100 grit) number 3 stainless steel;
   (b) A nonfood-contact surface of equipment having a surface equal to that of commercial grade hot-rolled steel free of visible scale; and
   (c) A floor, wall, or ceiling having an even or level surface with no roughness or projections that render it difficult to clean.

(84) "Table-mounted equipment" means equipment that is not portable and is designed to be mounted off the floor on a table, counter, or shelf.

(85) "Tableware" means eating, drinking, and serving utensils for table use such as flatware including forks, knives, and spoons; hollowware including bowls, cups, serving dishes, and tumblers; and plates.

(86) "Temperature measuring device" means a thermometer, thermocouple, thermistor, or other device that indicates the temperature of food, air, or water.

(87) "Temporary food establishment" means the same as ORS 624.010(6).

(87.1) “Transport Vehicle” means a vehicle used to transport foods or utensils from the base of operation to a mobile food unit.

(88) "USDA" means the U.S. Department of Agriculture.
(89) "Utensil" means a food-contact implement or container used in the storage, preparation, transportation, dispensing, sale, or service of food, such as kitchenware or tableware that is multiuse, single-service, or single-use; gloves used in contact with food; food temperature measuring devices; trays used with highchairs; and probe-type price or identification tags used in contact with food.

(90) "Variance" means a written document issued by the regulatory authority that authorizes a modification or waiver of one or more requirements of this Code if, in the opinion of the regulatory authority, a health hazard or nuisance will not result from the modification or waiver.

(90.1) “Vehicle” means any device in, upon or by which any person or property is or may be transported or drawn upon a public highway, and includes vehicles that are propelled or powered by any means. This definition includes watercraft.

(91) "Vending machine" means a self-service device that, upon insertion of a coin, paper currency, token, card, or key, or by optional manual operation, dispenses unit servings of food in bulk or in packages without the necessity of replenishing the device between each vending operation.

(92) "Vending machine location" means the room, enclosure, space, or area where one or more vending machines are installed and operated and includes the storage areas and areas on the premises that are used to service and maintain the vending machines.

(92.1) “Violation” means any condition that fails to meet a requirement of ORS Chapters 624 or this rule.

(92.2) “Warehouse” means any place where food, utensils, single-service articles, cleaning or servicing supplies for vending machines, mobile units, or commissaries are stored.

(93) "Warewashing" means the cleaning and sanitizing of utensils and food-contact surfaces of equipment.

(94) "Whole-muscle, intact beef" means whole muscle beef that is not injected, mechanically tenderized, reconstructed, or scored and marinated, from which beefsteaks may be cut.
2-1 SUPERVISION

Subparts:  2-101  Responsibility
          2-102  Knowledge
          2-103  Duties

2-101.11 Assignment.*
The permit holder shall be the person in charge or shall designate a person in charge and shall ensure that a person in charge
is present at the food establishment during all hours of operation.

2-102.11 Demonstration.*
Based on the risks of foodborne illness inherent to the food operation, during inspections and upon request the person in
charge shall demonstrate to the regulatory authority knowledge of foodborne disease prevention, application of the Hazard
Analysis Critical Control Point principles, and the requirements of this Code. The person in charge shall demonstrate this
knowledge by compliance with this Code, by being a certified food protection manager who has shown proficiency of
required information through passing a test that is part of an accredited program, a corporate training program approved by
the Department of Human Services, or by responding correctly to the inspector's questions as they relate to the specific food
operation. The areas of knowledge include:

   (A) Describing the relationship between the prevention of foodborne disease and the personal hygiene of a food
       employee;
   (B) Explaining the responsibility of the person in charge for preventing the transmission of foodborne disease by a food
       employee who has a disease or medical condition that may cause foodborne disease;
   (C) Describing the symptoms associated with the diseases that are transmissible through food;
   (D) Explaining the significance of the relationship between maintaining the time and temperature of potentially
       hazardous food and the prevention of foodborne illness;
   (E) Explaining the hazards involved in the consumption of raw or undercooked meat, poultry, eggs, and fish.
   (F) Stating the required food temperatures and times for safe cooking of potentially hazardous food including meat,
       poultry, eggs, and fish.
   (G) Stating the required temperatures and times for the safe refrigerated storage, hot holding, cooling, and reheating of
       potentially hazardous food;
   (H) Describing the relationship between the prevention of foodborne illness and the management and control of the
       following:
       (1) Cross contamination,
       (2) Hand contact with ready-to-eat foods,
       (3) Handwashing, and
       (4) Maintaining the food establishment in a clean condition and in good repair;
   (I) Explaining the relationship between food safety and providing equipment that is:
       (1) Sufficient in number and capacity, and
       (2) Properly designed, constructed, located, installed, operated, maintained, and cleaned;
   (J) Explaining correct procedures for cleaning and sanitizing utensils and food-contact surfaces of equipment;
   (K) Identifying the source of water used and measures taken to ensure that it remains protected from contamination such
       as providing protection from backflow and precluding the creation of cross connections;
(L) Identifying poisonous or toxic materials in the food establishment and the procedures necessary to ensure that they are safely stored, dispensed, used, and disposed of according to law;
(M) Identifying critical control points in the operation from purchasing through sale or service that when not controlled may contribute to the transmission of foodborne illness and explaining steps taken to ensure that the points are controlled in accordance with the requirements of this Code;
(N) Explaining the details of how the person in charge and food employees comply with the HACCP plan if a plan is required by the law, this Code, or an agreement between the regulatory authority and the establishment; and
(O) Explaining the responsibilities, rights, and authorities assigned by this Code to the:
   (1) Food employee,
   (2) Person in charge, and
   (3) Regulatory authority.

2-103.11  Person in Charge.
The person in charge shall ensure that:
(A) Food establishment operations are not conducted in a private home
or in a room used as living or sleeping quarters as specified under § 6-202.111;
(B) Persons unnecessary to the food establishment operation are not allowed in the food preparation, food storage, or warewashing areas, except that brief visits and tours may be authorized by the person in charge if steps are taken to ensure that exposed food; clean equipment, utensils, and linens; and unwrapped single-service and single-use articles are protected from contamination;
(C) Employees and other persons such as delivery and maintenance persons and pesticide applicators entering the food preparation, food storage, and warewashing areas comply with this code;
(D) Employees are effectively cleaning their hands, by routinely monitoring the employees' handwashing;
(E) Employees are visibly observing foods as they are received to determine that they are from approved sources, delivered at the required temperatures, protected from contamination, unadulterated, and accurately presented, by routinely monitoring the employees' observations and periodically evaluating foods upon their receipt;
(F) Employees are properly cooking potentially hazardous food, being particularly careful in cooking those foods known to cause severe foodborne illness and death, such as eggs and comminuted meats, through daily oversight of the employees' routine monitoring of the cooking temperatures using appropriate temperature measuring devices properly scaled and calibrated as specified under § 4-203.11 and ¶ 4-502.11(B);
(G) Employees are using proper methods to rapidly cool potentially hazardous foods that are not held hot or are not for consumption within 4 hours, through daily oversight of the employees' routine monitoring of food temperatures during cooling;
(H) [Deleted]
(I) Employees are properly sanitizing cleaned multiuse equipment and utensils before they are reused, through routine monitoring of solution temperature and exposure time for hot water sanitizing, and chemical concentration, pH, temperature, and exposure time for chemical sanitizing;
(J) Consumers are notified that clean tableware is to be used when they return to self-service areas such as salad bars and buffets as specified under § 3-304.16;
(K) Employees are preventing cross-contamination of ready-to-eat food with bare hands by properly using suitable utensils such as deli tissue, spatulas, tongs, single-use gloves, or dispensing equipment; and
(L) Employees are properly trained in food safety as it relates to their assigned duties.

2-2 EMPLOYEE HEALTH    Subpart: 2-201   Disease or Medical Condition

2-201.12  Exclusions and Restrictions.*
The person in charge shall:
(A) Exclude a food employee from a food establishment if the food employee is diagnosed with an illness listed in OAR 333-019-0010.
(B) Restrict a food employee that has a symptoms caused by illness, infection, or other source that is:
   (1) Associated with an acute gastrointestinal illness such as:
      (a) Diarrhea,
      (b) Fever,
      (c) Vomiting,
      (d) Jaundice, or
      (e) Sore throat with fever, or
(2) A lesion containing pus such as a boil or infected wound that is open or draining and is:
   (a) On the hands or wrists, unless an impermeable cover such as a finger cot or stall protects the lesion and a single-use glove is worn over the impermeable cover,
   (b) On exposed portions of the arms, unless the lesion is protected by an impermeable cover, or
   (c) On other parts of the body, unless the lesion is covered by a dry, durable, tight-fitting bandage;
(3) The food employee is jaundiced.

2-201.13 Removal of Exclusions and Restrictions.
(A) The person in charge may remove an exclusion specified under § 2-201.12(A) if:
   (1) The person in charge obtains approval from the local public health authority; and
   (2) The person excluded as specified under § 2-201.12(A) provides to the person in charge written documentation that specifies that the excluded person may work in an unrestricted capacity in a food establishment because the person is free of the infectious agent of concern.
(B) The person in charge may remove a restriction specified under:
   (1) Subparagraph 2-201.12(B)(1) if the restricted person:
       (a) Is free of the symptoms specified under § 2-201.11(B).

2-201.14 Responsibility of a Food Employee or an Applicant to Report to the Person in Charge.*
A food employee shall:
(A) Report to the person in charge if they have been diagnosed with an illness or are experiencing symptoms specified under § 2-201.12; and
(B) Comply with exclusions and restrictions specified under §§ 2-201.12.

2-201.15 Reporting by the Person in Charge.*
The person in charge shall notify the regulatory authority that a food employee is diagnosed with an illness listed in OAR 333-019-0010.

2-3 PERSONAL CLEANLINESS

Subparts: 2-301 Hands and Arms
          2-302 Fingernails
          2-303 Jewelry
          2-304 Outer Clothing

2-301.11 Clean Condition.*
Food employees shall keep their hands and exposed portions of their arms clean.

2-301.12 Cleaning Procedure.*
(A) Except as specified in ¶ (B) of this section, food employees shall clean their hands by using a cleaning procedure of approximately 20 seconds that includes:
   (1) Vigorous friction on the surfaces of the lathered fingers, finger tips, areas between the fingers, hands and arms for at least 10 to 15 seconds, followed by;
   (2) Thorough rinsing under clean, running water.
(B) If approved and capable of removing the types of soils encountered in the food operations involved, an automatic handwashing facility may be used by food employees to clean their hands.

2-301.13 Special Handwash Procedures.*
(A) After defecating, contacting body fluids and discharges, or handling waste containing fecal matter, body fluids, or body discharges, and before beginning or returning to work, food employees shall wash their hands twice using the cleaning procedure specified in § 2-301.12.
(B) Except when one handwashing lavatory is allowed under § 5-203.11(A), after using the toilet facility food employees shall wash their hands twice, first at a handwashing lavatory in the toilet facility and again at a handwashing lavatory in the food preparation area.
2-301.14 When to Wash.*
Food employees shall clean their hands and exposed portions of their arms as specified under § 2-301.12 immediately before engaging in food preparation including working with exposed food, clean equipment and utensils, and unwrapped single-service and single-use articles and:
(A) After touching bare human body parts other than clean hands and clean, exposed portions of arms;
(B) After using the toilet room;
(C) After caring for or handling service animals or aquatic animals as specified in ¶ 2-403.11(B);
(D) Except as specified in ¶ 2-401.11(B), after coughing, sneezing, using a handkerchief or disposable tissue, using tobacco, eating, or drinking;
(E) After handling soiled equipment or utensils;
(F) During food preparation, as often as necessary to remove soil and contamination and to prevent cross contamination when changing tasks;
(G) When switching between working with raw food and working with ready-to-eat food; and
(H) After engaging in other activities that contaminate the hands.

2-301.15 Where to Wash.
Food employees shall clean their hands in a handwashing lavatory or approved automatic handwashing facility and may not clean their hands in a sink used for food preparation, or in a service sink or a curbed cleaning facility used for the disposal of mop water and similar liquid waste.

2-301.16 Hand Sanitizers.
(A) A hand sanitizer and a chemical hand sanitizing solution used as a hand dip shall be used according to labeled directions and be applied only to hands that are cleaned as specified under § 2-301.12.
(B) A chemical hand sanitizing solution used as a hand dip shall be maintained clean and at a strength equivalent to at least 100 mg/L chlorine.

2-302.11 Maintenance.
(A) Food employees shall keep their fingernails trimmed, filed, and maintained so the edges and surfaces are cleanable and not rough.
(B) Unless wearing intact gloves in good repair, a food employee may not wear fingernail polish or artificial fingernails when working with exposed food.

2-303.11 Prohibition.
While preparing food, food employees may not wear jewelry on their arms and hands. This section does not apply to a plain ring such as a wedding band.

2-304.11 Clean Condition.
Food employees shall wear clean outer clothing to prevent contamination of food, equipment, utensils, linens, and single-service and single-use articles.

2-4 HYGIENIC PRACTICES

Subparts: 2-401 Food Contamination Prevention
          2-402 Hair Restraints
          2-403 Animals

2-401.11 Eating, Drinking, or Using Tobacco.
(A) Except as specified in ¶ (B) of this section, an employee shall eat, drink, or use any form of tobacco only in designated areas where the contamination of exposed food; clean equipment, utensils, and linens; unwrapped single-service and single-use articles; or other items needing protection can not result.
(B) A food employee may drink from a closed beverage container if the container is handled to prevent contamination of:
   (1) The employee's hands;
   (2) The container; and
   (3) Exposed food; clean equipment, utensils, and linens; and unwrapped single-service and single-use articles.
2-401.12 **Discharges from the Eyes, Nose, and Mouth.**
Food employees experiencing persistent sneezing, coughing, or a runny nose that causes discharges from the eyes, nose, or mouth may not work with exposed food; clean equipment, utensils, and linens; or unwrapped single-service or single-use articles.

2-402.11 **Effectiveness.**
(A) Employees shall use effective hair restraints to prevent the contamination of food or food-contact surfaces.
(B) This section does not apply to food employees such as counter staff who only serve beverages and wrapped or packaged foods, hostesses, and wait staff if they present a minimal risk of contaminating exposed food; clean equipment, utensils, and linens; and unwrapped single-service and single-use articles.

2-403.11 **Handling Prohibition.**
(A) Except as specified in ¶ (B) of this section, food employees may not care for or handle animals that may be present such as patrol dogs, service animals, or pets that are allowed as specified in Subparagraphs 6-501.115(B)(2)-(5).
(B) Food employees with service animals may handle or care for their service animals and food employees may handle or care for fish in aquariums or molluscan shellfish or crustacea in display tanks if they wash their hands as specified under § 2-301.12 and ¶ 2-301.14(C).

Food

Parts
3-1 CHARACTERISTICS
3-2 SOURCES, SPECIFICATIONS, AND ORIGINAL CONTAINERS AND RECORDS
3-3 PROTECTION FROM CONTAMINATION AFTER RECEIVING
3-4 DESTRUCTION OF ORGANISMS OF PUBLIC HEALTH CONCERN
3-5 LIMITATION OF GROWTH OF ORGANISMS OF PUBLIC HEALTH CONCERN
3-6 FOOD IDENTITY, PRESENTATION, AND ON-PREMISES LABELING
3-7 CONTAMINATED FOOD
3-8 SPECIAL REQUIREMENTS FOR HIGHLY SUSCEPTIBLE POPULATIONS

3-1 CHARACTERISTICS Subpart 3-101 Condition

3-101.11 Safe, Unadulterated, and Honestly Presented.*
Food shall be safe, unadulterated, and, as specified under § 3-601.12, honestly presented.

3-2 SOURCES, SPECIFICATIONS, AND ORIGINAL CONTAINERS AND RECORDS
Subparts 3-201 Sources
3-202 Specifications for Receiving
3-203 Original Containers and Records

3-201.11 Compliance with Food Law.*
(A) Food shall be obtained from sources that comply with law.
(B) Except as specified in ¶¶ (I) and (J) of this section, food prepared in a private home may not be used or offered for human consumption in a food establishment.
(C) Packaged food shall be labeled as specified in law, including 21 CFR 101 Food Labeling, 9 CFR 317 Labeling, Marking Devices, and Containers, and 9 CFR 381 Subpart N Labeling and Containers, and as specified under §§ 3-202.17 and 3-202.18.
(D) Fish, other than molluscan shellfish, that are intended for consumption in their raw form and allowed as specified in Subparagraph 3-401.11(D)(2) may be offered for sale or service if they are obtained from a supplier that freezes the fish as specified under § 3-402.11; or frozen on the premises as specified under § 3-402.11 and records are retained as specified under § 3-402.12.
(E) Whole-muscle, intact beef steaks that are intended for consumption in an undercooked form without a consumer advisory as specified in ¶ 3-401.11(C) shall be:
   (1) Obtained from a food processing plant that packages the steaks and labels them to indicate that they meet the definition of whole-muscle, intact beef; or
   (2) If individually cut in a food establishment:
       (a) Cut from whole-muscle intact beef that is labeled by a food processing plant to indicate that the beef meets the definition of whole-muscle, intact beef,
       (b) Prepared so they remain intact, and
       (c) If packaged for undercooking in a food establishment, labeled to indicate that they meet the definition of whole-muscle, intact beef.
(F) Meat and poultry that is not a ready-to-eat food and is in a packaged form when it is offered for sale or otherwise offered for consumption, shall be labeled to include safe handling instructions as specified in law, including 9 CFR 317.2(l) and 9 CFR 381.125(b).
(G) Game meat which has been donated to a charitable organization and has been inspected and processed as provided in ORS 619.095 may be served for human consumption by that charitable organization.
(H) Except as required in ¶¶ 3-201.11(A) through (G) of this section and in accordance with ORS 624.035 any person, business or volunteer group may donate food to a benevolent organization that meets the requirements in ORS 624.015. The Internal Revenue Service (IRS) will issue a “letter of determination” that should be used as the basis for assessing compliance with benevolent status of ORS 624.015. The person, business or volunteer group making the donation shall inspect the food to ensure its fitness for human consumption and discard all food that is unwholesome. The following donated food items are approved for use by benevolent organizations:

1. Commercially prepared foods, canned goods, and milk products, marine and freshwater fishery products or meat animals; i.e., cattle, sheep, goats, equine, swine, poultry or rabbits obtained from facilities licensed by the Oregon Department of Agriculture or the Department of Human Services according to ORS 603.616, and ORS Chapters 621, 622, 624, 625 and 635;
2. Home baked bread, rolls, pies, cakes, doughnuts or pastries not having perishable fillings, icings, toppings or glazes;
3. Salvageable food which has lost the label or which has been subjected to possible damage due to accident, fire, flood, adverse weather or similar cause. Reconditioning of salvageable food shall be conducted according to the 1984 Model Food Salvage Code recommended by the Association of Food and Drug Officials and U.S. Department of Health and Human Services;
4. Other food as may be approved by the Department of Human Services upon prior notification by the donor or benevolent organization;
5. Unless alternative language has been approved by the regulatory authority, a notice shall be posted in public view that says: “NOTICE: Food served at this location may not have been inspected by the health department.”
6. Privately donated breads, rolls, pies, cakes, doughnuts or other pastries not having perishable fillings, icings, toppings or glazes may be used in temporary food establishments operated by benevolent organizations for fund-raising events, provided they meet the requirements under ¶ 3-201.11(H)(6).

(J) Food prepared in a private home that is licensed as a home processor by the Oregon Department of Agriculture.

3-201.12 Food in a Hermetically Sealed Container.*
Food in a hermetically sealed container shall be obtained from a food processing plant that is regulated by the food regulatory agency that has jurisdiction over the plant.

3-201.13 Fluid Milk and Milk Products.*
Fluid milk and milk products shall be obtained from sources that comply with Grade A standards as specified in law.

3-201.14 Fish.*
(A) Fish that are received for sale or service shall be:
1. Commercially and legally caught or harvested; or
2. Approved for sale or service.
(B) Molluscan shellfish that are recreationally caught may not be received for sale or service.

3-201.15 Molluscan Shellfish.*
(A) Molluscan shellfish shall be obtained from sources according to law and the requirements specified in the U.S. Department of Health and Human Services, Public Health Service, Food and Drug Administration, National Shellfish Sanitation Program Guide for the Control of Molluscan Shellfish.
(B) Molluscan shellfish received in interstate commerce shall be from sources that are listed in the Interstate Certified Shellfish Shippers List.

3-201.16 Wild Mushrooms.*
[Deleted]

3-201.17 Game Animals.*
(A) If game animals are received for sale or service they shall be:
1. Commercially raised for food and:
   a. Raised slaughtered, and processed under a voluntary inspection program that is conducted by the agency that has animal health jurisdiction,
   b. Under a routine inspection program conducted by a regulatory agency other than the agency that has animal health jurisdiction, and
(c) Raised, slaughtered, and processed according to:
   (i) Laws governing meat and poultry as determined by the agency that has animal health jurisdiction and the agency that conducts the inspection program, and
   (ii) Requirements which are developed by the agency that has animal health jurisdiction and the agency that conducts the inspection program with consideration of factors such as the need for antemortem and postmortem examination by an approved veterinarian or veterinarian’s designee;
(2) Under a voluntary inspection program administered by the USDA for game animals such as exotic animals (reindeer, elk, deer, antelope, water buffalo, or bison) that are "inspected and approved" in accordance with 9 CFR 352 Voluntary Exotic Animal Program or rabbits that are “inspected and certified” in accordance with 9 CFR 354 Rabbit Inspection Program;
(3) As allowed by law, for wild game animals that are live-caught:
   (a) Under a routine inspection program conducted by a regulatory agency such as the agency that has animal health jurisdiction, and
   (b) Slaughtered and processed according to:
       (i) Laws governing meat and poultry as determined by the agency that has animal health jurisdiction and the agency that conducts the inspection program, and
       (ii) Requirements which are developed by the agency that has animal health jurisdiction and the agency that conducts the inspection program with consideration of factors such as the need for antemortem and postmortem examination by an approved veterinarian or veterinarian’s designee; or
(4) As allowed by law, for field-dressed wild game animals under a routine inspection program that ensures the animals:
   (a) Receive a postmortem examination by an approved veterinarian or veterinarian's designee, or
   (b) Are field-dressed and transported according to requirements specified by the agency that has animal health jurisdiction and the agency that conducts the inspection program, and
   (c) Are processed according to laws governing meat and poultry as determined by the agency that has animal health jurisdiction and the agency that conducts the inspection program.
(5) Except as specified in ¶¶ (A)(1) through (4) of this section,
   (a) Game meat donated to a charitable organization shall be inspected by employees of the Oregon Department of Agriculture, Department of Fish and Wildlife, or State Police as provided for in ORS 619.095 may be served for human consumption by that charitable organization.
   (b) As used in subparagraph (a) of this section:
       (i) Charitable organization means the Adult and Family Services Division, State Office for Services to Children and Families, Youth Authority, Department of Corrections institutions, low-income nutritional centers, public school nutritional centers, senior nutritional centers, state hospitals and other charitable organizations or public institutions approved by the Department of Fish and Wildlife.
       (ii) Game meat includes antelope, bighorn sheep, deer, elk, moose and mountain goat.

3-201.18 Outdoor Barbecuing.*
(A) Outdoor barbecuing by a food establishment shall be allowed as a part of the operation when conducted on the premise or in the immediate vicinity of the food establishment.
(B) Enclosure of an outdoor barbecue shall not be required unless necessary to protect food from contamination.

3-202.11 Temperature.*
(A) Except as specified in ¶ (B) of this section, refrigerated, potentially hazardous food shall be at a temperature of 5°C (41°F) or below when received.
(B) If a temperature other than 5°C (41°F) for a potentially hazardous food is specified in law governing its distribution, such as laws governing milk, molluscan shellfish, and shell eggs, the food may be received at the specified temperature.
(C) Potentially hazardous food that is cooked to a temperature and for a time specified under §§ 3-401.11 - 3-401.13 and received hot shall be at a temperature of 60°C (140°F) or above.
(D) A food that is labeled frozen and shipped frozen by a food processing plant shall be received frozen.
(E) Upon receipt, potentially hazardous food shall be free of evidence of previous temperature abuse.

3-202.12 Additives.*
Food may not contain unapproved food additives or additives that exceed amounts specified in 21 CFR 170-180 relating to food additives, generally recognized as safe or prior sanctioned substances that exceed amounts specified in 21 CFR 181-186, substances that exceed amounts specified in 9 CFR 318.7 Approval of substances for use in the preparation of products, or pesticide residues that exceed provisions specified in 40 CFR 185 Tolerances for Pesticides in Food.
3-202.13 Shell Eggs.*
Shell eggs shall be received clean and sound and may not exceed the restricted egg tolerances for U.S. Consumer Grade B as specified in 7 CFR Part 56 - Regulations Governing the Grading of Shell Eggs and U.S. Standards, Grades, and Weight classes for Shell Eggs, and 7 CFR Part 59 - Regulations Governing the Inspection of Eggs and Egg Products.

3-202.14 Eggs and Milk Products, Pasteurized.*
(A) Liquid, frozen, and dry eggs and egg products shall be obtained pasteurized.
(B) Fluid and dry milk and milk products complying with Grade A standards as specified in law shall be obtained pasteurized.
(C) Frozen milk products, such as ice cream, shall be obtained pasteurized as specified in 21 CFR 135 - Frozen Desserts.
(D) Cheese shall be obtained pasteurized unless alternative procedures to pasteurization are specified in the CFR, such as 21 CFR 133 - Cheeses and Related Cheese Products, for curing certain cheese varieties.

3-202.15 Package Integrity.*
Food packages shall be in good condition and protect the integrity of the contents so that the food is not exposed to adulteration or potential contaminants.

3-202.16 Ice.*
Ice for use as a food or a cooling medium shall be made from drinking water.

3-202.17 Shucked Shellfish, Packaging and Identification.
(A) Raw shucked shellfish shall be obtained in nonreturnable packages which bear a legible label that identifies the:
   (1) Name, address, and certification number of the shucker-packer or repacker of the molluscan shellfish; and
   (2) The "sell by" date for packages with a capacity of less than 1.87 L (one-half gallon) or the date shucked for packages with a capacity of 1.87 L (one-half gallon) or more.
(B) A package of raw shucked shellfish that does not bear a label or which bears a label which does not contain all the information as specified under ¶ (A) of this section shall be subject to a hold order, as allowed by law, or seizure and destruction in accordance with 21 CFR Subpart D - Specific Administrative Decisions Regarding Interstate Shipments, Section 1240.60(d).

3-202.18 Shellstock Identification.*
(A) Shellstock shall be obtained in containers bearing legible source identification tags or labels that are affixed by the harvester and each dealer that depurates, ships, or reships the shellstock, as specified in the National Shellfish Sanitation Program Guide for the Control of Molluscan Shellfish, and that list:
   (1) Except as specified under ¶ (C) of this section, on the harvester's tag or label, the following information in the following order:
      (a) The harvester's identification number that is assigned by the shellfish control authority,
      (b) The date of harvesting,
      (c) The most precise identification of the harvest location or aquaculture site that is practicable based on the system of harvest area designations that is in use by the shellfish control authority and including the abbreviation of the name of the state or country in which the shellfish are harvested,
      (d) The type and quantity of shellfish, and
      (e) The following statement in bold, capitalized type: "This tag is required to be attached until container is empty or retagged and thereafter kept on file for 90 days;" and
   (2) Except as specified in ¶ (D) of this section, on each dealer's tag or label, the following information in the following order:
      (a) The dealer's name and address, and the certification number assigned by the shellfish control authority,
      (b) The original shipper's certification number including the abbreviation of the name of the state or country in which the shellfish are harvested,
      (c) The same information as specified for a harvester's tag under Subparagraphs (A)(1)(b)-(d) of this section, and
      (d) The following statement in bold, capitalized type: "This tag is required to be attached until container is empty and thereafter kept on file for 90 days."
(B) A container of shellstock that does not bear a tag or label or that bears a tag or label that does not contain all the information as specified under ¶ (A) of this section shall be subject to a hold order, as allowed by law, or seizure and destruction in accordance with 21 CFR Subpart D - Specific Administrative Decisions Regarding Interstate Shipments, Section 1240.60(d).
(C) If a place is provided on the harvester's tag or label for a dealer's name, address, and certification number, the dealer's information shall be listed first.
(D) If the harvester's tag or label is designed to accommodate each dealer's identification as specified under Subparagraphs (A)(2)(a) and (b) of this section, individual dealer tags or labels need not be provided.

3-202.19  Shellstock, Condition.
When received by a food establishment, shellstock shall be reasonably free of mud, dead shellfish, and shellfish with broken shells. Dead shellfish or shellstock with badly broken shells shall be discarded.

3-203.11  Molluscan Shellfish, Original Container.
(A) Except as specified in ¶¶ (B) and (C) of this section, molluscan shellfish may not be removed from the container in which they are received other than immediately before sale or preparation for service.
(B) Shellstock may be removed from the container in which they are received, displayed on drained ice, or held in a display container, and a quantity specified by a consumer may be removed from the display or display container and provided to the consumer if:
   (1) The source of the shellstock on display is identified as specified under § 3-202.18 and recorded as specified under § 3-203.12; and
   (2) The shellstock are protected from contamination.
(C) Shucked shellfish may be removed from the container in which they were received and held in a display container from which individual servings are dispensed upon a consumer's request if:
   (1) The labeling information for the shellfish on display as specified under § 3-202.17 is retained and correlated to the date when, or dates during which, the shellfish are sold or served; and
   (2) The shellfish are protected from contamination.

3-203.12  Shellstock, Maintaining Identification.*
(A) Except as specified under Subparagraph (B)(2) of this section, shellstock tags shall remain attached to the container in which the shellstock are received until the container is empty.
(B) The identity of the source of shellstock that are sold or served shall be maintained by retaining shellstock tags or labels for 90 calendar days from the date the container is emptied by:
   (1) Using an approved record keeping system that keeps the tags or labels in chronological order correlated to the date when, or dates during which, the shellstock are sold or served; and
   (2) If shellstock are removed from their tagged or labeled container:
      (a) Using only 1 tagged or labeled container at a time, or
      (b) Using more than 1 tagged or labeled container at a time and obtaining a variance from the regulatory authority as specified in § 8-103.10 based on a HACCP plan that:
         (i) Is submitted by the permit holder and approved as specified under § 8-103.11,
         (ii) Preserves source identification by using a record keeping system as specified under Subparagraph (B)(1) of this section, and
         (iii) Ensures that shellstock from one tagged or labeled container are not commingled with shellstock from another container before being ordered by the consumer.

3-3 PROTECTION FROM CONTAMINATION AFTER RECEIVING

Subparts 3-301 Preventing Contamination by Employee
3-302 Preventing Food and Ingredient Contamination
3-303 Preventing Contamination from Ice Used as a Coolant
3-304 Preventing Contamination from Equipment, Utensils, and Linens
3-305 Preventing Contamination from the Premises
3-306 Preventing Contamination by Consumers
3-307 Preventing Contamination from Other Sources

3-301.11  Preventing Contamination from Hands.*
(A) Food employees shall wash their hands as specified under §§ 2-301.12 and 2-301.13.
(B) Food employees shall minimize bare hand contact with food and shall use suitable utensils such as deli tissue, spatulas, tongs, single-use gloves, or dispensing equipment.
3-301.12 Preventing Contamination when Tasting.*
A food employee may not use a utensil more than once to taste food that is to be sold or served.

3-302.11 Packaged and Unpackaged Food - Separation, Packaging, and Segregation.*
(A) Food shall be protected from cross contamination by:
(1) Separating raw animal foods during storage, preparation, holding, and display from:
   (a) Raw ready-to-eat food including other raw animal food such as fish for sushi or molluscan shellfish, or other raw
       ready-to-eat food such as vegetables,
   (b) Cooked ready-to-eat food, and
   (c) Raw ready-to-eat food shall be stored separately from ready-to-eat food;
(2) Except when combined as ingredients, separating types of raw animal foods from each other such as beef, fish, lamb,
    pork, and poultry during storage, preparation, holding, and display by:
   (a) Using separate equipment for each type, or
   (b) Arranging each type of food in equipment so that cross contamination of one type with another is prevented, and
   (c) Preparing each type of food at different times or in separate areas;
   (d) If stored vertically, raw animal foods must be stored in ascending order of cooking temperature as specified in §
       3-401.11, with the highest required cooking temperature stored at the lowest level;
(3) Cleaning equipment and utensils as specified under ¶ 4-602.11(A) and sanitizing as specified under § 4-703.11;
(4) Except as specified in ¶ (B) of this section, storing the food in packages, covered containers, or wrappings;
(5) Cleaning hermetically sealed containers of food of visible soil before opening;
(6) Protecting food containers that are received packaged together in a case or overwrap from cuts when the case or
    overwrap is opened;
(7) Storing damaged, spoiled, or recalled food being held in the food establishment as specified under § 6-404.11; and
(8) Separating fruits and vegetables, before they are washed as specified under § 3-302.15 from ready-to-eat food.
(B) Subparagraph (A)(4) of this section does not apply to:
(1) Whole, uncut, raw fruits and vegetables and nuts in the shell, that require peeling or hulling before consumption;
(2) Primal cuts, quarters, or sides of raw meat or slab bacon that are hung on clean, sanitized hooks or placed on clean,
    sanitized racks;
(3) Whole, uncut, processed meats such as country hams, and smoked or cured sausages that are placed on clean,
    sanitized racks;
(4) Food being cooled as specified under Subparagraph 3-501.15(B)(2); or
(5) Shellstock.

3-302.12 Food Storage Containers, Identified with Common Name of Food.
Working containers holding food or food ingredients that are removed from their original packages for use in the food
establishment, such as cooking oils, flour, herbs, potato flakes, salt, spices, and sugar shall be identified with the common
name of the food except that containers holding food that can be readily and unmistakably recognized such as dry pasta need
not be identified.

3-302.13 Pasteurized Eggs, Substitute for Raw Shell Eggs for Certain Recipes.*
Pasteurized eggs or egg products shall be substituted for raw shell eggs in the preparation of foods such as Caesar salad,
hollandaise or Béarnaise sauce, mayonnaise, eggnog, ice cream, and egg-fortified beverages that are not:
(A) Cooked as specified under Subparagraphs 3-401.11(A)(1) or (2); or
(B) Included in Subparagraph 3-401.11(D).

3-302.14 Protection from Unapproved Additives.*
(A) Food shall be protected from contamination that may result from the addition of, as specified in § 3-202.12:
   (1) Unsafe or unapproved food or color additives; and
   (2) Unsafe or unapproved levels of approved food and color additives.
(B) A food employee may not:
   (1) Apply sulfiting agents to fresh fruits and vegetables intended for raw consumption or to a food considered to be a
good source of vitamin B1; or
   (2) Serve or sell food specified under Subparagraph (B)(1) of this section that is treated with sulfiting agents before
       receipt by the food establishment, except that grapes need not meet this subparagraph.
3-302.15 Washing Fruits and Vegetables.
(A) Raw fruits and vegetables shall be thoroughly washed in water to remove soil and other contaminants before being cut, combined with other ingredients, cooked, served, or offered for human consumption in ready-to-eat form except as specified in (B) of this section and except that whole, raw fruits and vegetables that are intended for washing by the consumer before consumption need not be washed before they are sold.
(B) Fruits and vegetables may be washed by using chemicals as specified under § 7-204.12.

3-303.11 Ice Used as Exterior Coolant, Prohibited as Ingredient.
After use as a medium for cooling the exterior surfaces of food such as melons or fish, packaged foods such as canned beverages, or cooling coils and tubes of equipment, ice may not be used as food.

3-303.12 Storage or Display of Food in Contact with Water or Ice.
(A) Packaged food may not be stored in direct contact with ice or water if the food is subject to the entry of water because of the nature of its packaging, wrapping, or container or its positioning in the ice or water.
(B) Except as specified in ¶¶ (C) and (D) of this section, unpackaged food may not be stored in direct contact with undrained ice.
(C) Whole, raw fruits or vegetables; cut, raw vegetables such as celery or carrot sticks or cut potatoes; and tofu may be immersed in ice or water.
(D) Raw chicken and raw fish that are received immersed in ice in shipping containers may remain in that condition while in storage awaiting preparation, display, service, or sale.

3-304.11 Food Contact with Equipment and Utensils.*
Food shall only contact surfaces of equipment and utensils that are cleaned as specified under Part 4-6 of this Code and sanitized as specified under Part 4-7 of this Code.

3-304.12 In-Use Utensils, Between-Use Storage.
During pauses in food preparation or dispensing, food preparation and dispensing utensils shall be stored:
(A) Except as specified under ¶ (B) of this section, in the food with their handles above the top of the food and the container;
(B) In food that is not potentially hazardous with their handles above the top of the food within containers or equipment that can be closed, such as bins of sugar, flour, or cinnamon;
(C) On a clean portion of the food preparation table or cooking equipment only if the in-use utensil and the food-contact surface of the food preparation table or cooking equipment are cleaned and sanitized at a frequency specified under §§ 4-602.11 and 4-702.11;
(D) In running water of sufficient velocity to flush particulates to the drain, if used with moist food such as ice cream or mashed potatoes;
(E) In a clean, protected location if the utensils, such as ice scoops, are used only with a food that is not potentially hazardous; or
(F) In a container of water if the container is cleaned at a frequency specified under Subparagraph 4-602.11(D)(7); and
   (1) The water is maintained at a temperature of 60°C (140°F) or above; or
   (2) At 5°C (41°F) or less.

3-304.13 Linens and Napkins, Use Limitation.
Linens and napkins may not be used in contact with food unless they are used to line a container for the service of foods and the linens and napkins are replaced each time the container is refilled for a new consumer.

3-304.14 Wiping Cloths, Use Limitation.
(A) Cloths that are in use for wiping food spills shall be used for no other purpose.
(B) Cloths used for wiping food spills shall be:
   (1) Dry and used for wiping food spills from tableware and carry-out containers; or
   (2) Wet and cleaned as specified under ¶ 4-802.11(D), stored in a chemical sanitizer at a concentration specified in § 4-501.114, and used for wiping spills from food-contact and nonfood-contact surfaces of equipment.
(C) Dry or wet cloths that are used with raw animal foods shall be kept separate from cloths used for other purposes, and wet cloths used with raw animal foods shall be kept in a separate sanitizing solution.
(D) Wet wiping cloths used with a freshly made sanitizing solution and dry wiping cloths shall be free of food debris and visible soil.
3-304.15 Gloves, Use Limitation.
(A) If used, single-use gloves shall be used for only one task such as working with ready-to-eat food or with raw animal food, used for no other purpose, and discarded when damaged or soiled, or when interruptions occur in the operation.
(B) Except as specified in ¶ (C) of this section, slash-resistant gloves that are used to protect the hands during operations requiring cutting shall be used in direct contact only with food that is subsequently cooked as specified under Part 3-4 such as frozen food or a primal cut of meat.
(C) Slash-resistant gloves may be used with ready-to-eat food that will not be subsequently cooked if the slash-resistant gloves have a smooth, durable, and nonabsorbent outer surface; or if the slash-resistant gloves are covered with a smooth, durable, nonabsorbent glove, or a single-use glove.
(D) Cloth gloves may not be used in direct contact with food unless the food is subsequently cooked as required under Part 3-4 such as frozen food or a primal cut of meat.
(E) Effective March 1, 2003, the use of latex gloves in food service establishments is prohibited.

3-304.16 Using Clean Tableware for Second Portions and Refills.
(A) Except for refilling a consumer’s drinking cup or container without contact between the pouring utensil and the lip-contact area of the drinking cup or container, food employees may not use tableware, including single-service articles, soiled by the consumer, to provide second portions or refills.
(B) Except as specified in ¶ (C) of this section, self-service consumers may not be allowed to use soiled tableware, including single-service articles, to obtain additional food from the display and serving equipment.
(C) Drinking cups and containers may be reused by self-service consumers if refilling is a contamination-free process as specified under ¶ 4-204.13(A), (B), and (D).

3-304.17 Refilling Returnables.
(A) A take-home food container returned to a food establishment may not be refilled at a food establishment with a potentially hazardous food.
(B) Except as specified in ¶ (C), a take-home food container refilled with food that is not potentially hazardous shall be cleaned as specified under § 4-603.17(B).
(C) Personal take-out beverage containers, such as thermally insulated bottles, nonspill coffee cups, and promotional beverage glasses, may be refilled by employees or the consumer if refilling is a contamination-free process as specified under ¶¶ 4-204.13(A), (B), and (D).

3-305.11 Food Storage.
(A) Except as specified in ¶ (B) and (C) of this section, food shall be protected from contamination by storing the food:
   1. In a clean, dry location;
   2. Where it is not exposed to splash, dust, or other contamination; and
   3. At least 15 cm (6 inches) above the floor.
(B) Food in packages and working containers may be stored less than 15 cm (6 inches) above the floor on case lot handling equipment as specified under § 4-204.122.
(C) Pressurized beverage containers, cased food in waterproof containers such as bottles or cans, and milk containers in plastic crates may be stored on a floor that is clean and not exposed to floor moisture.

3-305.12 Food Storage, Prohibited Areas.
Food may not be stored:
(A) In locker rooms;
(B) In toilet rooms;
(C) In dressing rooms;
(D) In garbage rooms;
(E) In mechanical rooms;
(F) Under sewer lines that are not shielded to intercept potential drips;
(G) Under leaking water lines, including leaking automatic fire sprinkler heads, or under lines on which water has condensed;
(H) Under open stairwells; or
(I) Under other sources of contamination.

3-305.13 Vended Potentially Hazardous Food, Original Container.
Potentially hazardous food dispensed through a vending machine shall be in the package in which it was placed at the food establishment or food processing plant at which it was prepared.
3-305.14 Food Preparation.
During preparation, unpackaged food shall be protected from environmental sources of contamination.

3-306.11 Food Display.
Except for nuts in the shell and whole, raw fruits and vegetables that are intended for hulling, peeling, or washing by the consumer before consumption, food on display shall be protected from contamination by the use of packaging; counter, service line, or salad bar food guards; display cases; or other effective means.

3-306.12 Condiments, Protection.
(A) Condiments shall be protected from contamination by being kept in dispensers that are designed to provide protection, protected food displays provided with the proper utensils, original containers designed for dispensing, or individual packages or portions.
(B) Condiments at a vending machine location shall be in individual packages or provided in dispensers that are filled at an approved location, such as the food establishment that provides food to the vending machine location, a food processing plant that is regulated by the agency that has jurisdiction over the operation, or a properly equipped facility that is located on the site of the vending machine location.

3-306.13 Consumer Operations.*
(A) Raw, unpackaged animal food, such as beef, lamb, pork, poultry, and fish may not be offered for consumer self-service. This paragraph does not apply to consumer self-service of ready-to-eat foods at buffets or salad bars that serve foods such as sushi or raw shellfish; ready-to-cook individual portions for immediate cooking and consumption on the premises such as consumer-cooked meats or consumer-selected ingredients for Mongolian barbecue; or raw, frozen, shell-on shrimp or lobster. (B) Consumer self-service operations for ready-to-eat foods shall be provided with suitable utensils or effective dispensing methods that protect the food from contamination. (C) Consumer self-service operations such as buffets and salad bars shall be monitored by food employees trained in safe operating procedures.

3-306.14 Returned Food and Reservice of Food.*
(A) Except as specified in ¶ (B) of this section, after being served or sold and in the possession of a consumer, food that is unused or returned by the consumer may not be offered as food for human consumption. (B) Except as specified under ¶ 3-801.11(C), a container of food that is not potentially hazardous may be transferred from one consumer to another if:
   1. The food is dispensed so that it is protected from contamination and the container is closed between uses, such as a narrow-neck bottle containing catsup, steak sauce, or wine; or
   2. The food, such as crackers, salt, or pepper, is in an unopened original package and is maintained in sound condition.

3-306.15 Outdoor Barbecue, Serving Consumers.
(A) Consumers may not serve themselves from an outdoor barbecue. (B) The food employee may serve:
   1. An employee who brings a container or plate from the food establishment to the barbecue and who returns the food to the food establishment for further processing or service; or
   2. The consumer directly. (C) Except for non-potentially hazardous condiments, such as hot sauces, ketchup, mayonnaise, mustard, pepper, relish, salt, and sugar, no other food may be served outside of the food establishment.

3-307.11 Miscellaneous Sources of Contamination.
Food shall be protected from contamination that may result from a factor or source not specified under Subparts 3-301 - 3-306.

3-307.12 Protection from Contamination, Use of Private Vehicles for Food Deliveries.
(A) Private vehicles may be used for food deliveries if the food is packaged so that it is protected from contamination under Part 3-3, and adequate means are provided for maintaining proper food temperatures under §3-501.16. (B) Private vehicles shall not be used in any activity that is incompatible with safe and sanitary transportation of food.
Subparts 3-401 Cooking
3-402 Freezing
3-403 Reheating

3-401.11 Raw Animal Foods.*
(A) Except as specified under ¶ (B) and in ¶¶ (C) and (D) of this section, raw animal foods such as eggs, fish, meat, poultry, and foods containing these raw animal foods, shall be cooked to heat all parts of the food to a temperature and for a time that complies with one of the following methods based on the food that is being cooked:
(1) 63°C (145°F) or above for 15 seconds for:
(a) Raw shell eggs that are broken and prepared in response to a consumer's order and for immediate service, and
(b) Except as specified under Subparagraphs (A)(2) and (3) and (B) of this section, fish, meat, and pork including game animals commercially raised for food as specified under Subparagraph 3-201.17(A)(1) and game animals under a voluntary inspection program as specified under Subparagraph 3-201.17(A)(2);
(2) 68°C (155°F) for 15 seconds or the temperature specified in the following chart that corresponds to the holding time for ratites and injected meats; the following if they are comminuted: fish, meat, game animals commercially raised for food as specified under Subparagraph 3-201.17(A)(1), and game animals under a voluntary inspection program as specified under Subparagraph 3-201.17(A)(2); and raw eggs that are not prepared as specified under Subparagraph (A)(1)(a) of this section:

<table>
<thead>
<tr>
<th>Minimum Temperature °C (°F)</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>63 (145)</td>
<td>3 minutes</td>
</tr>
<tr>
<td>66 (150)</td>
<td>1 minute</td>
</tr>
<tr>
<td>70 (158)</td>
<td>&lt;1 second (instantaneous)</td>
</tr>
</tbody>
</table>

;or
(3) 74°C (165°F) or above for 15 seconds for poultry, wild game animals as specified under Subparagraphs 3-201.17(A)(3) and (4), stuffed fish, stuffed meat, stuffed pasta, stuffed poultry, stuffed ratites, or stuffing containing fish, meat, poultry, or ratites.

(B) Whole beef roasts, corned beef roasts, pork roasts, and cured pork roasts such as ham, shall be cooked:
(1) In an oven that is preheated to the temperature specified for the roast's weight in the following chart and that is held at that temperature:

<table>
<thead>
<tr>
<th>Oven Type</th>
<th>Less than 4.5 kg (10 lbs)</th>
<th>4.5 kg (10 lbs) or More</th>
</tr>
</thead>
<tbody>
<tr>
<td>Still Dry</td>
<td>177°C (350°F) or more</td>
<td>121°C (250°F) or more</td>
</tr>
<tr>
<td>Convection</td>
<td>163°C (325°F) or more</td>
<td>121°C (250°F) or more</td>
</tr>
<tr>
<td>High Humidity¹</td>
<td>121°C (250°F) or less</td>
<td>121°C (250°F) or more</td>
</tr>
</tbody>
</table>

¹ Relative humidity greater than 90% for at least 1 hour as measured in the cooking chamber or exit of the oven; or in a moisture-impermeable bag that provides 100% humidity.

;and
(2) As specified in the following chart, to heat all parts of the food to a temperature and for the holding time that corresponds to that temperature:

<table>
<thead>
<tr>

Holding time may include postoven heat rise.

(C) A raw or undercooked whole-muscle, intact beef steak may be served or offered for sale in a ready-to-eat form if:
   (1) The food establishment serves a population that is not a highly susceptible population,
   (2) The steak is labeled to indicate that it meets the definition of “whole-muscle, intact beef” as specified under ¶ 3-201.11(E), and
   (3) The steak is cooked on both the top and bottom to a surface temperature of 63°C (145°F) or above and a cooked color change is achieved on all external surfaces.

(D) A raw animal food such as raw egg, raw fish, raw-marinated fish, raw molluscan shellfish, or steak tartare; or a partially cooked food such as lightly cooked fish, soft cooked eggs, or rare meat other than whole-muscle, intact beef steaks as specified in ¶ (C) of this section, may be served or offered for sale in a ready-to-eat form if:
   (1) The food establishment serves a population that is not a highly susceptible population, and
   (2) The consumer requests that the food be prepared in a raw, rare, or undercooked state.

3-401.12 Microwave Cooking.*
Raw animal foods cooked in a microwave oven shall be:
(A) Rotated or stirred throughout or midway during cooking to compensate for uneven distribution of heat;
(B) Covered to retain surface moisture;
(C) Heated to a temperature of at least 74°C (165°F) in all parts of the food; and
(D) Allowed to stand covered for 2 minutes after cooking to obtain temperature equilibrium.

3-401.13 Plant Food Cooking for Hot Holding.
Fruits and vegetables that are cooked for hot holding shall be cooked to a temperature of 60°C (140°F).

3-402.11 Parasite Destruction.*
(A) Except as specified in ¶ (B) of this section, before service or sale in ready-to-eat form, raw, raw-marinated, partially cooked, or marinated-partially cooked fish other than molluscan shellfish shall be frozen throughout to a temperature of:
   (1) -20°C (-4°F) or below for 168 hours (7 days) in a freezer; or
   (2) -35°C (-31°F) or below for 15 hours in a blast freezer.
(B) If the fish are tuna of the species Thunnus alalunga, Thunnus albacares (Yellowfin tuna), Thunnus atlanticus, Thunnus maccocyii (Bluefin tuna, Southern), Thunnus obesus (Bigeye tuna), or Thunnus thynnus (Bluefin tuna, Northern), or are listed in the FDA Fish and Fisheries Products Hazards and Control Guidance, Potential Species-Related & Process Related Hazards and parasites are not a hazard, the fish may be served or sold in a raw, raw-marinated, or partially cooked ready-to-eat form without freezing as specified under ¶ (A) of this section.

3-402.12 Records, Creation and Retention.
(A) Except as specified in ¶ 3-402.11(B) and (B) of this section, if raw, raw-marinated, partially cooked, or marinated-partially cooked fish are served or sold in ready-to-eat form, the person in charge shall identify each batch by name and date, measure the freezing temperature once per day, and record the temperature and time to which the fish are subjected and shall retain the records at the food establishment in chronological order for 90 calendar days beyond the time of service or sale of the fish.
(B) If the fish are frozen by a supplier, a written agreement or statement from the supplier stipulating that the fish supplied are frozen to a temperature and for a time specified under § 3-402.11 may substitute for the records specified under ¶ (A) of this section.

   (1) Each invoice received from the supplier shall state the specific fish by species that have been frozen to meet the requirements for parasite destruction specified under § 3-402.11.

   (2) The written agreement or statement from the supplier must be updated at least once per year.

3-403.10 Preparation for Immediate Service.
Cooked and refrigerated food that is prepared for immediate service in response to an individual consumer order, such as a roast beef sandwich au jus, may be served at any temperature.

3-403.11 Reheating for Hot Holding.*
(A) Except as specified under ¶ (B) and (C) and in ¶ (E) of this section, potentially hazardous food that is cooked, cooled, and reheated for hot holding shall be reheated so that all parts of the food reach a temperature of at least 74°C (165°F) for 15 seconds.

(B) Except as specified under ¶ (C) of this section, potentially hazardous food reheated in a microwave oven for hot holding shall be reheated so that all parts of the food reach a temperature of at least 74°C (165°F) and the food is rotated or stirred, covered, and allowed to stand covered for 2 minutes after reheating.

(C) Ready-to-eat food taken from a commercially processed, hermetically sealed container, or from an intact package from a food processing plant that is inspected by the food regulatory authority that has jurisdiction over the plant, shall be heated to a temperature of at least 60°C (140°F) for hot holding.

(D) Reheating for hot holding shall be done rapidly and the time the food is between the temperature specified under ¶¶ 3-501.16(B) or (C) and 74°C (165°F) may not exceed 2 hours.

(E) Remaining unsliced portions of roasts of beef that are cooked as specified under ¶ 3-401.11(B) may be reheated for hot holding using the oven parameters and minimum time and temperature conditions specified under ¶ 3-401.11(B).

3-5 LIMITATION OF GROWTH OF ORGANISMS OF PUBLIC HEALTH CONCERN

Subparts 3-501 Temperature and Time Control
3-502 Specialized Processing Methods

3-501.11 Frozen Food.
Stored frozen foods shall be maintained frozen.

3-501.12 Potentially Hazardous Food, Slacking.
Frozen potentially hazardous food that is slacked to moderate the temperature shall be held:
(A) Under refrigeration that maintains the food temperature at 5°C (41°F) or less, or at 7°C (45°F) or less as specified under ¶ 3-501.16(C); or

(B) At any temperature if the food remains frozen.

3-501.13 Thawing.
Except as specified in ¶ (D) of this section, potentially hazardous food shall be thawed:
(A) Under refrigeration that maintains the food temperature at 5°C (41°F) or less, or at 7°C (45°F) or less as specified under ¶ 3-501.16(C); or

(B) Completely submerged under running water:
   (1) At a water temperature of 21°C (70°F) or below,
   (2) With sufficient water velocity to agitate and float off loose particles in an overflow, and

   (3) For a period of time that does not allow thawed portions of ready-to-eat food to rise above 5°C (41°F), or 7°C (45°F) as specified under ¶ 3-501.16(C), or

   (4) For a period of time that does not allow thawed portions of a raw animal food requiring cooking as specified under ¶¶ 3-401.11(A) or (B) to be above 5°C (41°F), or 7°C (45°F) as specified under ¶ 3-501.16(C), for more than 4 hours including:
      (a) The time the food is exposed to the running water and the time needed for preparation for cooking, or

      (b) The time it takes under refrigeration to lower the food temperature to 5°C (41°F), or 7°C (45°F) as specified under ¶ 3-501.16(C);
(C) As part of a cooking process if the food that is frozen is:
   (1) Cooked as specified under ¶¶ 3-401.11(A) or (B) or § 3-401.12, or
   (2) Thawed in a microwave oven and immediately transferred to conventional cooking equipment, with no interruption
       in the process; or
   (D) Using any procedure if a portion of frozen ready-to-eat food is thawed and prepared for immediate service in response to
       an individual consumer's order.

3-501.14  Cooling.*
(A) Cooked potentially hazardous food shall be actively cooled:
   (1) Within 2 hours, from 60°C (140°F) to 21°C (70°F); and
   (2) Within 4 hours, from 21°C (70°F) to 5°C (41°F) or less, or to 7°C (45°F) as specified under ¶ 3-501.16(C).
(B) Potentially hazardous food shall be cooled within 4 hours to 5°C (41°F) or less, or to 7°C (45°F) as specified under ¶ 3-501.16(C) if prepared from ingredients at ambient temperature, such as reconstituted foodst and canned tuna.
(C) Except as specified in ¶ (D) of this section, a potentially hazardous food received in compliance with laws allowing a temperature above 5°C (41°F) during shipment from the supplier as specified in ¶ 3-202.11(B), shall be cooled within 4 hours to 5°C (41°F) or less, or 7°C (45°F) or less as specified under ¶ 3-501.16(C).
(D) Shell eggs need not comply with (C) of this section if the eggs are placed immediately upon their receipt in refrigerated equipment that is capable of maintaining food at 5°C (41°F) or less, or 7°C (45°F) or less as specified under ¶ 3-501.16(C).

3-501.15  Cooling Methods.
(A) Cooling shall be accomplished in accordance with the time and temperature criteria specified under § 3-501.14 by using
   one or more of the following methods based on the type of food being cooled:
   (1) Placing the food in shallow pans;
   (2) Separating the food into smaller or thinner portions;
   (3) Using rapid cooling equipment;
   (4) Stirring the food in a container placed in an ice water bath;
   (5) Using containers that facilitate heat transfer;
   (6) Adding ice as an ingredient; or
   (7) Other effective methods.
(B) When placed in cooling or cold holding equipment, food containers in which food is being cooled shall be:
   (1) Arranged in the equipment to provide maximum heat transfer through the container walls; and
   (2) Loosely covered, or uncovered if protected from overhead contamination as specified under Subparagraph
       3-305.11(A)(2), during the cooling period to facilitate heat transfer from the surface of the food.

3-501.16  Potentially Hazardous Food, Hot and Cold Holding.*
Except during preparation, cooking, or cooling, or when time is used as the public health control as specified under §
3-501.19, potentially hazardous food shall be maintained:
(A) At 60°C (140°F) or above, except that roasts cooked to a temperature and for a time specified under ¶ 3-401.11(B) or
    reheated as specified in ¶ 3-403.11(E) may be held at a temperature of 54°C (130°F); or
(B) At 5°C (41°F) or less, except as specified under ¶ (C) of this section and §§ 3-501.17, 3-501.18, and 4-204.111.
(C) At 7°C (45°F) or between 7°C (45°F) and 5°C (41°F) in existing refrigeration equipment that is not capable of maintaining
    the food at 5°C (41°F) or less if:
       (1) The equipment is in place and in use in the food establishment; and
       (2) No later than January 1, 2007, the equipment is upgraded or replaced to maintain food at a temperature of 5°C (41°F)
           or less.
       (3) Mobile food units must upgrade or replace equipment to maintain food at a temperature of 5°C (41°F) or less no later
           than January 1, 2008.

3-501.17  Ready-to-Eat, Potentially Hazardous Food, Date Marking.*
(A) Except as specified in ¶ (E) of this section, refrigerated, ready-to-eat, potentially hazardous food prepared and held
    refrigerated for more than 24 hours in a food establishment shall be clearly marked at the time of preparation with the
    preparation date or the date by which the food shall be consumed which is, including the day of preparation:
       (1) 7 calendar days or less from the day that the food is prepared, if the food is maintained at 5°C (41°F) or less; or
       (2) 4 calendar days or less from the day the food is prepared, if the food is maintained at 7°C (45°F) or less as specified
           under ¶ 3-501.16(C).
(B) Except as specified in ¶ (E) of this section, a ready-to-eat, potentially hazardous food prepared in a food establishment
    and subsequently frozen, shall be clearly marked:
       (1) When the food is thawed, to indicate that the food shall be consumed within 24 hours; or
(2) When the food is placed into the freezer, to indicate the length of time before freezing that the food is held refrigerated and which is, including the day of preparation:
   (a) 7 calendar days or less from the day of preparation, if the food is maintained at 5°C (41°F) or less, or
   (b) 4 calendar days or less from the day of preparation, if the food is maintained at 7°C (45°F) or less as specified under § 3-501.16(C); and

(3) When the food is removed from the freezer, to indicate the date by which the food shall be consumed which is:
   (a) 7 calendar days or less after the food is removed from the freezer, minus the time before freezing, that the food is held refrigerated if the food is maintained at 5°C (41°F) or less before and after freezing, or
   (b) 4 calendar days or less after the food is removed from the freezer, minus the time before freezing, that the food is held refrigerated if the food is maintained at 7°C (45°F) or less as specified under § 3-501.16(C) before and after freezing.

(C) Except as specified in ¶¶ (E) and (F) of this section, a container of refrigerated, ready-to-eat potentially hazardous food prepared and packaged by a food processing plant shall be clearly marked, at the time the original container is opened in a food establishment, to indicate the date by which the food shall be consumed which is, including the day the original container is opened:
   (1) 7 calendar days or less after the original container is opened, if the food is maintained at 5°C (41°F) or less; or
   (2) 4 calendar days or less from the day the original container is opened, if the food is maintained at 7°C (45°F) or less as specified under ¶ 3-501.16(C).

(D) Except as specified in ¶ (E) and (F) of this section, a container of refrigerated, ready-to-eat, potentially hazardous food prepared and packaged by a food processing plant and subsequently opened and frozen in a food establishment shall be clearly marked:
   (1) When the food is thawed, to indicate that the food shall be consumed within 24 hours; or
   (2) To indicate the time between the opening of the original container and freezing that the food is held refrigerated and which is, including the day of opening the original container:
      (a) 7 calendar days or less, after opening the original container if the food is maintained at 5°C (41°F) or less, or
      (b) 4 calendar days or less after opening the original container if the food is maintained at 7°C (45°F) or less as specified under ¶ 3-501.16(C); and
   (3) When the food is removed from the freezer, to indicate the date by which the food shall be consumed which is:
      (a) 7 calendar days, minus the time before freezing, that the food is held refrigerated if the food is maintained at 5°C (41°F) or less before and after freezing, or
      (b) 4 calendar days, minus the time before freezing, that the food is held refrigerated if the food is maintained at 7°C (45°F) or less as specified under ¶ 3-501.16(C) before and after freezing.

(E) Paragraphs (A)-(D) of this section do not apply to individual meal portions served or repackaged for sale from a bulk container upon a consumer's request.

(F) Paragraphs (C) and (D) of this section do not apply to:
   (1) Whole, unsliced portions of a cured and processed product with original casing maintained on the remaining portion, such as bologna, salami, or other sausage in a cellulose casing;
   (2) Hard cheeses that are manufactured with a moisture content not exceeding 39 percent as specified under 21 CFR 133.150 and meets the temperature requirements specified under § 3-501.16(B). Examples include Asiago medium, Asiago old, Cheddar, Gruyere, Parmesan, Reggiano, Romano, and Sapago.
   (3) Semisoft cheeses containing more than 39 percent but less than 50 percent moisture as specified in 21 CFR 133.187 and meets the temperature requirements specified under § 3-501.16(B). Examples include Asiago fresh and Soft, Blue, Brick, Caciocavallo Siciliano, Colby with not more than 40% moisture, Edam, Gorgonzola, Gouda, Limburger, Monterey, Monterey Jack, Muenster, Pasteurized process cheese, Provolone, Swiss and Emmentaler.
   (4) Pasteurized process cheese manufactured according to 21 CFR 133.169, labeled as containing an acidifying agent and meets the temperature requirements specified under § 3-501.16(B).
   (5) Cheeses that are not exempt for date marking include soft cheeses. Examples include Brie, Camembert, Cottage, Ricotta, and Teleme.

3-501.18  Ready-to-Eat, Potentially Hazardous Food, Disposition.*

(A) A food specified under ¶ 3-501.17(A) shall be discarded if not consumed within:
   (1) 7 calendar days from the date of preparation if the food is maintained at 5°C (41°F) or less; or
   (2) 4 calendar days from the date of preparation if the food is maintained at 7°C (45°F) or less as specified under ¶ 3-501.16(C).

(B) A food specified under Subparagraph 3-501.17(B)(1) or (D)(1) shall be discarded if not consumed within 24 hours after thawing.

(C) A food specified under Subparagraphs 3-501.17(B)(2) and (3) or (D)(2) and (3) shall be discarded on or before the most recent date marked on the food container or package if the food is not consumed by that date.

(D) A food specified under ¶ 3-501.17(C) shall be discarded if not consumed within, including the day of opening the...
original container:

1. 7 calendar days after the date that the original package is opened in a food establishment if the food is maintained at 5°C (41°F) or less; or
2. 4 calendar days after the date that the original package is opened in a food establishment if the food is maintained at 7°C (45°F) or less as specified under ¶ 3-501.16(C).

(E) A food specified under ¶¶ 3-501.17(A), (B), (C), or (D) shall be discarded if the food is:

1. Marked with the date specified under ¶¶ 3-501.17(A), (B), (C), or (D) and the food is not consumed before the most recent date expires;
2. In a container or package which does not bear a date or time; or
3. Inappropriately marked with a date or time that exceeds the date or time specified under ¶¶ 3-501.17(A), (B), (C), or (D).

(F) Refrigerated, ready-to-eat, potentially hazardous food prepared in a food establishment and dispensed through a vending machine with an automatic shut-off control that is activated at a temperature of:

1. 5°C (41°F) shall be discarded if not sold within 7 days; or
2. 7°C (45°F) shall be discarded if not sold within 4 days.

(G) A refrigerated, potentially hazardous, ready-to-eat food ingredient or a portion of a refrigerated, potentially hazardous, ready-to-eat food that is subsequently combined with additional ingredients or portions of food shall retain the date marking of the earliest or first-prepared ingredient or portion and shall be discarded as specified under ¶¶ 3-501.18(A) - (F).

3-501.19  Time as a Public Health Control.*

(A) Except as specified under ¶ (B) of this section, if time only, rather than time in conjunction with temperature, is used as the public health control for a working supply of potentially hazardous food before cooking, or for ready-to-eat potentially hazardous food that is displayed or held for service for immediate consumption:

1. The food shall be marked or otherwise identified to indicate the time that is 4 hours past the point in time when the food is removed from temperature control,
2. The food shall be cooked and served, served if ready-to-eat, or discarded, within 4 hours from the point in time when the food is removed from temperature control,
3. The food in unmarked containers or packages or marked to exceed a 4 hour limit shall be discarded, and
4. Written procedures shall be maintained in the food establishment and made available to the regulatory authority upon request, that ensure compliance with:
   (a) Subparagraphs (A)(1)-(4) of this section, and
   (b) 3-501.14 for food that is prepared, cooked, and refrigerated before time is used as a public health control.

(B) In a food establishment that serves a highly susceptible population, time only, rather than time in conjunction with temperature, may not be used as the public health control for raw eggs.

3-502.11  Variance Requirement.*

A food establishment shall obtain a variance from the regulatory authority as specified in § 8-103.10 and under § 8-103.11 before smoking food as a method of food preservation rather than as a method of flavor enhancement; curing food; using food additives or adding components such as vinegar as a method of food preservation rather than as a method of flavor enhancement or to render a food so that it is not potentially hazardous; packaging food using a reduced oxygen packaging method except if required under § 3-502.12; custom processing animals that are for personal use as food and not for sale or service in a food establishment; or preparing food by another method that is determined by the regulatory authority to require a variance.

3-502.12  Reduced Oxygen Packaging, Criteria.*

(A) A food establishment that packages food using a reduced oxygen packaging method and Clostridium botulinum is identified as a microbiological hazard in the final packaged form shall have a HACCP plan that contains the information specified under ¶ 8-201.14(D) and that:

1. Limits the food packaged to a food that does not support the growth of Clostridium botulinum because it complies with one of the following:
   (a) Has an aw of 0.91 or less,
   (b) Has a pH of 4.6 or less,
   (c) Is a meat or poultry product cured at a food processing plant regulated by the U.S.D.A. using substances specified in 9 CFR 318.7 Approval of substances for use in the preparation of products and 9 CFR 381.147 Restrictions on the use of substances in poultry products and is received in an intact package, or
   (d) Is a food with a high level of competing organisms such as raw meat or raw poultry;
   (e) Is a food that has been subjected to a process or control that can be supported by scientific data and is approved the Department of Human Services.
2. Specifies methods for maintaining food at 5°C (41°F) or below;
(3) Describes how the packages shall be prominently and conspicuously labeled on the principal display panel in bold type on a contrasting background, with instructions to:
   (a) Maintain the food at 5°C (41°F) or below, and
   (b) Discard the food if within 14 calendar days of its packaging it is not served for on-premises consumption, or consumed if served or sold for off-premises consumption;
(4) Limits the shelf life to no more than 14 calendar days from packaging to consumption or the original manufacturer's "sell by" or "use by" date, whichever occurs first;
(B) Except for fish that is frozen before, during, and after packaging, a food establishment may not package fish using a reduced oxygen packaging method.
(C) The Department of Human Services may require the permit holder to obtain a variance as specified in § 8-103.10 and under § 8-103.11 to produce products with reduced oxygen packaging.

3-6 FOOD IDENTITY, PRESENTATION, AND ON-PREMISES LABELING

Subparts 3-601 Accurate Representation
3-602 Labeling
3-603 Consumer Advisory

3-601.11 Standards of Identity.

3-601.12 Honestly Presented.
(A) Food shall be offered for human consumption in a way that does not mislead or misinform the consumer.
(B) Food or color additives, colored overwraps, or lights may not be used to misrepresent the true appearance, color, or quality of a food.

3-602.11 Food Labels.
(A) Food packaged in a food establishment, shall be labeled as specified in law, including 21 CFR 101 - Food Labeling, and 9 CFR 317 Labeling, Marking Devices, and Containers.
(B) Label information shall include:
   (1) The common name of the food, or absent a common name, an adequately descriptive identity statement;
   (2) If made from two or more ingredients, a list of ingredients in descending order of predominance by weight, including a declaration of artificial color or flavor and chemical preservatives, if contained in the food;
   (3) An accurate declaration of the quantity of contents;
   (4) The name and place of business of the manufacturer, packer, or distributor; and
(C) Bulk food that is available for consumer self-dispensing shall be prominently labeled with the following information in plain view of the consumer:
   (1) The manufacturer's or processor's label that was provided with the food; or
   (2) A card, sign, or other method of notification that includes the information specified under Subparagraphs (B)(1), (2), and (5) of this section.
(D) Bulk, unpackaged foods such as bakery products and unpackaged foods that are portioned to consumer specification need not be labeled if:
   (1) A health, nutrient content, or other claim is not made;
   (2) There are no state or local laws requiring labeling; and
   (3) The food is manufactured or prepared on the premises of the food establishment or at another food establishment or a food processing plant that is owned by the same person and is regulated by the food regulatory agency that has jurisdiction.

3-602.12 Other Forms of Information.
(A) If required by law, consumer warnings shall be provided.
(B) Food establishment or manufacturers’ dating information on foods may not be concealed or altered.
3-603.11 Consumption of Animal Foods that are Raw, Undercooked, or Not Otherwise Processed to Eliminate Pathogens.*
Except as specified in ¶ 3-401.11(C) and 3-801.11(D), the food establishment may offer or a consumer may request an animal food such as beef, eggs, fish, lamb or shellfish to be served in a ready-to-eat form that is raw, undercooked, or not otherwise processed to eliminate pathogens; or as a raw ingredient in another ready-to-eat food.

3-7 CONTAMINATED FOOD

Subpart 3-701 Disposition

3-701.11 Discarding or Reconditioning Unsafe, Adulterated, or Contaminated Food.*
(A) A food that is unsafe, adulterated, or not honestly presented as specified under § 3-101.11 shall be reconditioned according to an approved procedure or discarded.
(B) Food that is not from an approved source as specified under §§ 3-201.11 through .17 shall be discarded.
(C) Ready-to-eat food that may have been contaminated by an employee who has been restricted or excluded as specified under § 2-201.12 shall be discarded.
(D) Food that is contaminated by food employees, consumers, or other persons through contact with their hands, bodily discharges, such as nasal or oral discharges, or other means shall be discarded.

3-8 SPECIAL REQUIREMENTS FOR HIGHLY SUSCEPTIBLE POPULATIONS

Subpart 3-801 Additional Safeguards

3-801.11 Pasteurized Foods, Prohibited Reservice, and Prohibited Food.*
In a food establishment that serves a highly susceptible population:
(A) Prepackaged juice or a prepackaged beverage containing juice, that bears a warning label as specified in 21 CFR, Section 101.17(g) Food Labeling, may not be served or offered for sale;
(B) Pasteurized shell eggs or pasteurized liquid, frozen, or dry eggs or egg products shall be substituted for raw shell eggs in the preparation of:
(1) Foods such as Caesar salad, hollandaise or Béarnaise sauce, mayonnaise, eggnog, ice cream, and egg-fortified beverages, and
(2) Except as specified in ¶ (E) of this section, recipes in which more than one egg is broken and the eggs are combined;
(C) Food in an unopened original package may not be re-served; and
(D) The following foods may not be served or offered for sale in a ready-to-eat form:
(1) Raw animal foods such as raw fish, raw-marinated fish, raw molluscan shellfish, and steak tartare,
(2) A partially cooked animal food such as lightly cooked fish, rare meat, soft-cooked eggs that are made from raw shell eggs, and meringue, and
(3) Raw seed sprouts.
(E) Subparagraph (B)(2) of this section does not apply if:
(1) The raw eggs are combined immediately before cooking for one consumer’s serving at a single meal, cooked as specified under Subparagraph 3-401.11(A)(1), and served immediately, such as an omelet, soufflé, or scrambled eggs;
(2) The raw eggs are combined as an ingredient immediately before baking and the eggs are thoroughly cooked to a ready-to-eat form, such as a cake, muffin, or bread; or
(3) The preparation of the food is conducted under a HACCP plan that:
   (a) Identifies the food to be prepared,
   (b) Prohibits contacting ready-to-eat food with bare hands,
   (c) Includes specifications and practices that ensure:
      (i) Salmonella Enteritidis growth is controlled before and after cooking, and
      (ii) Salmonella Enteritidis is destroyed by cooking the eggs according to the temperature and time specified in subparagraph 3-401.11(A)(2),
   (d) Contains the information specified under ¶ 8-201.14(D) including procedures that:
      (i) Control cross contamination of ready-to-eat food with raw eggs, and
      (ii) Delineate cleaning and sanitization procedures for food-contact surfaces, and
   (e) Describes the training program that ensures that the food employee responsible for the preparation of the food understands the procedures to be used.

4-1 MATERIALS FOR CONSTRUCTION AND REPAIR

Subparts
4-101 Multiuse
4-102 Single-Service and Single-Use

4-101.11 Characteristics.*
Materials that are used in the construction of utensils and food-contact surfaces of equipment may not allow the migration of deleterious substances or impart colors, odors, or tastes to food and under normal use conditions shall be:
(A) Safe;
(B) Durable, corrosion-resistant, and nonabsorbent;\(^N\)
(C) Sufficient in weight and thickness to withstand repeated warewashing;\(^N\)
(D) Finished to have a smooth, easily cleanable surface;\(^N\) and
(E) Resistant to pitting, chipping, crazing, scratching, scoring, distortion, and decomposition.\(^N\)

4-101.12 Cast Iron, Use Limitation.
(A) Except as specified in ¶ (B) and (C) of this section, cast iron may not be used for utensils or food-contact surfaces of equipment.
(B) Cast iron may be used as a surface for cooking.
(C) Cast iron may be used in utensils for serving food if the utensils are used only as part of an uninterrupted process from cooking through service.

4-101.13 Lead in Ceramic, China, and Crystal Utensils, Use Limitation.
Ceramic, china, crystal utensils, and decorative utensils such as hand painted ceramic or china that are used in contact with food shall be lead-free or contain levels of lead not exceeding the limits of the following utensil categories:

4-101.14  Copper, Use Limitation.*
(A) Except as specified in ¶ (B) of this section, copper and copper alloys such as brass may not be used in contact with a food that has a pH below 6 such as vinegar, fruit juice, or wine or for a fitting or tubing installed between a backflow prevention device and a carbonator.
(B) Copper and copper alloys may be used in contact with beer brewing ingredients that have a pH below 6 in the prefermentation and fermentation steps of a beer brewing operation such as a brewpub or microbrewery.

4-101.15  Galvanized Metal, Use Limitation.*
Galvanized metal may not be used for utensils or food-contact surfaces of equipment that are used in contact with acidic food.

4-101.16  Sponges, Use Limitation.
Sponges may not be used in contact with cleaned and sanitized or in-use food-contact surfaces.

4-101.17  Lead in Pewter Alloys, Use Limitation.
Pewter alloys containing lead in excess of 0.05% may not be used as a food-contact surface.

4-101.18  Lead in Solder and Flux, Use Limitation.
Solder and flux containing lead in excess of 0.2% may not be used as a food-contact surface.

4-101.19  Wood, Use Limitation.
(A) Except as specified in ¶ (B), (C), (D) and (E) of this section, wood and wood wicker may not be used as a food-contact surface.
(B) Hard maple or an equivalently hard, close-grained wood may be used for:
   (1) Cutting boards; cutting blocks; bakers' tables; and utensils such as rolling pins, doughnut dowels, salad bowls, and chopsticks; and
   (2) Wooden paddles used in confectionery operations for pressure scraping kettles when manually preparing confections at a temperature of 110°C (230°F) or above.
(C) Whole, uncut, raw fruits and vegetables, and nuts in the shell may be kept in the wood shipping containers in which they were received, until the fruits, vegetables, or nuts are used.
(D) If the nature of the food requires removal of rinds, peels, husks, or shells before consumption, the whole, uncut, raw food may be kept in:
   (1) Untreated wood containers; or
   (2) Treated wood containers if the containers are treated with a preservative that meets the requirements specified in 21 CFR 178.3800 Preservatives for wood.
(E) Untreated wood planks, such as cedar, may be used as a cooking surface for grilling or baking.

4-101.110  Nonstick Coatings, Use Limitation.
Multiuse kitchenware such as frying pans, griddles, sauce pans, cookie sheets, and waffle bakers that have a perfluorocarbon resin coating shall be used with nonscorring or nonscratching utensils and cleaning aids.

4-101.111  Nonfood-Contact Surfaces.
Nonfood-contact surfaces of equipment that are exposed to splash, spillage, or other food soiling or that require frequent cleaning shall be constructed of a corrosion-resistant, nonabsorbent, and smooth material.

4-102.11  Characteristics.*
Materials that are used to make single-service and single-use articles:
   (A) May not:
      (1) Allow the migration of deleterious substances, or
      (2) Impart colors, odors, or tastes to food; and
   (B) Shall be:
      (1) Safe, and
      (2) Clean.
4.2 DESIGN AND CONSTRUCTION

Subparts 4-201 Durability and Strength
4-202 Cleanability
4-203 Accuracy
4-204 Functionality
4-205 Acceptability

4-201.11 Equipment and Utensils.
Equipment and utensils shall be designed and constructed to be durable and to retain their characteristic qualities under normal use conditions.

4-201.12 Food Temperature Measuring Devices.*
Food temperature measuring devices may not have sensors or stems constructed of glass, except that thermometers with glass sensors or stems that are encased in a shatterproof coating such as candy thermometers may be used.

4-202.11 Food-Contact Surfaces.*
(A) Multiuse food-contact surfaces shall be:
   (1) Smooth;
   (2) Free of breaks, open seams, cracks, chips, inclusions, pits, and similar imperfections;
   (3) Free of sharp internal angles, corners, and crevices;
   (4) Finished to have smooth welds and joints; and
   (5) Except as specified in ¶ (B) of this section, accessible for cleaning and inspection by one of the following methods:
       (a) Without being disassembled,
       (b) By disassembling without the use of tools, or
       (c) By easy disassembling with the use of handheld tools commonly available to maintenance and cleaning personnel such as screwdrivers, pliers, open-end wrenches, and Allen wrenches.

(B) Subparagraph (A)(5) of this section does not apply to cooking oil storage tanks, distribution lines for cooking oils, or beverage syrup lines or tubes.

4-202.12 CIP Equipment.
(A) CIP equipment shall meet the characteristics specified under § 4-202.11 and shall be designed and constructed so that:
   (1) Cleaning and sanitizing solutions circulate throughout a fixed system and contact all interior food-contact surfaces, and
   (2) The system is self-draining or capable of being completely drained of cleaning and sanitizing solutions; and
(B) CIP equipment that is not designed to be disassembled for cleaning shall be designed with inspection access points to ensure that all interior food-contact surfaces throughout the fixed system are being effectively cleaned.

4-202.13 "V" Threads, Use Limitation.
Except for hot oil cooking or filtering equipment, "V" type threads may not be used on food-contact surfaces.

4-202.14 Hot Oil Filtering Equipment.
Hot oil filtering equipment shall meet the characteristics specified under §§ 4-202.11 or 4-202.12 and shall be readily accessible for filter replacement and cleaning of the filter.

4-202.15 Can Openers.
Cutting or piercing parts of can openers shall be readily removable for cleaning and for replacement.

4-202.16 Nonfood-Contact Surfaces.
Nonfood-contact surfaces shall be free of unnecessary ledges, projections, and crevices, and designed and constructed to allow easy cleaning and to facilitate maintenance.
4-202.17  **Kick Plates, Removable.**
Kick plates shall be designed so that the areas behind them are accessible for inspection and cleaning by being:
(A) Removable by one of the methods specified under Subparagraphs 4-202.11(E)(1)-(3) or capable of being rotated open; and
(B) Removable or capable of being rotated open without unlocking equipment doors.

4-202.18  **Ventilation Hood Systems, Filters.**
Filters or other grease extracting equipment shall be designed to be readily removable for cleaning and replacement if not designed to be cleaned in place.

4-203.11  **Temperature Measuring Devices, Food.**
(A) Food temperature measuring devices that are scaled only in Celsius or dually scaled in Celsius and Fahrenheit shall be accurate to 1°C in the intended range of use.
(B) Food temperature measuring devices that are scaled only in Fahrenheit shall be accurate to 2°F in the intended range of use.

4-203.12  **Temperature Measuring Devices, Ambient Air and Water.**
(A) Ambient air and water temperature measuring devices that are scaled in Celsius or dually scaled in Celsius and Fahrenheit shall be designed to be easily readable and accurate to 1.5°C in the intended range of use.
(B) Ambient air and water temperature measuring devices that are scaled only in Fahrenheit shall be accurate to 3°F in the intended range of use.

4-203.13  **Pressure Measuring Devices, Mechanical Warewashing Equipment.**
Pressure measuring devices that display the pressures in the water supply line for the fresh hot water sanitizing rinse shall have increments of 7 kilopascals (1 pounds per square inch) or smaller and shall be accurate to 14 kilopascals (2 pounds per square inch) in the 100-170 kilopascals (15-25 pounds per square inch) range.

4-204.11  **Ventilation Hood Systems, Drip Prevention.**
Exhaust ventilation hood systems in food preparation and warewashing areas including components such as hoods, fans, guards, and ducting shall be designed to prevent grease or condensation from draining or dripping onto food, equipment, utensils, linens, and single-service and single-use articles.

4-204.12  **Equipment Openings, Closures and Deflectors.**
(A) A cover or lid for equipment shall overlap the opening and be sloped to drain.
(B) An opening located within the top of a unit of equipment that is designed for use with a cover or lid shall be flanged upward at least 5 millimeters (two-tenths of an inch).
(C) Except as specified under ¶ (D) of this section, fixed piping, temperature measuring devices, rotary shafts, and other parts extending into equipment shall be provided with a watertight joint at the point where the item enters the equipment.
(D) If a watertight joint is not provided:
   (1) The piping, temperature measuring devices, rotary shafts, and other parts extending through the openings shall be equipped with an apron designed to deflect condensation, drips, and dust from openings into the food; and
   (2) The opening shall be flanged as specified under ¶ (B) of this section.

4-204.13  **Dispensing Equipment, Protection of Equipment and Food.**
In equipment that dispenses or vends liquid food or ice in unpackaged form:
(A) The delivery tube, chute, orifice, and splash surfaces directly above the container receiving the food shall be designed in a manner, such as with barriers, baffles, or drip aprons, so that drips from condensation and splash are diverted from the opening of the container receiving the food;
(B) The delivery tube, chute, and orifice shall be protected from manual contact such as by being recessed;
(C) The delivery tube or chute and orifice of equipment used to vend liquid food or ice in unpackaged form to self-service consumers shall be designed so that the delivery tube or chute and orifice are protected from dust, insects, rodents, and other contamination by a self-closing door if the equipment is:
   (1) Located in an outside area that does not otherwise afford the protection of an enclosure against the rain, windblown debris, insects, rodents, and other contaminants that are present in the environment, or
   (2) Available for self-service during hours when it is not under the full-time supervision of a food employee; and
(D) The dispensing equipment actuating lever or mechanism and filling device of consumer self-service beverage dispensing equipment shall be designed to prevent contact with the lip-contact surface of glasses or cups that are refilled.
4-204.14 **Vending Machine, Vending Stage Closure.**
The dispensing compartment of a vending machine including a machine that is designed to vend prepackaged snack food that is not potentially hazardous such as chips, party mixes, and pretzels shall be equipped with a self-closing door or cover if the machine is:
(A) Located in an outside area that does not otherwise afford the protection of an enclosure against the rain, windblown debris, insects, rodents, and other contaminants that are present in the environment; or
(B) Available for self-service during hours when it is not under the full-time supervision of a food employee.

4-204.15 **Bearings and Gear Boxes, Leakproof.**
Equipment containing bearings and gears that require lubricants shall be designed and constructed so that the lubricant can not leak, drip, or be forced into food or onto food-contact surfaces.

4-204.16 **Beverage Tubing, Separation.**
Beverage tubing and cold-plate beverage cooling devices may not be installed in contact with stored ice. This section does not apply to cold plates that are constructed integrally with an ice storage bin.

4-204.17 **Ice Units, Separation of Drains.**
Liquid waste drain lines may not pass through an ice machine or ice storage bin.

4-204.18 **Condenser Unit, Separation.**
If a condenser unit is an integral component of equipment, the condenser unit shall be separated from the food and food storage space by a dustproof barrier.

4-204.19 **Can Openers on Vending Machines.**
Cutting or piercing parts of can openers on vending machines shall be protected from manual contact, dust, insects, rodents, and other contamination.

4-204.110.1 **Molluscan Shellfish Tanks.**
(A) Except as specified under ¶ (B) of this section, molluscan shellfish life support system display tanks may not be used to display shellfish that are offered for human consumption and shall be conspicuously marked so that it is obvious to the consumer that the shellfish are for display only.
(B) Molluscan shellfish life-support system display tanks that are used to store and display shellfish that are offered for human consumption shall be operated and maintained in accordance with a variance granted by the regulatory authority as specified in § 8-103.10 and a HACCP plan that:
   (1) Is submitted by the permit holder and approved as specified under § 8-103.11; and
   (2) Ensures that:
      (a) Water used with fish other than molluscan shellfish does not flow into the molluscan tank,
      (b) The safety and quality of the shellfish as they were received are not compromised by the use of the tank, and
      (c) The identity of the source of the shellstock is retained as specified under § 3-203.12.

4-204.111 **Vending Machines, Automatic Shutoff.**
(A) A machine vending potentially hazardous food shall have an automatic control that prevents the machine from vending food:
   (1) If there is a power failure, mechanical failure, or other condition that results in an internal machine temperature that can not maintain food temperatures as specified under Chapter 3; and
   (2) If a condition specified under Subparagraph (A)(1) of this section occurs, until the machine is serviced and restocked with food that has been maintained at temperatures specified under Chapter 3.
(B) When the automatic shutoff within a machine vending potentially hazardous food is activated:
   (1) In a refrigerated vending machine, the ambient temperature may not exceed 5°C (41°F) or 7°C (45°F) as specified under ¶ 3-501.16(C) for more than 30 minutes immediately after the machine is filled, serviced, or restocked; or
   (2) In a hot holding vending machine, the ambient temperature may not be less than 60°C (140°F) for more than 120 minutes immediately after the machine is filled, serviced, or restocked.

4-204.112 **Temperature Measuring Devices.**
(A) In a mechanically refrigerated or hot food storage unit, the sensor of a temperature-measuring device shall be located to measure the air temperature in the warmest part of a mechanically refrigerated unit and in the coolest part of a hot food storage unit.
(B) Except as specified in ¶ (C) of this section, cold or hot holding equipment used for potentially hazardous food shall be designed to include and shall be equipped with at least one integral or permanently affixed temperature measuring device that is located to allow easy viewing of the device's temperature display.

(C) Paragraph (B) of this section does not apply to equipment for which the placement of a temperature measuring device is not a practical means for measuring the ambient air surrounding the food because of the design, type, and use of the equipment, such as calrod units, heat lamps, cold plates, bainmaries, steam tables, insulated food transport containers, and salad bars.

(D) Temperature measuring devices shall be designed to be easily readable.

(E) Food temperature measuring devices and water temperature measuring devices on warewashing machines shall have a numerical scale, printed record, or digital readout in increments no greater than 1°C or 2°F in the intended range of use.

4-204.113  Warewashing Machine, Data Plate Operating Specifications.
A warewashing machine shall be provided with an easily accessible and readable data plate affixed to the machine by the manufacturer that indicates the machine's design and operating specifications including the:
(A) Temperatures required for washing, rinsing, and sanitizing;
(B) Pressure required for the fresh water sanitizing rinse unless the machine is designed to use only a pumped sanitizing rinse; and
(C) Conveyor speed for conveyor machines or cycle time for stationary rack machines.

4-204.114  Warewashing Machines, Internal Baffles.
Warewashing machine wash and rinse tanks shall be equipped with baffles, curtains, or other means to minimize internal cross contamination of the solutions in wash and rinse tanks.

4-204.115  Warewashing Machines, Temperature Measuring Devices.
A warewashing machine shall be equipped with a temperature-measuring device that indicates the temperature of the water:
(A) In each wash and rinse tank; and
(B) As the water enters the hot water sanitizing final rinse manifold or in the chemical sanitizing solution tank.

4-204.116  Manual Warewashing Equipment, Heaters and Baskets.
If hot water is used for sanitization in manual warewashing operations, the sanitizing compartment of the sink shall be:
(A) Designed with an integral heating device that is capable of maintaining water at a temperature not less than 77°C (171°F); and
(B) Provided with a rack or basket to allow complete immersion of equipment and utensils into the hot water.

4-204.117  Warewashing Machines, Sanitizer Level Indicator.
A warewashing machine that uses a chemical for sanitization and that is installed after adoption of this Code by the regulatory authority, shall be equipped with a device that indicates audibly or visually when more chemical sanitizer needs to be added.

4-204.118  Warewashing Machines, Flow Pressure Device.
(A) Warewashing machines that provide a fresh hot water sanitizing rinse shall be equipped with a pressure gauge or similar device such as a transducer that measures and displays the water pressure in the supply line immediately before entering the warewashing machine; and
(B) If the flow pressure measuring device is upstream of the fresh hot water sanitizing rinse control valve, the device shall be mounted in a 6.4 millimeter or one-fourth inch Iron Pipe Size (IPS) valve.
(C) Paragraphs (A) and (B) of this section do not apply to a machine that uses only a pumped or recirculated sanitizing rinse.

4-204.119  Warewashing Sinks and Drainboards, Self-Draining.
Sinks and drainboards of warewashing sinks and machines shall be self-draining.

4-204.120  Equipment Compartments, Drainage.
Equipment compartments that are subject to accumulation of moisture due to conditions such as condensation, food or beverage drip, or water from melting ice shall be sloped to an outlet that allows complete draining.

4-204.121  Vending Machines, Liquid Waste Products.
(A) Vending machines designed to store beverages that are packaged in containers made from paper products shall be equipped with diversion devices and retention pans or drains for container leakage.
(B) Vending machines that dispense liquid food in bulk shall be:
   (1) Provided with an internally mounted waste receptacle for the collection of drip, spillage, overflow, or other internal wastes; and
   (2) Equipped with an automatic shutoff device that will place the machine out of operation before the waste receptacle overflows.
(C) Shutoff devices specified under Subparagraph (B)(2) of this section shall prevent water or liquid food from continuously running if there is a failure of a flow control device in the water or liquid food system or waste accumulation that could lead to overflow of the waste receptacle.

4-204.122  Case Lot Handling Equipment, Moveability.
Equipment, such as dollies, pallets, racks, and skids used to store and transport large quantities of packaged foods received from a supplier in a cased or overwrapped lot, shall be designed to be moved by hand or by conveniently available equipment such as hand trucks and forklifts.

4-204.123  Vending Machine Doors and Openings.
(A) Vending machine doors and access opening covers to food and container storage spaces shall be tight-fitting so that the space along the entire interface between the doors or covers and the cabinet of the machine, if the doors or covers are in a closed position, is no greater than 1.5 millimeters or one-sixteenth inch by:
   (1) Being covered with louvers, screens, or materials that provide an equivalent opening of not greater than 1.5 millimeters or one-sixteenth inch. Screening of 12 or more mesh to 2.5 centimeters (12 mesh to 1 inch) meets this requirement;
   (2) Being effectively gasketed;
   (3) Having interface surfaces that are at least 13 millimeters or one-half inch wide; or
   (4) Jambs or surfaces used to form an L-shaped entry path to the interface.
(B) Vending machine service connection openings through an exterior wall of a machine shall be closed by sealants, clamps, or grommets so that the openings are no larger than 1.5 millimeters or one-sixteenth inch.

4-205.10  Food Equipment, Certification and Classification.
Food equipment that is certified or classified for sanitation by an American National Standards Institute (ANSI)-accredited certification program will be deemed to comply with Parts 4-1 and 4-2 of this chapter.

4-3  NUMBERS AND CAPACITIES

   Subparts   4-301  Equipment
               4-302  Utensils, Temperature Measuring and Testing Devices

4-301.11  Cooling, Heating, and Holding Capacities.
Equipment for cooling and heating food, and holding cold and hot food, shall be sufficient in number and capacity to provide food temperatures as specified under Chapter 3.

4-301.12  Manual Warewashing, Sink Compartment Requirements.
(A) Except as specified in ¶ (C) and (F) of this section, a sink with at least 3 compartments shall be provided for manually washing, rinsing, and sanitizing equipment and utensils.
(B) Sink compartments shall be large enough to accommodate immersion of the largest equipment and utensils. If equipment or utensils are too large for the warewashing sink, a warewashing machine or alternative equipment as specified in ¶ (C) of this section shall be used.
(C) Alternative manual warewashing equipment may be used when there are special cleaning needs or constraints and its use is approved. Alternative manual warewashing equipment may include:
   (1) High-pressure detergent sprayers;
   (2) Low- or line-pressure spray detergent foamers;
   (3) Other task-specific cleaning equipment;
(4) Brushes or other implements; or
(5) [Deleted]
(6) Receptacles that substitute for the compartments of a multicompartment sink.
(D) [Deleted]
(E) [Deleted]
(F) A commercial warewashing machine is allowed in lieu of a manual warewashing sink as required in this section.
(G) For mobile food units:
(1) Class I, II and III mobile food units are not required to provide warewashing facilities on the unit, if adequate facilities exist at the commissary.
(2) Multiple or disposable utensils may be used for food handling on the unit. There shall be at the beginning of each day's business a sufficient supply of clean utensils necessary to properly prepare, assemble, or dispense the food. For mobile food units that do not have a warewashing sink on the unit, this supply shall consist of at least one of each type of utensil for every two hours of operation. If the unit operates less than four hours in a day, the unit shall provide a minimum of two sets of each type of utensil. Utensils shall not be used if they become contaminated.
(3) Class IV mobile food units must provide a sink with at least three compartments.

4-301.13  Drainboards.
Drainboards, utensil racks, or tables large enough to accommodate all soiled and cleaned items that may accumulate during hours of operation shall be provided for necessary utensil holding before cleaning and after sanitizing.

4-301.14  Ventilation Hood Systems, Adequacy.
Ventilation hood systems and devices shall be sufficient in number and capacity to prevent grease or condensation from collecting on walls and ceilings.

4-301.15  Clothes Washers and Dryers.
(A) Except as specified in ¶ (B) of this section, if work clothes or linens are laundered on the premises, a mechanical clothes washer and dryer shall be provided and used.
(B) If on-premises laundering is limited to wiping cloths intended to be used moist, or wiping cloths are air-dried as specified under § 4-901.12, a mechanical clothes washer and dryer need not be provided.

4-302.11  Utensils, Consumer Self-Service.
A food dispensing utensil shall be available for each container displayed at a consumer self-service unit such as a buffet or salad bar.

4-302.12  Food Temperature Measuring Devices.
Food temperature measuring devices shall be provided and readily accessible for use in ensuring attainment and maintenance of food temperatures as specified under Chapter 3. At a minimum, a metal-stemmed temperature-measuring device with a range of 0-220°F shall be provided to take internal food temperatures.

In manual warewashing operations, a temperature measuring device shall be provided and readily accessible for frequently measuring the washing and sanitizing temperatures.

4-302.14  Sanitizing Solutions, Testing Devices.
A test kit or other device that accurately measures the concentration in mg/L of sanitizing solutions shall be provided.
4-4 LOCATION AND INSTALLATION

Subparts 4-401 Location  4-402 Installation

4-401.11 Equipment, Clothes Washers and Dryers, and Storage Cabinets, Contamination Prevention.

(A) Except as specified in ¶ (B) of this section, equipment, a cabinet used for the storage of food, or a cabinet that is used to store cleaned and sanitized equipment, utensils, laundered linens, and single-service and single-use articles may not be located:

(1) In locker rooms;
(2) In toilet rooms;
(3) In garbage rooms;
(4) In mechanical rooms;
(5) Under sewer lines that are not shielded to intercept potential drips;
(6) Under leaking water lines including leaking automatic fire sprinkler heads or under lines on which water has condensed;
(7) Under open stairwells; or
(8) Under other sources of contamination.

(B) A storage cabinet used for linens or single-service or single-use articles may be stored in a locker room.

(C) If a mechanical clothes washer or dryer is provided, it shall be located so that the washer or dryer is protected from contamination and only where there is no exposed food; clean equipment, utensils, and linens; and unwrapped single-service and single-use articles.

4-402.11 Fixed Equipment, Spacing or Sealing.

(A) Equipment that is fixed because it is not easily movable shall be installed so that it is:

(1) Spaced to allow access for cleaning along the sides, behind, and above the equipment;
(2) Spaced from adjoining equipment, walls, and ceilings a distance of not more than 1 millimeter or one thirty-second inch; or
(3) Sealed to adjoining equipment or walls, if the equipment is exposed to spillage or seepage.

(B) Table-mounted equipment that is not easily movable shall be installed to allow cleaning of the equipment and areas underneath and around the equipment by being:

(1) Sealed to the table; or
(2) Elevated on legs as specified under ¶ 4-402.12(D).

4-402.12 Fixed Equipment, Elevation or Sealing.

(A) Except as specified in ¶ (B) and (C) of this section, floor-mounted equipment that is not easily movable shall be sealed to the floor or elevated on legs that provide at least a 15-centimeter (6-inch) clearance between the floor and the equipment.

(B) If no part of the floor under the floor-mounted equipment is more than 15 centimeters (6 inches) from the point of cleaning access, the clearance space may be only 10 centimeters (4 inches).

(C) This section does not apply to display shelving units, display refrigeration units, and display freezer units located in the consumer shopping areas of a retail food store, if the floor under the units is maintained clean.

(D) Except as specified in ¶ (E) of this section, table-mounted equipment that is not easily movable shall be elevated on legs that provide at least a 10-centimeter (4-inch) clearance between the table and the equipment.

(E) The clearance space between the table and table-mounted equipment may be:

(1) 7.5 centimeters (3 inches) if the horizontal distance of the table top under the equipment is no more than 50 centimeters (20 inches) from the point of access for cleaning; or
(2) 5 centimeters (2 inches) if the horizontal distance of the table top under the equipment is no more than 7.5 centimeters (3 inches) from the point of access for cleaning.
4-5 MAINTENANCE AND OPERATION

Subparts 4-501 Equipment
4-502 Utensils and Temperature and Pressure Measuring Devices

4-501.11 Good Repair and Proper Adjustment.
(A) Equipment shall be maintained in a state of repair and condition that meets the requirements specified under Parts 4-1 and 4-2.
(B) Equipment components such as doors, seals, hinges, fasteners, and kick plates shall be kept intact, tight, and adjusted in accordance with manufacturer's specifications.
(C) Cutting or piercing parts of can openers shall be kept sharp to minimize the creation of metal fragments that can contaminate food when the container is opened.

4-501.12 Cutting Surfaces.
Surfaces such as cutting blocks and boards that are subject to scratching and scoring shall be resurfaced if they can no longer be effectively cleaned and sanitized, or discarded if they are not capable of being resurfaced.

4-501.13 Microwave Ovens.
Microwave ovens shall meet the safety standards specified in 21 CFR 1030.10 Microwave ovens.

4-501.14 Warewashing Equipment, Cleaning Frequency.
A warewashing machine; the compartments of sinks, basins, or other receptacles used for washing and rinsing equipment, utensils, or raw foods, or laundering wiping cloths; and drainboards or other equipment used to substitute for drainboards as specified under § 4-301.13 shall be cleaned:
(A) Before use;
(B) Throughout the day at a frequency necessary to prevent recontamination of equipment and utensils and to ensure that the equipment performs its intended function; and
(C) If used, at least every 24 hours.

4-501.15 Warewashing Machines, Manufacturers' Operating Instructions.
(A) A warewashing machine and its auxiliary components shall be operated in accordance with the machine's data plate and other manufacturer's instructions. (B) A warewashing machine's conveyor speed or automatic cycle times shall be maintained accurately timed in accordance with manufacturer's specifications.

4-501.16 Warewashing Sinks, Use Limitation.
(A) A warewashing sink may not be used for handwashing.
(B) If a warewashing sink is used to launder wiping cloths, wash produce, or thaw food, the sink shall be cleaned as specified under § 4-501.14.
   (1) If wiping cloths are washed at the warewashing sink, they shall be washed in the wash compartment, and
   (2) Sinks used to wash or thaw food shall be washed, rinsed, and sanitized both before and after use.

4-501.17 Warewashing Equipment, Cleaning Agents.
When used for warewashing, the wash compartment of a sink, mechanical warewasher, or wash receptacle of alternative manual warewashing equipment as specified in ¶ 4-301.12(C), shall contain a wash solution of soap, detergent, acid cleaner, alkaline cleaner, degreaser, abrasive cleaner, or other cleaning agent according to the cleaning agent manufacturer's label instructions.

4-501.18 Warewashing Equipment, Clean Solutions.
The wash, rinse, and sanitize solutions shall be maintained clean.

The temperature of the wash solution in manual warewashing equipment shall be maintained at not less than 43°C (110°F) or the temperature specified on the cleaning agent manufacturer's label instructions.
4-501.110 Mechanical Warewashing Equipment, Wash Solution Temperature.
(A) The temperature of the wash solution in spray type warewashers that use hot water to sanitize may not be less than:
   (1) For a stationary rack, single temperature machine, 74°C (165°F);
   (2) For a stationary rack, dual temperature machine, 66°C (150°F);
   (3) For a single tank, conveyor, dual temperature machine, 71°C (160°F); or
   (4) For a multitank, conveyor, multitemperature machine, 66°C (150°F).
(B) The temperature of the wash solution in spray-type warewashers that use chemicals to sanitize may not be less than 49°C (120°F).

If immersion in hot water is used for sanitizing in a manual operation, the temperature of the water shall be maintained at 77°C (171°F) or above.

4-501.112 Mechanical Warewashing Equipment, Hot Water Sanitization Temperatures.
(A) Except as specified in ¶ (B) of this section, in a mechanical operation, the temperature of the fresh hot water sanitizing rinse as it enters the manifold may not be more than 90°C (194°F), or less than:
   (1) For a stationary rack, single temperature machine, 74°C (165°F); or
   (2) For all other machines, 82°C (180°F).
(B) The maximum temperature specified under ¶ (A) of this section, does not apply to the high pressure and temperature systems with wand-type, hand-held, spraying devices used for the in-place cleaning and sanitizing of equipment such as meat saws.

4-501.113 Mechanical Warewashing Equipment, Sanitization Pressure.
The flow pressure of the fresh hot water sanitizing rinse in a warewashing machine may not be less than 100 kilopascals (15 pounds per square inch) or more than 170 kilopascals (25 pounds per square inch) as measured in the water line immediately downstream or upstream from the fresh hot water sanitizing rinse control valve.

A chemical sanitizer used in a sanitizing solution for a manual or mechanical operation at exposure times specified under ¶ 4-703.11(C) shall be listed in 21 CFR 178.1010 Sanitizing solutions, shall be used in accordance with the EPA-approved manufacturer's label use instructions, and shall be used as follows:

(A) A chlorine solution shall have a minimum temperature based on the concentration and pH of the solution as listed in the following chart;

<table>
<thead>
<tr>
<th>Minimum Concentration</th>
<th>Minimum Temperature</th>
</tr>
</thead>
<tbody>
<tr>
<td>mg/L</td>
<td>pH 10 or less °C (°F)</td>
</tr>
<tr>
<td>25</td>
<td>49 (120)</td>
</tr>
<tr>
<td>50</td>
<td>38 (100)</td>
</tr>
<tr>
<td>100</td>
<td>13 ( 55)</td>
</tr>
</tbody>
</table>

(B) An iodine solution shall have a:
   (1) Minimum temperature of 24°C (75°F),
   (2) pH of 5.0 or less or a pH no higher than the level for which the manufacturer specifies the solution is effective, and
   (3) Concentration between 12.5 mg/L and 25 mg/L;
(C) A quaternary ammonium compound solution shall:
   (1) Have a minimum temperature of 24°C (75°F),
   (2) Have a concentration as specified under § 7-204.11 and as indicated by the manufacturer's use directions included in
       the labeling, and
   (3) Be used only in water with 500 mg/L hardness or less or in water having a hardness no greater than specified by the
       manufacturer's label;
(D) If another solution of a chemical specified under ¶¶ (A)-(C) of this section is used, the permit holder shall demonstrate to
the regulatory authority that the solution achieves sanitization and the use of the solution shall be approved; or
(E) If a chemical sanitizer other than chlorine, iodine, or a quaternary ammonium compound is used, it shall be applied in
accordance with the manufacturer's use directions included in the labeling.

4-501.115 Manual Warewashing Equipment, Chemical Sanitization Using Detergent-
Sanitizers. [Deleted]

4-501.116 Warewashing Equipment, Determining Chemical Sanitizer Concentration.
Concentration of the sanitizing solution shall be accurately determined by using a test kit or other device.

4-502.11 Good Repair and Calibration.
(A) Utensils shall be maintained in a state of repair or condition that complies with the requirements specified under Parts 4-1
and 4-2 or shall be discarded.
(B) Food temperature measuring devices shall be calibrated in accordance with manufacturer's specifications as necessary to
ensure their accuracy.
(C) Ambient air temperature, water pressure, and water temperature measuring devices shall be maintained in good repair and
be accurate within the intended range of use.

4-502.12 Single-Service and Single-Use Articles, Required Use.*
A food establishment without facilities specified under Parts 4-6 and 4-7 for cleaning and sanitizing kitchenware and
tableware shall provide only single-use kitchenware, single-service articles, and single-use articles for use by food employees
and single-service articles for use by consumers.

4-502.13 Single-Service and Single-Use Articles, Use Limitation.
(A) Single-service and single-use articles may not be reused.
(B) The bulk milk container dispensing tube shall be cut on the diagonal leaving no more than one inch protruding from the
chilled dispensing head.

4-502.14 Shells, Use Limitation.
Mollusk and crustacea shells may not be used more than once as serving containers.

4-6 CLEANING OF EQUIPMENT AND UTENSILS

   Subparts 4-601 Objective
   4-602 Frequency
   4-603 Methods

4-601.11 Equipment, Food-Contact Surfaces, Nonfood-Contact Surfaces, and Utensils.*
(A) Equipment food-contact surfaces and utensils shall be clean to sight and touch.
(B) The food-contact surfaces of cooking equipment and pans shall be kept free of encrusted grease deposits and other soil
accumulations.¹
(C) Nonfood-contact surfaces of equipment shall be kept free of an accumulation of dust, dirt, food residue, and other
debris.¹

4-602.11 Equipment Food-Contact Surfaces and Utensils.*
(A) Equipment food-contact surfaces and utensils shall be cleaned:
   (1) Except as specified in ¶ (B) of this section, before each use with a different type of raw animal food such as beef,
       fish, lamb, pork, or poultry;
(2) Each time there is a change from working with raw foods to working with ready-to-eat foods;
(3) Between uses with raw fruits and vegetables and with potentially hazardous food;
(4) Before using or storing a food temperature measuring device; and
(5) At any time during the operation when contamination may have occurred.

(B) Subparagraph (A)(1) of this section does not apply if the food-contact surface or utensil is in contact with a succession of different raw animal foods each requiring a higher cooking temperature as specified under § 3-401.11 than the previous food, such as preparing raw fish followed by cutting raw poultry on the same cutting board.

(C) Except as specified in ¶ (D) of this section, if used with potentially hazardous food, equipment food-contact surfaces and utensils shall be cleaned throughout the day at least every 4 hours.

(D) Surfaces of utensils and equipment contacting potentially hazardous food may be cleaned less frequently than every 4 hours if:

(1) In storage, containers of potentially hazardous food and their contents are maintained at temperatures specified under Chapter 3 and the containers are cleaned when they are empty;
(2) Utensils and equipment are used to prepare food in a refrigerated room or area that is maintained at one of the temperatures in the following chart and:

<table>
<thead>
<tr>
<th>Temperature</th>
<th>Cleaning Frequency</th>
</tr>
</thead>
<tbody>
<tr>
<td>5.0°C (41°F) or less</td>
<td>24 hours</td>
</tr>
<tr>
<td>&gt;5.0°C - 7.2°C (&gt;41°F - 45°F)</td>
<td>20 hours</td>
</tr>
<tr>
<td>&gt;7.2°C - 10.0°C (&gt;45°F - 50°F)</td>
<td>16 hours</td>
</tr>
<tr>
<td>&gt;10.0°C - 12.8°C (&gt;50°F - 55°F)</td>
<td>10 hours</td>
</tr>
</tbody>
</table>

(3) Containers in serving situations such as salad bars, delis, and cafeteria lines hold ready-to-eat potentially hazardous food that is maintained at the temperatures specified under Chapter 3, are intermittently combined with additional supplies of the same food that is at the required temperature, and the containers are cleaned at least every 24 hours;

(4) Temperature measuring devices are maintained in contact with food, such as when left in a container of deli food or in a roast, held at temperatures specified under Chapter 3;

(5) Equipment is used for storage of packaged or unpackaged food such as a reach-in refrigerator and the equipment is cleaned at a frequency necessary to preclude accumulation of soil residues;

(6) The cleaning schedule is approved based on consideration of:

(a) Characteristics of the equipment and its use,
(b) The type of food involved,
(c) The amount of food residue accumulation, and
(d) The temperature at which the food is maintained during the operation and the potential for the rapid and progressive multiplication of pathogenic or toxigenic microorganisms that are capable of causing foodborne disease; or
(7) The utensils and container are cleaned at least every 24 hours or at a frequency necessary to preclude accumulation of soil residues and in-use utensils are intermittently stored in a container of water in which the water is maintained at:
(a) 60°C (140°F) or more, or
(b) 5°C (41°F) or less.
(E) Except when dry cleaning methods are used as specified under § 4-603.11, surfaces of utensils and equipment contacting food that is not potentially hazardous shall be cleaned:
1. At any time when contamination may have occurred;
2. At least every 24 hours for iced tea dispensers and consumer self-service utensils such as tongs, scoops, or ladles;
3. Before restocking consumer self-service equipment and utensils such as condiment dispensers and display containers; and
4. In equipment such as ice bins and beverage dispensing nozzles and enclosed components of equipment such as ice makers, cooking oil storage tanks and distribution lines, beverage and syrup dispensing lines or tubes, coffee bean grinders, and water vending equipment:
   (a) At a frequency specified by the manufacturer, or
   (b) Absent manufacturer specifications, at a frequency necessary to preclude accumulation of soil or mold.

4-602.12  Cooking and Baking Equipment.
(A) The food-contact surfaces of cooking and baking equipment shall be cleaned at least every 24 hours. This section does not apply to hot oil cooking and filtering equipment if it is cleaned as specified in Subparagraph 4-602.11(D)(6).
(B) The cavities and door seals of microwave ovens shall be cleaned at least every 24 hours by using the manufacturer's recommended cleaning procedure.

4-602.13  Nonfood-Contact Surfaces.
Nonfood-contact surfaces of equipment shall be cleaned at a frequency necessary to preclude accumulation of soil residues.

4-603.11  Dry Cleaning.
(A) If used, dry cleaning methods such as brushing, scraping, and vacuuming shall contact only surfaces that are soiled with dry food residues that are not potentially hazardous.
(B) Cleaning equipment used in dry cleaning food-contact surfaces may not be used for any other purpose.

4-603.12  Precleaning.
(A) Food debris on equipment and utensils shall be scrapped over a waste disposal unit, scupper, or garbage receptacle or shall be removed in a warewashing machine with a prewash cycle.
(B) If necessary for effective cleaning, utensils and equipment shall be preflushed, presoaked, or scrubbed with abrasives.

4-603.13  Loading of Soiled Items, Warewashing Machines.
Soiled items to be cleaned in a warewashing machine shall be loaded into racks, trays, or baskets or onto conveyors in a position that:
(A) Exposes the items to the unobstructed spray from all cycles; and
(B) Allows the items to drain.

4-603.14  Wet Cleaning.
(A) Equipment food-contact surfaces and utensils shall be effectively washed to remove or completely loosen soils by using the manual or mechanical means necessary such as the application of detergents containing wetting agents and emulsifiers; acid, alkaline, or abrasive cleaners; hot water; brushes; scouring pads; high-pressure sprays; or ultrasonic devices.
(B) The washing procedures selected shall be based on the type and purpose of the equipment or utensil, and on the type of soil to be removed.

4-603.15  Washing, Procedures for Alternative Manual Warewashing Equipment.
If washing in sink compartments or a warewashing machine is impractical such as when the equipment is fixed or the utensils are too large, washing shall be done by using alternative manual warewashing equipment as specified in 4-301.12(C) in accordance with the following procedures:
(A) Equipment shall be disassembled as necessary to allow access of the detergent solution to all parts;
(B) Equipment components and utensils shall be scrapped or rough cleaned to remove food particle accumulation; and
(C) Equipment and utensils shall be washed as specified under ¶ 4-603.14(A).
4-603.16  Rinsing Procedures.
Washed utensils and equipment shall be rinsed so that abrasives are removed and cleaning chemicals are removed or diluted through the use of water or a detergent-sanitizer solution by using one of the following procedures:
(A) Use of a distinct, separate water rinse after washing and before sanitizing if using:
   (1) A 3-compartment sink,
   (2) Alternative manual warewashing equipment equivalent to a 3-compartment sink as specified in ¶ 4-301.12(C), or
   (3) A 3-step washing, rinsing, and sanitizing procedure in a warewashing system for cip equipment;
(B) [Deleted]
(C) [Deleted]
(D) If using a warewashing machine that does not recycle the sanitizing solution as specified under ¶ (E) of this section, or alternative manual warewashing equipment such as sprayers, use of a nondistinct water rinse that is:
   (1) Integrated in the application of the sanitizing solution, and
   (2) Wasted immediately after each application; or
(E) If using a warewashing machine that recycles the sanitizing solution for use in the next wash cycle, use of a nondistinct water rinse that is integrated in the application of the sanitizing solution.

4-603.17  Returnables, Cleaning for Refilling.*
(A) Except as specified in ¶ (B) and (C) of this section, returned empty containers intended for cleaning and refilling with food shall be cleaned and refilled in a regulated food processing plant.
(B) A food-specific container for beverages may be refilled at a food establishment if:
   (1) Only a beverage that is not a potentially hazardous food is used as specified under ¶ 3-304.17(A);
   (2) The design of the container and of the rinsing equipment and the nature of the beverage, when considered together, allow effective cleaning at home or in the food establishment;
   (3) Facilities for rinsing before returned containers with fresh, hot water that is under pressure and not recirculated are provided as part of the dispensing system;
   (4) The consumer-owned container returned to the food establishment for refilling is refilled for sale or service only to the same consumer; and
   (5) The container is refilled by:
      (a) An employee of the food establishment, or
      (b) The owner of the container if the beverage system includes a contamination-free transfer process that cannot be bypassed by the container owner.
(C) Consumer-owned containers that are not food-specific may be filled at a water vending machine or system.

4-7  SANITIZATION OF EQUIPMENT AND UTENSILS

Subparts  4-701  Objective
          4-702  Frequency
          4-703  Methods

4-701.10  Food-Contact Surfaces and Utensils.
Equipment food-contact surfaces and utensils shall be sanitized.

4-702.11  Before Use After Cleaning.*
Utensils and food-contact surfaces of equipment shall be sanitized before use after cleaning.
4-703.11 Hot Water and Chemical.*

After being cleaned, equipment food-contact surfaces and utensils shall be sanitized in:

(A) Hot water manual operations by immersion for at least 30 seconds and as specified under § 4-501.111;

(B) Hot water mechanical operations by being cycled through equipment that is set up as specified under §§ 4-501.15, 4-501.112, and 4-501.113 and achieving a utensil surface temperature of 71°C (160°F) as measured by an irreversible registering temperature indicator; or

(C) Chemical manual or mechanical operations, including the application of sanitizing chemicals by immersion, manual swabbing, brushing, or pressure spraying methods, using a solution as specified under § 4-501.114 by providing:

1. Except as specified under Subparagraph (C)(2) of this section, an exposure time of at least 10 seconds for a chlorine solution specified under ¶ 4-501.114(A),

2. An exposure time of at least 7 seconds for a chlorine solution of 50 mg/L that has a pH of 10 or less and a temperature of at least 38°C (100°F) or a pH of 8 or less and a temperature of at least 24°C (75°F),

3. An exposure time of at least 30 seconds for other chemical sanitizing solutions, or

4. An exposure time used in relationship with a combination of temperature, concentration, and pH that, when evaluated for efficacy, yields sanitization as defined in Subparagraph 1-201.10(B)(72).

4-8 LAUNDERING

Subparts 4-801 Objective
4-802 Frequency
4-803 Methods

4-801.11 Clean Linens.

Clean linens shall be free from food residues and other soiling matter.

4-802.11 Specifications.

(A) Linens that do not come in direct contact with food shall be laundered between operations if they become wet, sticky, or visibly soiled.

(B) Cloth gloves used as specified in ¶ 3-304.15(D) shall be laundered before being used with a different type of raw animal food such as beef, lamb, pork, and fish.

(C) Linens and napkins that are used as specified under § 3-304.13 and cloth napkins shall be laundered between each use.

(D) Wet wiping cloths shall be laundered daily.

(E) Dry wiping cloths shall be laundered as necessary to prevent contamination of food and clean serving utensils.

4-803.11 Storage of Soiled Linens.

Soiled linens shall be kept in clean, nonabsorbent receptacles or clean, washable laundry bags and stored and transported to prevent contamination of food, clean equipment, clean utensils, and single-service and single-use articles.

4-803.12 Mechanical Washing.

(A) Except as specified in ¶ (B) of this section, linens shall be mechanically washed.

(B) In food establishments in which only wiping cloths are laundered as specified in ¶ 4-301.15(B), the wiping cloths may be laundered in a mechanical washer, sink designated only for laundering wiping cloths, or a warewashing or food preparation sink that is cleaned as specified under § 4-501.14.

4-803.13 Use of Laundry Facilities.

(A) Except as specified in ¶ (B) of this section, laundry facilities on the premises of a food establishment shall be used only for the washing and drying of items used in the operation of the establishment.

(B) Separate laundry facilities located on the premises for the purpose of general laundering such as for institutions providing boarding and lodging may also be used for laundering food establishment items.
4-901.11  Equipment and Utensils, Air-Drying Required.
After cleaning and sanitizing, equipment and utensils:
(A) Shall be air-dried or used after adequate draining as specified in (a) of 21 CFR 178.1010 Sanitizing solutions, before contact with food; and
(B) May not be cloth dried except that utensils that have been air-dried may be polished with cloths that are maintained clean and dry.

4-901.12  Wiping Cloths, Air-Drying Locations.
Wiping cloths laundered in a food establishment that does not have a mechanical clothes dryer as specified in ¶ 4-301.15(B) shall be air-dried in a location and in a manner that prevents contamination of food, equipment, utensils, linens, and single-service and single-use articles and the wiping cloths. This section does not apply if wiping cloths are stored after laundering in a sanitizing solution as specified under § 4-501.114.

4-902.11  Food-Contact Surfaces.
Lubricants shall be applied to food-contact surfaces that require lubrication in a manner that does not contaminate food-contact surfaces.

4-902.12  Equipment.
Equipment shall be reassembled so that food-contact surfaces are not contaminated.

(A) Except as specified in ¶ (D) of this section, cleaned equipment and utensils, laundered linens, and single-service and single-use articles shall be stored:
   (1) In a clean, dry location;
   (2) Where they are not exposed to splash, dust, or other contamination; and
   (3) At least 15 cm (6 inches) above the floor.
(B) Clean equipment and utensils shall be stored as specified under ¶ (A) of this section and shall be stored:
   (1) In a self-draining position that allows air drying; and
   (2) Covered or inverted.
(C) Single-service and single-use articles shall be stored as specified under ¶ (A) of this section and shall be kept in the original protective package or stored by using other means that afford protection from contamination until used.
(D) Items that are kept in closed packages may be stored less than 15 cm (6 inches) above the floor on dollies, pallets, racks, and skids that are designed as specified under § 4-204.122.

4-903.12  Prohibitions.
(A) Except as specified in ¶ (B) of this section, cleaned and sanitized equipment, utensils, laundered linens, and single-service and single-use articles may not be stored:
   (1) In locker rooms;
   (2) In toilet rooms;
   (3) In garbage rooms;
   (4) In mechanical rooms;
   (5) Under sewer lines that are not shielded to intercept potential drips;
   (6) Under leaking water lines including leaking automatic fire sprinkler heads or under lines on which water has condensed;
   (7) Under open stairwells; or
   (8) Under other sources of contamination.
(B) Laundered linens and single-service and single-use articles that are packaged or in a facility such as a cabinet may be stored in a locker room.

4-904.11  Kitchenware and Tableware.
(A) Single-service and single-use articles and cleaned and sanitized utensils shall be handled, displayed, and dispensed so that contamination of food- and lip-contact surfaces is prevented.

(B) Knives, forks, and spoons that are not prewrapped shall be presented so that only the handles are touched by employees and by consumers if consumer self-service is provided.

(C) Except as specified ¶ (B) of this section, single-service articles that are intended for food- or lip-contact shall be furnished for consumer self-service with the original individual wrapper intact or from an approved dispenser.

4-904.12 **Soiled and Clean Tableware.**
Soiled tableware shall be removed from consumer eating and drinking areas and handled so that clean tableware is not contaminated.

4-904.13 **Preset Tableware.**
If Tableware is preset:
(A) It shall be protected from contamination by being wrapped, covered, or inverted;
(B) Exposed, unused settings shall be removed when a consumer is seated; or
(C) Exposed, unused settings shall be cleaned and sanitized before further use if the settings are not removed when a consumer is seated.
Chapter 5
Water, Plumbing and Waste

Parts
5-1 WATER
5-2 PLUMBING SYSTEM
5-3 MOBILE WATER TANK AND MOBILE FOOD ESTABLISHMENT WATER TANK
5-4 SEWAGE, OTHER LIQUID WASTE, AND RAINWATER
5-5 REFUSE, RECYCLABLES, AND RETURNABLES

5-1 WATER

Subparts 5-101 Source
5-102 Quality
5-103 Quantity and Availability
5-104 Distribution, Delivery, and Retention

5-101.11 Approved System.*
Drinking water shall be obtained from an approved source that is:
(A) A public water system; or
(B) A nonpublic water system that is constructed, maintained, and operated according to law.

5-101.12 System Flushing and Disinfection.*
A drinking water system shall be flushed and disinfected before being placed in service after construction, repair, or modification and after an emergency situation, such as a flood, that may introduce contaminants to the system.

5-101.13 Bottled Drinking Water.*
Bottled drinking water used or sold in a food establishment shall be obtained from approved sources in accordance with 21 CFR 129 - Processing and Bottling of Bottled drinking water.

5-102.11 Standards.*
(A) Except as specified under § 5-102.12, water from a public water system shall meet 40 CFR 141 - National Primary Drinking Water Regulations and OAR 333-061.
(B) The following drinking water standards apply to licensed food establishments that are not regulated under OAR 333-061:
   (1) Sampling frequency:
      (a) For seasonal facilities, a coliform sample must be taken prior to operational period and each quarterly sampling period while open to public. A minimum of two samples will be required for coliform, regardless of length of operation.
      (b) For year round facilities:
         (i) Coliform: Monthly for surface water. Quarterly for populations under 1000 on ground water.
         (ii) Inorganic Samples: One time sampling required for new facilities before beginning operation.
(2) MCL Violations: An item is not considered a violation until confirmed by second sample taken within 24 hours. Four repeat samples must be taken within 24 hours of the original positive sample for a sample result above the maximum contaminant level (MCL).

(a) Total coliform: Report positive total coliform samples to the Department within 24 hours of being notified of the positive sample.
(b) Fecal coliform: Any positive fecal coliform sample must be reported to the Department within 24 hours.
   (i) Public notification for this potential acute health risk is required.
   (ii) An alternative procedure approved by the Department must be in place before serving public.
(c) Inorganic Samples: One time sampling required for new facilities. Not required for facilities that were previously regulated under OAR 333-061 and have tested prior to January 1, 2003. Inorganics include: antimony, arsenic, asbestos, barium, beryllium, cadmium, chromium, cyanide, fluoride, mercury, nickel, nitrate, nitrite, selenium and thallium.
(d) Nitrate: Sample annually
   (i) Any samples exceeding the MCL for nitrate shall be reported to the Department within at least 24 hours.
   (ii) Public notification is required.
   (iii) Bottled water must be provided to public upon request.
(e) The Department may require more frequent monitoring than specified or may require confirmation samples for positive and negative results. It is the responsibility of the operator to correct any problems and get a laboratory test result that is less than the maximum contaminant level.

(3) Sample collection methods:
(a) For the purpose of determining compliance with the MCL and the sampling requirements of these rules, sampling results may be considered only if they have been analyzed by a laboratory certified by the State Drinking Water Program.
(b) Samples submitted to laboratories for analysis shall be clearly identified with the name of the water system, facility license number, sampling date, time, sample location identifying the sample tap, the name of the person collecting the sample and whether it is a routine or a repeat sample.
   (i) Routine: These are samples collected from established sampling locations within a water system at specified frequencies to satisfy monitoring requirements as prescribed in this rule. These samples are also used to calculate compliance with maximum contaminant levels for inorganics prescribed in OAR 333-061-0030 (Table 1);
   (ii) Repeat: These are samples collected as a follow-up to a routine sample that has exceeded a maximum contaminant level;
   (iii) Test results: Sample results must be submitted to the Local Regulatory Authority by the 10th of the month following the sampling period.
(c) The Department may take additional samples to determine compliance with applicable requirements of these rules.

(4) Public Notice: All public notification must be posted conspicuously on site and must include:
(a) A description of the violation or situation of concern;
(b) Corrective actions taken to improve water quality;
(c) Any potential adverse health effects;
(d) The population at risk;
(e) The alternative measures in place to provide safe drinking water.

(5) Surface Water Sources: New facilities with surface water sources not regulated under OAR 333-061 will not be licensable after January 1, 2005. Facilities existing prior to January 1, 2005 in compliance with OAR 333-061-0032 may continue to operate.

(6) Plan Review: All new facilities that are not regulated by OAR 333-061 must submit plans to the Department for review prior to construction or major modification of system. Systems regulated prior to January 1, 2003 by OAR 333-061 are not required to re-submit plans. Plan review must be conducted in accordance with the procedures outlined in OAR 333-061-0060.

5-102.12 Nondrinking Water.*
(A) A nondrinking water supply shall be used only if its use is approved.
(B) Nondrinking water shall be used only for nonculinary purposes such as air conditioning, nonfood equipment cooling, fire protection, and irrigation.

5-102.13 Sampling.
Except when used as specified under § 5-102.12, water from a nonpublic water system shall be sampled and tested at least annually and as required by state water quality regulations.
5-102.14  **Sample Report.**
The most recent sample report for the nonpublic water system shall be retained on file in the food establishment or the report
shall be maintained as specified by state water quality regulations.

5-103.11  **Capacity.***
(A) The water source and system shall be of sufficient capacity to meet the peak water demands of the food establishment.
(B) Hot water generation and distribution systems shall be sufficient to meet the peak hot water demands throughout the food
establishment. Hot and cold or tempered water must be provided at all handwashing sinks in the establishment.

5-103.12  **Pressure.**
Water under pressure shall be provided to all fixtures, equipment, and nonfood equipment that are required to use water
except that water supplied as specified under ¶¶ 5-104.12(A) and (B) to a temporary food establishment or in response to a
temporary interruption of a water supply need not be under pressure.

5-104.11  **System.**
Water shall be received from the source through the use of:
(A) An approved public water main; or
(B) One or more of the following that shall be constructed, maintained, and operated according to law:
   (1) Nonpublic water main, water pumps, pipes, hoses, connections, and other appurtenances,
   (2) Water transport vehicles, and
   (3) Water containers.

5-104.12  **Alternative Water Supply.**
(A) Water meeting the requirements specified under Subparts 5-101, 5-102, and 5-103 shall be made available for a mobile
facility, for a temporary food establishment without a permanent water supply, and for a food establishment with a temporary
interruption of its water supply through:
   (1) A supply of containers of commercially bottled drinking water;
   (2) One or more closed portable water containers;
   (3) An enclosed vehicular water tank;
   (4) An on-premises water storage tank; or
   (5) Piping, tubing, or hoses connected to an adjacent approved source.
(B) The regulatory authority may grant a temporary variance from requirements of Subparts 5-101, 5-102, and 5-103 by
continuing or re-issuing previously issued permits where:
   (1) Failure to comply with the code requirements is due to a failure of a community, municipal or public utility water
supply system to meet the regulatory authority’s requirements;
   (2) The regulatory authority is satisfied that necessary remedial action is ongoing or reasonably imminent in connection
with such water supply system; and
   (3) Continuance or re-issuance of the permit is conditional upon the carrying out of such remedial action and the
provision of such other measures by the certificate or license holder which will in the judgment of the regulatory
authority afford reasonable interim protection to the public health including, but not limited to, adequate warnings to
public and personnel as to the safety of the water delivered to the premises from the distribution system and notice of
measures to avoid use or consumption of such water or to render it safe for consumption; adequate warnings as to the
need for supervision of children and others needing supervision against use of such water; provision of alternative
potable water and adequate notification as to its availability; and measures to avoid the use and the availability of water
on the premises.
5-201.11 Approved.*
(A) A plumbing system and hoses conveying water shall be constructed and repaired with approved materials according to law.
(B) A water filter shall be made of safe materials.

5-202.11 Approved System and Cleanable Fixtures.*
(A) A plumbing system shall be designed, constructed, and installed according to law.
(B) A plumbing fixture such as a handwashing facility, toilet, or urinal shall be easily cleanable.

5-202.12 Handwashing Facility, Installation.
(A) A handwashing lavatory shall be equipped to provide water at a temperature of at least 43°C (110°F) through a mixing valve or combination faucet.
(B) A steam mixing valve may not be used at a handwashing lavatory.
(C) A self-closing, slow-closing, or metering faucet shall provide a flow of water for at least 15 seconds without the need to reactivate the faucet.
(D) An automatic handwashing facility shall be installed in accordance with manufacturer’s instructions.

5-202.13 Backflow Prevention, Air Gap.*
An air gap between the water supply inlet and the flood level rim of the plumbing fixture, equipment, or nonfood equipment shall be at least twice the diameter of the water supply inlet and may not be less than 25 mm (1 inch).

A backflow or backsiphonage prevention device installed on a water supply system shall meet American Society of Sanitary Engineering (A.S.S.E.) standards for construction, installation, maintenance, inspection, and testing for that specific application and type of device.

5-202.15 Conditioning Device, Design.
A water filter, screen, and other water conditioning device installed on water lines shall be designed to facilitate disassembly for periodic servicing and cleaning. A water filter element shall be of the replaceable type.

5-203.11 Handwashing Facilities.*
(A) Except as specified in ¶¶ (B) and (C) of this section, at least 1 handwashing lavatory or the number of handwashing lavatories necessary for their convenient use by employees in areas specified under § 5-204.11, shall be provided. Food establishments opened prior to July 1, 1965 are exempt from this requirement provided that employees can meet the requirements under §§ 2-301.12 and 2-301.13.
(B) If approved and capable of removing the types of soils encountered in the food operations involved, automatic handwashing facilities may be substituted for handwashing lavatories in a food establishment that has at least one handwashing lavatory.
(C) An adequate number of handwashing stations shall be provided for each temporary food establishment to include:
   (1) A minimum of one enclosed container that has a minimum water capacity of five gallons;
   (2) A spigot that can be opened to provide a constant flow of water;
   (3) Soap;
   (4) Water;
   (5) Paper towels; and
   (6) A collection container for wastewater with a minimum capacity of five gallons.
(D) For mobile food units:
(1) Class II, III and IV mobile food units must provide hot and cold running water for handwashing tempered by means of a mixing valve;
(2) Notwithstanding subparagraph (1) of this paragraph, Class II and III mobile food units may provide a handwashing system as described in ¶ (C) (1)-(6) of this section. There must be a minimum initial volume of five gallons of water available for handwashing at the beginning of the workday.

(E) For outdoor barbecues, if a handwashing sink is not adjacent to the barbecue, a handwashing system that meets the requirements of ¶ (C)(1)-(6) of this section must be provided next to the outdoor barbecue.

5-203.12 Toilets and Urinals.*
(A) Except as specified in ¶ (B) of this section, toilet facilities shall be installed according to ORS 455.010 through 455.895 (1998 Oregon Structure Specialty Code, 2000 Amendments) for the number of toilets.
(B) Food establishments with occupancy of 15 or less to include both employees and patrons may have only one toilet fixture and adjacent lavatory on the premises.
(C) Mobile food units shall provide toilet facilities as provided for in § 6-402.11.

5-203.13 Service Sink.
(A) At least 1 service sink or 1 curbed cleaning facility equipped with a floor drain shall be provided and conveniently located for the cleaning of mops or similar wet floor cleaning tools and for the disposal of mop water and similar liquid waste.
(B) For mobile food units, if wet mopping is used as a method for cleaning the floor, then a separate sink must be provided in the unit for cleaning mops and cleaning tools and for the disposal of mop water or similar liquid wastes.

5-203.14 Backflow Prevention Device, When Required.*
A plumbing system shall be installed to preclude backflow of a solid, liquid, or gas contaminant into the water supply system at each point of use at the food establishment, including on a hose bibb if a hose is attached or on a hose bibb if a hose is not attached and backflow prevention is required by law, by:
(A) Providing an air gap as specified under § 5-202.13; or
(B) Installing an approved backflow prevention device as specified under § 5-202.14.

5-203.15 Backflow Prevention Device, Carbonator.*  Reserved.

5-204.11 Handwashing Facilities.*
A handwashing facility shall be located:
(A) To allow convenient use by employees in food preparation, food dispensing, and warewashing areas; and
(B) In, or immediately adjacent to, toilet rooms.

5-204.12 Backflow Prevention Device, Location.
A backflow prevention device shall be located so that it may be serviced and maintained.

5-204.13 Conditioning Device, Location.
A water filter, screen, and other water conditioning device installed on water lines shall be located to facilitate disassembly for periodic servicing and cleaning.

5-205.11 Using a Handwashing Facility.*
(A) A handwashing facility shall be maintained so that it is accessible at all times for employee use.  S
(B) A handwashing facility may not be used for purposes other than handwashing.  N
(C) An automatic handwashing facility shall be used in accordance with manufacturer’s instructions.  N

5-205.12 Prohibiting a Cross Connection.*
(A) Except as specified in 9 CFR 308.3(d) for firefighting, a person may not create a cross connection by connecting a pipe or conduit between the drinking water system and a nondrinking water system or a water system of unknown quality.
(B) The piping of a nondrinking water system shall be durably identified so that it is readily distinguishable from piping that carries drinking water.  N

5-205.13 Scheduling Inspection and Service for a Water System Device.
A device such as a water treatment device or backflow preventer shall be scheduled for inspection and service, in accordance with manufacturer's instructions and as necessary to prevent device failure based on local water conditions, and records
demonstrating inspection and service shall be maintained by the person in charge.

5-205.14 Water Reservoir of Fogging Devices, Cleaning.*
(A) A reservoir that is used to supply water to a device such as a produce fogger shall be:
   (1) Maintained in accordance with manufacturer's specifications; and
   (2) Cleaned in accordance with manufacturer's specifications or according to the procedures specified under ¶ (B) of this section, whichever is more stringent.
(B) Cleaning procedures shall include at least the following steps and shall be conducted at least once a week:
   (1) Draining and complete disassembly of the water and aerosol contact parts;
   (2) Brush-cleaning the reservoir, aerosol tubing, and discharge nozzles with a suitable detergent solution;
   (3) Flushing the complete system with water to remove the detergent solution and particulate accumulation; and
   (4) Rinsing by immersing, spraying, or swabbing the reservoir, aerosol tubing, and discharge nozzles with at least 50 mg/L hypochlorite solution.

5-205.15 System Maintained in Good Repair.*
A plumbing system shall be:
   (A) Repaired according to law; and
   (B) Maintained in good repair.

5-3 MOBILE WATER TANK AND MOBILE FOOD ESTABLISHMENT WATER TANK

Subparts 5-301 Materials
         5-302 Design and Construction
         5-303 Numbers and Capacities
         5-304 Operation and Maintenance
         5-305 Water System Requirements

5-301.11 Approved.
Materials, that are used in the construction of a mobile water tank, mobile food establishment water tank, and appurtenances shall be:
   (A) Safe;
   (B) Durable, corrosion-resistant, and nonabsorbent; and
   (C) Finished to have a smooth, easily cleanable surface.

5-302.11 Enclosed System, Sloped to Drain.
A mobile water tank shall be:
   (A) Enclosed from the filling inlet to the discharge outlet; and
   (B) Sloped to an outlet that allows complete drainage of the tank.
5-302.12 Inspection and Cleaning Port, Protected and Secured.
If a water tank is designed with an access port for inspection and cleaning, the opening shall be in the top of the tank and:
(A) Flanged upward at least 13 mm (one-half inch); and
(B) Equipped with a port cover assembly that is:
   (1) Provided with a gasket and a device for securing the cover in place, and
   (2) Flanged to overlap the opening and sloped to drain.

5-302.13 "V" Type Threads, Use Limitation.
A fitting with "V" type threads on a water tank inlet or outlet shall be allowed only when a hose is permanently attached.

5-302.14 Tank Vent, Protected.
If provided, a water tank vent shall terminate in a downward direction and shall be covered with:
(A) 16 mesh to 25.4 mm (16 mesh to 1 inch) screen or equivalent when the vent is in a protected area; or
(B) A protective filter when the vent is in an area that is not protected from windblown dirt and debris.

5-302.15 Inlet and Outlet, Sloped to Drain.
(A) A water tank and its inlet and outlet shall be sloped to drain.
(B) A water tank inlet shall be positioned so that it is protected from contaminants such as waste discharge, road dust, oil, or grease.

5-302.16 Hose, Construction and Identification.
A food grade hose shall be used for conveying drinking water from a water tank and shall be:
(A) Safe;
(B) Durable, corrosion-resistant, and nonabsorbent;
(C) Resistant to pitting, chipping, crazing, scratching, scoring, distortion, and decomposition;
(D) Finished with a smooth interior surface; and
(E) Clearly and durably identified as to its use if not permanently attached.

5-303.11 Filter, Compressed Air.
A filter that does not pass oil or oil vapors shall be installed in the air supply line between the compressor and drinking water system when compressed air is used to pressurize the water tank system.

5-303.12 Protective Cover or Device.
A cap and keeper chain, closed cabinet, closed storage tube, or other approved protective cover or device shall be provided for a water inlet, outlet, and hose.

5-303.13 Mobile Food Establishment Tank Inlet.
A mobile food establishment's water tank inlet shall be:
(A) 19.1 mm (three-fourths inch) in inner diameter or less; and
(B) Provided with a hose connection of a size or type that will prevent its use for any other service.

5-304.11 System Flushing and Disinfection.*
A water tank, pump, and hoses shall be flushed and sanitized before being placed in service after construction, repair, modification, and periods of nonuse.

5-304.12 Using a Pump and Hoses, Backflow Prevention.
A person shall operate a water tank, pump, and hoses so that backflow and other contamination of the water supply are prevented.
5-304.13 **Protecting Inlet, Outlet, and Hose Fitting.**
If not in use, a water tank and hose inlet and outlet fitting shall be protected using a cover or device as specified under § 5-303.12.

5-304.14 **Tank, Pump, and Hoses, Dedication.**
(A) Except as specified in ¶ (B) of this section, a water tank, pump, and hoses used for conveying drinking water shall be used for no other purpose.
(B) Water tanks, pumps, and hoses approved for liquid foods may be used for conveying drinking water if they are cleaned and sanitized before they are used to convey water.

5-305.11 **Water System Requirements.***
(A) A Class IV mobile food unit must have a potable water system under pressure. The system must be of sufficient capacity to furnish enough hot and cold water for food preparation, warewashing, and handwashing, and the requirements of these rules. This supply must consist of a minimum of five gallons of water for handwashing and 30 gallons of water for warewashing.
(B) Class II and III mobile food units must have a water supply that provides sufficient water for food preparation, handwashing, warewashing or any other requirements as set forth in these rules. If warewashing is conducted on the unit, a minimum of 30 gallons of water must be dedicated for this purpose. A minimum of five gallons of water must be provided for handwashing.
(C) Except relating to handwashing as provided for in subparagraph 5-203.11(D)(2), all mobile food units must be designed with integral potable and waste water tanks on board the unit. A mobile unit may connect to water and sewer if it is available at the operating location, however, the tanks must remain on the unit at all times.

5-4 **SEWAGE, OTHER LIQUID WASTE, AND RAINWATER**

**Subparts**
- 5-401 Mobile Holding Tank
- 5-402 Retention, Drainage, and Delivery
- 5-403 Disposal Facility

5-401.11 **Capacity and Drainage.***
A sewage holding tank in a mobile food establishment shall be:
(A) Sized 10 to 15 percent larger in capacity than the water supply tank; and
(B) Sloped to a drain that is 25 mm (1 inch) in inner diameter or greater, equipped with a shut-off valve.
(C) For a mobile food unit selling only beverages, such as coffee, espresso, or soda, and where most of the potable water supply is used in the product, the waste water retention tank may be at least one half the volume of the potable water storage tank. This determination must be made by the regulatory authority.

5-402.10 **Establishment Drainage System.**
Food establishment drainage systems, including grease traps, that convey sewage shall be designed and installed as specified under ¶ 5-202.11(A).

5-402.11 **Backflow Prevention.***
(A) Except as specified in ¶ (B) and (C) of this section, a direct connection may not exist between the sewage system and a drain originating from equipment in which food, portable equipment, or utensils are placed.
(B) If allowed by law, a warewashing machine may have a direct connection between its waste outlet and a floor drain when the machine is located within 1.5 m (5 feet) of a trapped floor drain and the machine outlet is connected to the inlet side of a properly vented floor drain trap.
(C) If allowed by law, a warewashing or culinary sink may have a direct connection.

5-402.12 **Grease Trap.**
If used, a grease trap shall be located to be easily accessible for cleaning.

5-402.13 **Conveying Sewage.***
(A) Sewage shall be conveyed to the point of disposal through an approved sanitary sewage system or other system, including use of sewage transport vehicles, waste retention tanks, pumps, pipes, hoses, and connections that are constructed, maintained, and operated according to law.
(B) For mobile food units:
(1) Mobile food units that generate only gray water liquid wastes may hand-carry those wastes to a specific disposal location approved by the regulatory authority.
(2) The waste transport container must be designed and intended to hold and transport gray water without leaks or spills. The container must have a capacity no greater than 20 gallons.

5-402.14 Removing Mobile Food Establishment Wastes.
Sewage and other liquid wastes shall be removed from a mobile food establishment at an approved waste servicing area or by a sewage transport vehicle in such a way that a public health hazard or nuisance is not created.

5-402.15 Flushing a Waste Retention Tank.
A tank for liquid waste retention shall be thoroughly flushed and drained in a sanitary manner during the servicing operation.

5-403.11 Approved Sewage Disposal System.*
Sewage shall be disposed through an approved facility that is:
(A) A public sewage treatment plant; or
(B) An individual sewage disposal system that is sized, constructed, maintained, and operated according to law.

5-403.12 Other Liquid Wastes and Rainwater.
Condensate drainage and other nonsewage liquids and rainwater shall be drained from point of discharge to disposal according to law.

5-5 REFUSE, RECYCLABLES, AND RETURNABLES

Subparts 5-501 Facilities on the Premises
5-502 Removal
5-503 Facilities for Disposal and Recycling

5-501.10 Indoor Storage Area.
If located within the food establishment, a storage area for refuse, recyclables, and returnables shall meet the requirements specified under §§ 6-101.11, 6-201.11 - 6-201.18, 6-202.15, and 6-202.16.

5-501.11 Outdoor Storage Surface.
An outdoor storage surface for refuse, recyclables, and returnables shall be constructed of nonabsorbent material such as concrete or asphalt and shall be smooth, durable, and sloped to drain.

5-501.12 Outdoor Enclosure.
If used, an outdoor enclosure for refuse, recyclables, and returnables shall be constructed of durable and cleanable materials.

5-501.13 Receptacles.
(A) Except as specified in ¶ (B) of this section, receptacles and waste handling units for refuse, recyclables, and returnables and for use with materials containing food residue shall be durable, cleanable, insect- and rodent-resistant, leakproof, and nonabsorbent.
(B) Plastic bags and wet strength paper bags may be used to line receptacles for storage inside the food establishment, or within closed outside receptacles.

5-501.14 Receptacles in Vending Machines.
A refuse receptacle may not be located within a vending machine, except that a receptacle for beverage bottle crown closures may be located within a vending machine.

5-501.15 Outside Receptacles.
(A) Receptacles and waste handling units for refuse, recyclables, and returnables used with materials containing food residue and used outside the food establishment shall be designed and constructed to have tight-fitting lids, doors, or covers.
(B) Receptacles and waste handling units for refuse and recyclables such as an on-site compactor shall be installed so that accumulation of debris and insect and rodent attraction and harborage are minimized and effective cleaning is facilitated
around and, if the unit is not installed flush with the base pad, under the unit.

5-501.16 **Storage Areas, Rooms, and Receptacles, Capacity and Availability.**
(A) An inside storage room and area and outside storage area and enclosure, and receptacles shall be of sufficient capacity to hold refuse, recyclables, and returnables that accumulate.
(B) A receptacle shall be provided in each area of the food establishment or premises where refuse is generated or commonly discarded, or where recyclables or returnables are placed.
(C) If disposable towels are used at handwashing lavatories, a waste receptacle shall be located at each lavatory or group of adjacent lavatories.

5-501.17 **Toilet Room Receptacle, Covered.**
A toilet room used by females shall be provided with a covered receptacle for sanitary napkins.

5-501.18 **Cleaning Implements and Supplies.**
(A) Except as specified in ¶ (B) of this section, suitable cleaning implements and supplies such as high pressure pumps, hot water, steam, and detergent shall be provided as necessary for effective cleaning of receptacles and waste handling units for refuse, recyclables, and returnables.
(B) If approved, off-premises-based cleaning services may be used if on-premises cleaning implements and supplies are not provided.

5-501.19 **Storage Areas, Redeeming Machines, Receptacles and Waste Handling Units, Location.**
(A) An area designated for refuse, recyclables, returnables, and, except as specified in ¶ (B) of this section, a redeeming machine for recyclables or returnables shall be located so that it is separate from food, equipment, utensils, linens, and single-service and single-use articles and a public health hazard or nuisance is not created.
(B) A redeeming machine may be located in the packaged food storage area or consumer area of a food establishment if food, equipment, utensils, linens, and single-service and single-use articles are not subject to contamination from the machines and a public health hazard or nuisance is not created.
(C) The location of receptacles and waste handling units for refuse, recyclables, and returnables may not create a public health hazard or nuisance or interfere with the cleaning of adjacent space.

5-501.110 **Storing Refuse, Recyclables, and Returnables.**
Refuse, recyclables, and returnables shall be stored in receptacles or waste handling units so that they are inaccessible to insects and rodents.

5-501.111 **Areas, Enclosures, and Receptacles, Good Repair.**
Storage areas, enclosures, and receptacles for refuse, recyclables, and returnables shall be maintained in good repair.

5-501.112 **Outside Storage Prohibitions.**
(A) Except as specified in ¶ (B) of this section, refuse receptacles not meeting the requirements specified under ¶ 5-501.13(A) such as receptacles that are not rodent-resistant, unprotected plastic bags and paper bags, or baled units that contain materials with food residue may not be stored outside.
(B) Cardboard or other packaging material that does not contain food residues and that is awaiting regularly scheduled delivery to a recycling or disposal site may be stored outside without being in a covered receptacle if it is stored so that it does not create a rodent harborage problem.

5-501.113  Covering Receptacles.
Receptacles and waste handling units for refuse, recyclables, and returnables shall be kept covered:
(A) Inside the food establishment if the receptacles and units:
   (1) Contain food residue and are not in continuous use; or
   (2) After they are filled; and
(B) With tight-fitting lids or doors if kept outside the food establishment.

5-501.114  Using Drain Plugs.
Drains in receptacles and waste handling units for refuse, recyclables, and returnables shall have drain plugs in place.

5-501.115  Maintaining Refuse Areas and Enclosures.
A storage area and enclosure for refuse, recyclables, or returnables shall be maintained free of unnecessary items, as specified under § 6-501.114, and clean.

5-501.116  Cleaning Receptacles.
(A) Receptacles and waste handling units for refuse, recyclables, and returnables shall be thoroughly cleaned in a way that does not contaminate food, equipment, utensils, linens, or single-service and single-use articles, and waste water shall be disposed of as specified under § 5-402.14.
(B) Soiled receptacles and waste handling units for refuse, recyclables, and returnables shall be cleaned at a frequency necessary to prevent them from developing a buildup of soil or becoming attractants for insects and rodents.

5-502.11  Frequency.
Refuse, recyclables, and returnables shall be removed from the premises at a frequency that will minimize the development of objectionable odors and other conditions that attract or harbor insects and rodents.

5-502.12  Receptacles or Vehicles.
Refuse, recyclables, and returnables shall be removed from the premises by way of:
(A) Portable receptacles that are constructed and maintained according to law; or
(B) A transport vehicle that is constructed, maintained, and operated according to law.

5-503.11  Community or Individual Facility.
Solid waste not disposed of through the sewage system such as through grinders and pulpers shall be recycled or disposed of in an approved public or private community recycling or refuse facility; or solid waste shall be disposed of in an individual refuse facility such as a landfill or incinerator which is sized, constructed, maintained, and operated according to law.
Chapter 6
Physical Facilities

Parts
6-1 MATERIALS FOR CONSTRUCTION AND REPAIR
6-2 DESIGN, CONSTRUCTION, AND INSTALLATION
6-3 NUMBERS AND CAPACITIES
6-4 LOCATION AND PLACEMENT
6-5 MAINTENANCE AND OPERATION

6-1 MATERIALS FOR CONSTRUCTION AND REPAIR

Subparts 6-101 Indoor Areas
6-102 Outdoor Areas

6-101.11 Surface Characteristics.
(A) Except as specified in ¶ (B) of this section, materials for indoor floor, wall, and ceiling surfaces under conditions of normal use shall be:
   (1) Smooth, durable, and easily cleanable for areas where food establishment operations are conducted;
   (2) Closely woven and easily cleanable carpet for carpeted areas; and
   (3) Nonabsorbent for areas subject to moisture such as food preparation areas, walk-in refrigerators, warewashing areas, toilet rooms, mobile food establishment servicing areas, and areas subject to flushing or spray cleaning methods.
(B) In a temporary food establishment:
   (1) If graded to drain, a floor may be concrete, machine-laid asphalt, or dirt or gravel if it is covered with mats, removable platforms, duckboards, or other suitable approved materials that are effectively treated to control dust and mud; and
   (2) Walls and ceilings may be constructed of a material that protects the interior from the weather and windblown dust and debris.

6-102.11 Surface Characteristics.
(A) The outdoor walking and driving areas shall be surfaced with concrete, asphalt, or gravel or other materials that have been effectively treated to minimize dust, facilitate maintenance, and prevent muddy conditions.
(B) Exterior surfaces of buildings and mobile food establishments shall be of weather-resistant materials and shall comply with law.
(C) Outdoor storage areas for refuse, recyclables, or returnables shall be of materials specified under §§ 5-501.11 and 5-501.12.

6-2 DESIGN, CONSTRUCTION, AND INSTALLATION

Subparts 6-201 Cleanability
6-202 Functionality
6-201.11 Floors, Walls, and Ceilings.
Except as specified under § 6-201.14, the floors, floor coverings, walls, wall coverings, and ceilings shall be designed, constructed, and installed so they are smooth and easily cleanable, except that anti-slip floor coverings or applications may be used for safety reasons.

6-201.12 Floors, Walls, and Ceilings, Utility Lines.
(A) Utility service lines and pipes may not be unnecessarily exposed.
(B) Exposed utility service lines and pipes shall be installed so they do not obstruct or prevent cleaning of the floors, walls, or ceilings.
(C) Exposed horizontal utility service lines and pipes may not be installed on the floor.

6-201.13 Floor and Wall Junctures, Coved, and Enclosed or Sealed.
(A) In food establishments in which cleaning methods other than water flushing are used for cleaning floors, the floor and wall junctures shall be coved and closed to no larger than 1 mm (one thirty-second inch).
(B) The floors in food establishments in which water flush cleaning methods are used shall be provided with drains and be graded to drain, and the floor and wall junctures shall be coved and sealed.

6-201.14 Floor Carpeting, Restrictions and Installation.
(A) A floor covering such as carpeting or similar material may not be installed as a floor covering in food preparation areas, walk-in refrigerators, warewashing areas, toilet room areas where handwashing lavatories, toilets, and urinals are located, refuse storage rooms, or other areas where the floor is subject to moisture, flushing, or spray cleaning methods.
(B) If carpeting is installed as a floor covering in areas other than those specified under ¶ (A) of this section, it shall be:
   (1) Securely attached to the floor with a durable mastic, by using a stretch and tack method, or by another method; and
   (2) Installed tightly against the wall under the coving or installed away from the wall with a space between the carpet and the wall and with the edges of the carpet secured by metal stripping or some other means.

6-201.15 Floor Covering, Mats and Duckboards.
Mats and duckboards shall be designed to be removable and easily cleanable.

6-201.16 Wall and Ceiling Coverings and Coatings.
(A) Wall and ceiling covering materials shall be attached so that they are easily cleanable.
(B) Except in areas used only for dry storage, concrete, porous blocks, or bricks used for indoor wall construction shall be finished and sealed to provide a smooth, nonabsorbent, easily cleanable surface.

6-201.17 Walls and Ceilings, Attachments.
(A) Except as specified in ¶ (B) of this section, attachments to walls and ceilings such as light fixtures, mechanical room ventilation system components, vent covers, wall mounted fans, decorative items, and other attachments shall be easily cleanable.
(B) In a consumer area, wall and ceiling surfaces and decorative items and attachments that are provided for ambiance need not meet this requirement if they are kept clean.

6-201.18 Walls and Ceilings, Studs, Joists, and Rafters.
Studs, joists, and rafters may not be exposed in areas subject to moisture. This requirement does not apply to temporary food establishments.

6-202.11 Light Bulbs, Protective Shielding.
(A) Except as specified in ¶ (B) of this section, light bulbs shall be shielded, coated, or otherwise shatter-resistant in areas where there is exposed food; clean equipment, utensils, and linens; or unwrapped single-service and single-use articles.
(B) Shielded, coated, or otherwise shatter-resistant bulbs need not be used in areas used only for storing food in unopened packages, if:
   (1) The integrity of the packages can not be affected by broken glass falling onto them; and
   (2) The packages are capable of being cleaned of debris from broken bulbs before the packages are opened.
(C) An infrared or other heat lamp shall be protected against breakage by a shield surrounding and extending beyond the bulb so that only the face of the bulb is exposed.

Heating, ventilating, and air conditioning systems shall be designed and installed so that make-up air intake and exhaust vents
do not cause contamination of food, food-contact surfaces, equipment, or utensils.

6-202.13 Insect Control Devices, Design and Installation.
(A) Insect control devices that are used to electrocute or stun flying insects shall be designed to retain the insect within the device.
(B) Insect control devices shall be installed so that:
   (1) The devices are not located over a food preparation area; and
   (2) Dead insects and insect fragments are prevented from being impelled onto or falling on exposed food; clean equipment, utensils, and linens; and unwrapped single-service and single-use articles.

6-202.14 Toilet Rooms, Enclosed.
A toilet room located on the premises shall be completely enclosed and provided with a tight-fitting and self-closing door except that this requirement does not apply to a toilet room that is located outside a food establishment and does not open directly into the food establishment such as a toilet room that is provided by the management of a shopping mall.

6-202.15 Outer Openings, Protected.
(A) Except as specified in ¶ (B), (C), and (E) and under ¶ (D) of this section, outer openings of a food establishment shall be protected against the entry of insects and rodents by:
   (1) Filling or closing holes and other gaps along floors, walls, and ceilings;
   (2) Closed, tight-fitting windows; and
   (3) Solid, self-closing, tight-fitting doors.
(B) Paragraph (A) of this section does not apply if a food establishment opens into a larger structure, such as a mall, airport, or office building, or into an attached structure, such as a porch, and the outer openings from the larger or attached structure are protected against the entry of insects and rodents.
(C) Exterior doors used as exits need not be self-closing if they are:
   (1) Solid and tight-fitting;
   (2) Designated for use only when an emergency exists, by the fire protection authority that has jurisdiction over the food establishment; and
   (3) Restricted so they are not used for entrance or exit from the building for purposes other than the designated emergency exit use.
(D) Except as specified in ¶ (B) and (E) of this section, if the windows or doors of a food establishment, or of a larger structure within which a food establishment is located, are kept open for ventilation or other purposes or a temporary food establishment is not provided with windows and doors as specified under ¶ (A) of this section, the openings shall be protected against the entry of insects and rodents by:
   (1) 16 mesh to 25.4mm (16 mesh to 1 inch) screens;
   (2) Properly designed and installed air curtains; or
   (3) Other effective means.
(E) Paragraph (D) of this section does not apply if flying insects and other pests are absent due to the location of the establishment, the weather, or other limiting condition.

6-202.16 Exterior Walls and Roofs, Protective Barrier.
Perimeter walls and roofs of a food establishment shall effectively protect the establishment from the weather and the entry of insects, rodents, and other animals.

6-202.17 Outdoor Food Vending Areas, Overhead Protection.
If located outside, a machine used to vend food shall be provided with overhead protection except that machines vending canned beverages need not meet this requirement.

6-202.18 Outdoor Servicing Areas, Overhead Protection.
Servicing areas shall be provided with overhead protection except that areas used only for the loading of water or the discharge of sewage and other liquid waste, through the use of a closed system of hoses, need not be provided with overhead protection.

6-202.19 Outdoor Walking and Driving Surfaces, Graded to Drain.
Exterior walking and driving surfaces shall be graded to drain if required by law and shall be maintained to prevent the accumulation of water.

6-202.110 Outdoor Refuse Areas, Drainage.
Outdoor refuse areas shall be constructed in accordance with law and shall be designed and maintained to prevent the accumulation of liquid waste that results from the refuse and from cleaning the area and waste receptacles.

**6-202.111  Private Homes and Living or Sleeping Quarters, Use Prohibition.**
A private home, a room used as living or sleeping quarters, or an area directly opening into a room used as living or sleeping quarters may not be used for conducting food establishment operations.

**6-202.112  Living or Sleeping Quarters, Separation.**
Living or sleeping quarters located on the premises of a food establishment such as those provided for lodging registration clerks or resident managers shall be separated from rooms and areas used for food establishment operations by complete partitioning and solid self-closing doors.

**6-301.10  Minimum Number.**
Handwashing facilities shall be provided as specified under § 5-203.11.

**6-301.11  Handwashing Cleanser, Availability.***
Each handwashing lavatory or group of 2 adjacent lavatories shall be provided with a supply of hand cleaning liquid, powder, or bar soap.

**6-301.12  Hand Drying Provision.***
Each handwashing lavatory or group of adjacent lavatories shall be provided with:
(A) Individual, disposable towels;
(B) A continuous towel system that supplies the user with a clean towel; or
(C) A heated-air hand drying device.

**6-301.13  Handwashing Aids and Devices, Use Restrictions.**
A sink used for food preparation or utensil washing, or a service sink or curbed cleaning facility used for the disposal of mop water or similar wastes, may not be provided with the handwashing aids and devices required for a handwashing lavatory as specified under §§ 6-301.11 and 6-301.12 and ¶ 5-501.16(C).

**6-301.14  Handwashing Signage.**
A sign or poster that notifies food employees to wash their hands shall be provided at all handwashing lavatories used by food employees and shall be clearly visible to food employees.

**6-301.20  Disposable Towels, Waste Receptacle.**
A handwashing lavatory or group of adjacent lavatories that is provided with disposable towels shall be provided with a waste receptacle as specified under ¶ 5-501.16(C).

**6-302.10  Minimum Number.**
Toilets and urinals shall be provided as specified under § 5-203.12.

**6-302.11  Toilet Tissue, Availability.**
A supply of toilet tissue shall be available at each toilet.

**6-303.11  Intensity.**
The light intensity shall be:
(A) At least 110 lux (10 foot candles) at a distance of 75 cm (30 inches) above the floor, in walk-in refrigeration units and dry food storage areas and in other areas and rooms during periods of cleaning;
(B) At least 220 lux (20 foot candles):
   (1) At a surface where food is provided for consumer self-service such as buffets and salad bars or where fresh produce or packaged foods are sold or offered for consumption;
   (2) Inside equipment such as reach-in and under-counter refrigerators;
   (3) At a distance of 75 cm (30 inches) above the floor in areas used for handwashing, warewashing, and equipment and utensil storage, and in toilet rooms; and
(C) At least 540 lux (50 foot candles) at a surface where a food employee is working with food or working with utensils or equipment such as knives, slicers, grinders, or saws where employee safety is a factor.

6-304.11  Mechanical.
If necessary to keep rooms free of excessive heat, steam, condensation, vapors, obnoxious odors, smoke, and fumes, mechanical ventilation of sufficient capacity shall be provided.

6-305.11  Designation.
(A) Dressing rooms or dressing areas shall be designated if employees routinely change their clothes in the establishment.
(B) Lockers or other suitable facilities shall be provided for the orderly storage of employees' clothing and other possessions.

6-306.10  Availability.
A service sink or curbed cleaning facility shall be provided as specified under § 5-203.13.

6-4  LOCATION AND PLACEMENT

Subparts  6-401 Handwashing Facilities
          6-402 Toilet Rooms
          6-403 Employee Accommodations
          6-404 Distressed Merchandise
          6-405 Refuse, Recyclables, and Returnables

6-401.10  Conveniently Located.
Handwashing facilities shall be conveniently located as specified under § 5-204.11.

6-402.11  Convenience and Accessibility.
(A) Except for ¶¶ (B), (C) (D) and (E) of this section, toilet rooms shall be conveniently located and accessible to employees during all hours of operation and shall be an integral part of the building.
(B) A food service establishment may be approved without an integral toilet room under the following conditions:
   (1) An integral toilet room is not required by law; and
   (2) A toilet room is located within 500 feet of the food establishment; and
   (3) A written agreement is in place that allows the use of the toilet room; or
   (4) The food service establishment is located in an outdoor mall or shopping center.
(C) Toilet facilities for the customer are required only in establishments constructed or extensively remodeled after May 11, 1974.
(D) Food establishments limited to drive-in or handout service are not required to provide toilet rooms facilities for the customer.
(E) For mobile food units:
   (1) On board toilet facilities are not applicable to most mobile food units. If the unit is not so equipped, then the mobile food unit must operate within one-quarter mile or a five-minute walk of an accessible restroom facility. Mobile food units that operate on a designated route, and which do not stop at a fixed location for more than two hours during the workday, shall be exempt from this rule.
   (2) Mobile food units that do not provide on board restroom facilities under section (1) of this rule must have restroom facilities that will be accessible to employees during all hours of operation. The restroom facilities must have a handwashing system that provides potable hot and cold running water and meets the requirements of OAR 333-150-0000 §§ 6-301.11, 6-301.12, 6-301.20 and 6-302.11. Employees may use a restroom located in a private home or a
Designated Areas.
(A) Areas designated for employees to eat, drink, and use tobacco shall be located so that food, equipment, linens, and single-service and single-use articles are protected from contamination.
(B) Lockers or other suitable facilities shall be located in a designated room or area where contamination of food, equipment, utensils, linens, and single-service and single-use articles can not occur.

Segregation and Location.
Products that are held by the permit holder for credit, redemption, or return to the distributor, such as damaged, spoiled, or recalled products, shall be segregated and held in designated areas that are separated from food, equipment, utensils, linens, and single-service and single-use articles.

Receptacles, Waste Handling Units, and Designated Storage Areas.
Units, receptacles, and areas designated for storage of refuse and recyclable and returnable containers shall be located as specified under § 5-501.19.

MAINTENANCE AND OPERATION

Subparts 6-501 Premises, Structures, Attachments, and Fixtures - Methods

Repairing.
The physical facilities shall be maintained in good repair.

Cleaning, Frequency and Restrictions.
(A) The physical facilities shall be cleaned as often as necessary to keep them clean.
(B) Cleaning shall be done during periods when the least amount of food is exposed such as after closing. This requirement does not apply to cleaning that is necessary due to a spill or other accident.

Cleaning Floors, Dustless Methods.
(A) Except as specified in ¶ (B) of this section, only dustless methods of cleaning shall be used, such as wet cleaning, vacuum cleaning, mopping with treated dust mops, or sweeping using a broom and dust-arresting compounds.
(B) Spills or drippage on floors that occur between normal floor cleaning times may be cleaned:
   (1) Without the use of dust-arresting compounds; and
   (2) In the case of liquid spills or dripping, with the use of a small amount of absorbent compound such as sawdust or diatomaceous earth applied immediately before spot cleaning.

Cleaning Ventilation Systems, Nuisance and Discharge Prohibition.
(A) Intake and exhaust air ducts shall be cleaned and filters changed so they are not a source of contamination by dust, dirt, and other materials.
(B) If vented to the outside, ventilation systems may not create a public health hazard or nuisance or unlawful discharge.

Cleaning Maintenance Tools, Preventing Contamination.*
Food preparation sinks, handwashing lavatories, and warewashing equipment may not be used for the cleaning of maintenance tools, the preparation or holding of maintenance materials, or the disposal of mop water and similar liquid wastes.

Drying Mops.
After use, mops shall be placed in a position that allows them to air-dry without soiling walls, equipment, or supplies.

Absorbent Materials on Floors, Use Limitation.
Except as specified in ¶ 6-501.13(B), sawdust, wood shavings, granular salt, baked clay, diatomaceous earth, or similar materials may not be used on floors.

Maintaining and Using Handwashing Facilities.
Handwashing facilities shall be kept clean, and maintained and used as specified under § 5-205.11.

6-501.19  Closing Toilet Room Doors.
Toilet room doors as specified under § 6-202.14 shall be kept closed except during cleaning and maintenance operations.

6-501.110  Using Dressing Rooms and Lockers.
(A) Dressing rooms shall be used by employees if the employees regularly change their clothes in the establishment.
(B) Lockers or other suitable facilities shall be used for the orderly storage of employee clothing and other possessions.

6-501.111  Controlling Pests.*
The presence of insects, rodents, and other pests shall be controlled to minimize their presence on the premises by:
(A) Routinely inspecting incoming shipments of food and supplies;N
(B) Routinely inspecting the premises for evidence of pests;N
(C) Using methods, if pests are found, such as trapping devices or other means of pest control as specified under §§ 7-202.12, 7-206.12, and 7-206.13; and
(D) Eliminating harborage conditions. N

6-501.112  Removing Dead or Trapped Birds, Insects, Rodents, and Other Pests.
Dead or trapped birds, insects, rodents, and other pests shall be removed from control devices and the premises at a frequency that prevents their accumulation, decomposition, or the attraction of pests.

6-501.113  Storing Maintenance Tools.
Maintenance tools such as brooms, mops, vacuum cleaners, and similar items shall be:
(A) Stored so they do not contaminate food, equipment, utensils, linens, and single-service and single-use articles; and
(B) Stored in an orderly manner that facilitates cleaning the area used for storing the maintenance tools.

6-501.114  Maintaining Premises, Unnecessary Items and Litter.
The premises shall be free of:
(A) Items that are unnecessary to the operation or maintenance of the establishment such as equipment that is nonfunctional or no longer used; and
(B) Litter.

6-501.115  Prohibiting Animals.*
(A) Except as specified in ¶ (B) and (C) of this section, live animals may not be allowed on the premises of a food establishment.
(B) Live animals may be allowed in the following situations if the contamination of food; clean equipment, utensils, and linens; and unwrapped single-service and single-use articles can not result:
(1) Edible fish or decorative fish in aquariums, shellfish or crustacea on ice or under refrigeration, and shellfish and crustacea in display tank systems;
(2) Patrol dogs accompanying police or security officers in offices and dining, sales, and storage areas, and sentry dogs running loose in outside fenced areas;
(3) In areas that are not used for food preparation and that are usually open for customers, such as dining and sales areas, service animals that are controlled by the disabled employee or person, if a health or safety hazard will not result from the presence or activities of the service animal;
(4) Pets in the common dining areas of group residences at times other than during meals if:
   (a) Effective partitioning and self-closing doors separate the common dining areas from food storage or food preparation areas,
   (b) Condiments, equipment, and utensils are stored in enclosed cabinets or removed from the common dining areas when pets are present, and
   (c) Dining areas including tables, countertops, and similar surfaces are effectively cleaned before the next meal service; and
(5) In areas that are not used for food preparation, storage, sales, display, or dining, in which there are caged animals or animals that are similarly restricted, such as in a variety store that sells pets or a tourist park that displays animals.
(C) Live or dead fish bait may be stored if contamination of food; clean equipment, utensils, and linens; and unwrapped single-service and single-use articles cannot result.

Poisonous or Toxic Materials

Parts
7-1 LABELING AND IDENTIFICATION
7-2 OPERATIONAL SUPPLIES AND APPLICATIONS
7-3 STOCK AND RETAIL SALE

7-1 LABELING AND IDENTIFICATION
Subparts  7-101 Original Containers
          7-102 Working Containers

7-101.11 Identifying Information, Prominence. Containers of poisonous or toxic materials and personal care items shall bear a legible manufacturer's label.

7-102.11 Common Name.* Working containers used for storing poisonous or toxic materials such as cleaners and sanitizers taken from bulk supplies shall be clearly and individually identified with the common name of the material.

7-2 OPERATIONAL SUPPLIES AND APPLICATIONS
Subparts  7-201 Storage
          7-202 Presence and Use
          7-203 Container Prohibitions
          7-204 Chemicals
          7-205 Lubricants
          7-206 Pesticides
          7-207 Medicines
          7-208 First Aid Supplies
          7-209 Other Personal Care Items

7-201.11 Separation.* Poisonous or toxic materials shall be stored so they cannot contaminate food, equipment, utensils, linens, and single-service and single-use articles by:
(A) Separating the poisonous or toxic materials by spacing or partitioning and
(B) Locating the poisonous or toxic materials in an area that is not above food, equipment, utensils, linens, and single-service or single-use articles. This paragraph does not apply to equipment and utensil cleaners and sanitizers that are stored in warewashing areas for availability and convenience if the materials are stored to prevent contamination of food, equipment, utensils, linens, and single-service and single-use articles.
7-202.11  Restriction.*
(A) Only those poisonous or toxic materials that are required for the operation and maintenance of a food establishment, such as for the cleaning and sanitizing of equipment and utensils and the control of insects and rodents, shall be allowed in a food establishment.8
(B) (A) of this section does not apply to packaged poisonous or toxic materials that are for retail sale.

7-202.12  Conditions of Use.*
Poisonous or toxic materials shall be:
(A) Used according to:
(1) Law and this Code,
(2) Manufacturer's use directions included in labeling, and, for a pesticide, manufacturer's label instructions that state that use is allowed in a food establishment,
(3) The conditions of certification, if certification is required, for use of the pest control materials, and
(4) Additional conditions that may be established by the regulatory authority; and
(B) Applied so that:
(1) A hazard to employees or other persons is not constituted, and
(2) Contamination including toxic residues due to drip, drain, fog, splash or spray on food, equipment, utensils, linens, and single-service and single-use articles is prevented, and for a restricted-use pesticide, this is achieved by:
   (a) Removing the items,
   (b) Covering the items with impermeable covers, or
   (c) Taking other appropriate preventive actions, and
   (d) Cleaning and sanitizing equipment and utensils after the application.
(C) A restricted use pesticide shall be applied only by an applicator certified as defined in 7 USC 136(e) Certified Applicator, of the Federal Insecticide, Fungicide and Rodenticide Act, or a person under the direct supervision of a certified applicator.

7-203.11  Poisonous or Toxic Material Containers.*
A container previously used to store poisonous or toxic materials may not be used to store, transport, or dispense food.

7-204.11  Sanitizers, Criteria.*
Chemical sanitizers and other chemical antimicrobials applied to food-contact surfaces shall meet the requirements specified in 21 CFR 178.1010 sanitizing solutions.

7-204.12  Chemicals for Washing Fruits and Vegetables, Criteria.*
Chemicals used to wash or peel raw, whole fruits and vegetables shall meet the requirements specified in 21 CFR 173.315 Chemicals used in washing or to assist in the lye peeling of fruits and vegetables.

7-204.13  Boiler Water Additives, Criteria.*
Chemicals used as boiler water additives shall meet the requirements specified in 21 CFR 173.310 Boiler Water Additives.

7-204.14  Drying Agents, Criteria.*
Drying agents used in conjunction with sanitization shall:
(A) Contain only components that are listed as one of the following:
   (1) Generally recognized as safe for use in food as specified in 21 CFR 182 - Substances Generally Recognized as Safe, or 21 CFR 184 - Direct Food Substances Affirmed as Generally Recognized as Safe,
   (2) Generally recognized as safe for the intended use as specified in 21 CFR 186 - Indirect Food Substances Affirmed as Generally Recognized as Safe,
   (3) Approved for use as a drying agent under a prior sanction specified in 21 CFR 181 - Prior-Sanctioned Food Ingredients,
   (4) Specifically regulated as an indirect food additive for use as a drying agent as specified in 21 CFR Parts 175-178, or
   (5) Approved for use as a drying agent under the threshold of regulation process established by 21 CFR 170.39 Threshold of regulation for substances used in food-contact articles; and
(B) When sanitization is with chemicals, the approval required under Subparagraph (A)(3) or (A)(5) of this section or the regulation as an indirect food additive required under Subparagraph (A)(4) of this section, shall be specifically for use with chemical sanitizing solutions.

7-205.11 Incidental Food Contact, Criteria.*
Lubricants shall meet the requirements specified in 21 CFR 178.3570 Lubricants with incidental food contact, if they are used on food-contact surfaces, on bearings and gears located on or within food-contact surfaces, or on bearings and gears that are located so that lubricants may leak, drip, or be forced into food or onto food-contact surfaces.

7-206.11 Restricted Use Pesticides, Criteria.*
Restricted use pesticides specified under ¶ 7-202.12(C) shall meet the requirements specified in 40 CFR 152 Subpart I - Classification of Pesticides.

7-206.12 Rodent Bait Stations.*
Rodent bait shall be contained in a covered, tamper-resistant bait station.

7-206.13 Tracking Powders, Pest Control and Monitoring.*
(A) A tracking powder pesticide may not be used in a food establishment.
(B) If used, a nontoxic tracking powder such as talcum or flour may not contaminate food, equipment, utensils, linens, and single-service and single-use articles.

7-207.11 Restriction and Storage.*
(A) Only those medicines that are necessary for the health of employees shall be allowed in a food establishment. This section does not apply to medicines that are stored or displayed for retail sale.
(B) Medicines that are in a food establishment for the employees' use shall be labeled as specified under § 7-101.11 and located to prevent the contamination of food, equipment, utensils, linens, and single-service and single-use articles.

7-207.12 Refrigerated Medicines, Storage.*
Medicines belonging to employees or to children in a day care center that require refrigeration and are stored in a food refrigerator shall be:
(A) Stored in a package or container and kept inside a covered, leakproof container that is identified as a container for the storage of medicines; and
(B) Located so they are inaccessible to children.

7-208.11 Storage.*
First aid supplies that are in a food establishment for the employees' use shall be:
(A) Labeled as specified under § 7-101.11, and
(B) Stored in a kit or a container that is located to prevent the contamination of food, equipment, utensils, and linens, and single-service and single-use articles.

7-209.11 Storage.
Except as specified under §§ 7-207.12 and 7-208.11, employees shall store their personal care items in facilities as specified under ¶ 6-305.11(B).
7-3 STOCK AND RETAIL SALE

Subpart 7-301 Storage and Display

7-301.11 Separation.*
Poisonous or toxic materials shall be stored and displayed for retail sale so they can not contaminate food, equipment, utensils, linens, and single-service and single-use articles by:
(A) Separating the poisonous or toxic materials by spacing or partitioning; and
(B) Locating the poisonous or toxic materials in an area that is not above food, equipment, utensils, linens, and single-service or single-use articles.
Chapter 8
Compliance and Enforcement

Parts
8-1 CODE APPLICABILITY
8-2 PLAN SUBMISSION AND APPROVAL

8-7 NOTICES
8-8 REMEDIES

8-1 CODE APPLICABILITY

Subparts 8-101 Use for Intended Purpose
8-102 Additional Requirements
8-103 Variances

8-101.10 Public Health Protection.
(A) The regulatory authority shall apply this Code to promote its underlying purpose, as specified in § 1-102.10, of safeguarding public health and ensuring that food is safe, unadulterated, and honestly presented when offered to the consumer.
(B) In enforcing the provisions of this Code, the regulatory authority shall assess existing facilities or equipment that were in use before the effective date of this Code based on the following considerations:
   (1) Whether the facilities or equipment are in good repair and capable of being maintained in a sanitary condition;
   (2) Whether food-contact surfaces comply with Subpart 4-101;
   (3) Whether the capacities of cooling, heating, and holding equipment are sufficient to comply with § 4-301.11; and
   (4) The existence of a documented agreement with the permit holder that the facilities or equipment will be replaced as specified under § 8-304.11(G) or upgraded or replaced as specified under § 8-304.11(H).
(C) Plans submitted shall be reviewed and commented on by a sanitarian registered in accordance with ORS 700.

8-102.10 Preventing Health Hazards, Provision for Conditions Not Addressed.
(A) If necessary to protect against public health hazards or nuisances, the regulatory authority may impose specific requirements in addition to the requirements contained in this Code that are authorized by law.
(B) The regulatory authority shall document the conditions that necessitate the imposition of additional requirements and the underlying public health rationale. The documentation shall be provided to the permit applicant or permit holder and a copy shall be maintained in the regulatory authority's file for the food establishment.

8-103.10 Modifications and Waivers.
(A) The Department may grant a variance from requirements of this Code as follows:
   (1) Where it is demonstrated to the satisfaction of the Department that strict compliance with the rule would be highly burdensome or impractical due to special condition or cause;
   (2) Where the public or private interest in the granting of the variance is found by the Department to clearly outweigh the interest of the application of uniform rules; and
   (3) Where such alternative measures are provided which in the opinion of the Department will provide adequate public health and safety protection.
(B) Such variance authority is not conferred upon any Local Public Health Authority notwithstanding contractual authority in administration and enforcement of the food service statutes and rules;
(C) The applicant must include all necessary information to support the variance request, which may include, but is not limited to, required testing, challenge data and research results;
(D) If a variance is granted, the regulatory authority shall retain the information specified under § 8-103.11 in its records for the food establishment;
(E) The Department will review variances at least triennially;
(F) Revocation or denial of the variance request shall be subject to the appeal process provided under ORS 183.

8-103.11 Documentation of Proposed Variance and Justification.
Before a variance from a requirement of this Code is approved, the information that shall be provided by the person requesting the variance and retained in the regulatory authority's file on the food establishment includes:
(A) A statement of the proposed variance of the Code requirement citing relevant Code section numbers;
(B) An analysis of the rationale for how the potential public health hazards and nuisances addressed by the relevant Code sections will be alternatively addressed by the proposal; and
(C) A HACCP plan if required as specified under ¶ 8-201.13(A) that includes the information specified under § 8-201.14 as it is relevant to the variance requested.

8-103.12 Conformance with Approved Procedures.*
If the regulatory authority grants a variance as specified in § 8-103.10, or a HACCP plan is otherwise required as specified under § 8-201.13, the permit holder shall:
(A) Comply with the HACCP plans and procedures that are submitted as specified under § 8-201.14 and approved as a basis for the modification or waiver; and
(B) Maintain and provide to the regulatory authority, upon request, records specified under ¶¶ 8-201.14(D) and (E) that demonstrate that the following are routinely employed;
   (1) Procedures for monitoring critical control points,
   (2) Monitoring of the critical control points,
   (3) Verification of the effectiveness of an operation or process, and
   (4) Necessary corrective actions if there is failure at a critical control point.

8-2 PLAN SUBMISSION AND APPROVAL

Subparts 8-201 Facility and Operating Plans
8-202 Confidentiality
8-203 Construction Inspection and Approval

8-201.11 When Plans Are Required.
A permit applicant or permit holder shall submit to the regulatory authority properly prepared plans and specifications for review and approval before:
(A) The construction of a food establishment;
(B) The conversion of an existing structure for use as a food establishment; or
(C) The remodeling of a food establishment or a change of type of food establishment or food operation as specified under ¶ 8-302.14(C) if the regulatory authority determines that plans and specifications are necessary to ensure compliance with this Code.

8-201.12 Contents of the Plans and Specifications.
The plans and specifications for a food establishment, including a food establishment specified under § 8-201.13, shall include, as required by the regulatory authority based on the type of operation, type of food preparation, and foods prepared, the following information to demonstrate conformance with Code provisions:
(A) Intended menu;
(B) Anticipated volume of food to be stored, prepared, and sold or served;
(C) Proposed layout, mechanical schematics, construction materials, and finish schedules;
(D) Proposed equipment types, manufacturers, model numbers, locations, dimensions, performance capacities, and installation specifications;
(E) Evidence that standard procedures that ensure compliance with the requirements of this Code are developed or are being developed; and
(F) Other information that may be required by the regulatory authority for the proper review of the proposed construction, conversion or modification, and procedures for operating a food establishment.

8-201.13 When a HACCP Plan is Required.
(A) Before engaging in an activity that requires a HACCP plan, a permit applicant or permit holder shall submit to the regulatory authority for approval a properly prepared HACCP plan as specified under § 8-201.14 and the relevant provisions of this Code if:
   (1) Submission of a HACCP plan is required according to law;
   (2) A variance is required as specified under § 3-502.11, ¶ 4-204.110(B), or Subparagraphs 3-203.12(B)(2)(b); or
   (3) The regulatory authority determines that a food preparation or processing method requires a variance based on a plan submittal specified under § 8-201.12, an inspectional finding, or a variance request.
(B) A permit applicant or permit holder shall have a properly prepared HACCP plan as specified under § 3-502.12.

8-201.14 Contents of a HACCP Plan.
For a food establishment that is required under § 8-201.13 to have a HACCP plan, the plan and specifications shall indicate:
(A) A categorization of the types of potentially hazardous foods that are specified in the menu such as soups and sauces, salads, and bulk, solid foods such as meat roasts, or of other foods that are specified by the regulatory authority;
(B) A flow diagram by specific food or category type identifying critical control points and providing information on the following:
   (1) Ingredients, materials, and equipment used in the preparation of that food, and
   (2) Formulations or recipes that delineate methods and procedural control measures that address the food safety concerns involved;
(C) Food employee and supervisory training plan that addresses the food safety issues of concern;
(D) A statement of standard operating procedures for the plan under consideration including clearly identifying:
   (1) Each critical control point,
   (2) The critical limits for each critical control point,
   (3) The method and frequency for monitoring and controlling each critical control point by the food employee designated by the person in charge,
   (4) The method and frequency for the person in charge to routinely verify that the food employee is following standard operating procedures and monitoring critical control points,
   (5) Action to be taken by the person in charge if the critical limits for each critical control point are not met, and
   (6) Records to be maintained by the person in charge to demonstrate that the HACCP plan is properly operated and managed; and
(E) Additional scientific data or other information, as required by the regulatory authority, supporting the determination that food safety is not compromised by the proposal.

8-202.10 Trade Secrets.
The regulatory authority shall treat as confidential in accordance with law, information that meets the criteria specified in law for a trade secret and is contained on inspection report forms and in the plans and specifications submitted as specified under §§ 8-201.12 and 8-201.14.

8-203.10 Preoperational Inspections.
The regulatory authority shall conduct one or more preoperational inspections to verify that the food establishment is constructed and equipped in accordance with the approved plans and approved modifications of those plans, has established standard operating procedures as specified under ¶ 8-201.12(E), and is in compliance with law and this Code.
8-3 PERMIT TO OPERATE

Subparts
8-301 Requirement
8-302 Application Procedure
8-303 Issuance
8-304 Conditions of Retention

8-301.11 Prerequisite for Operation.
A person may not operate a food establishment without a valid permit to operate issued by the regulatory authority.

8-302.11 Submission 30 Calendar Days Before Proposed Opening.
[Deleted]

8-302.12 Form of Submission.
A person desiring to operate a food establishment shall submit to the regulatory authority a written application for a permit on a form provided by the regulatory authority.

8-302.13 Qualifications and Responsibilities of Applicants.
To qualify for a permit, an applicant shall:
(A) Be an owner of the food establishment or an officer of the legal ownership;
(B) Comply with the requirements of this Code;
(C) As specified under § 8-402.11, agree to allow access to the food establishment and to provide required information; and
(D) Pay the applicable permit fees at the time the application is submitted.

8-302.14 Contents of the Application.
The application shall include:
(A) The name, mailing address, telephone number, and signature of the person applying for the permit and the name, mailing address, and location of the food establishment;
(B) Information specifying whether the food establishment is owned by an association, corporation, individual, partnership, or other legal entity;
(C) A statement specifying whether the food establishment:
   (1) Is mobile or stationary and temporary or permanent, and
   (2) Is an operation that includes one or more of the following:
      (a) Prepares, offers for sale, or serves potentially hazardous food:
         (i) Only to order upon a consumer's request,
         (ii) In advance in quantities based on projected consumer demand and discards food that is not sold or served at an approved frequency, or
         (iii) Using time as the public health control as specified under § 3-501.19,
      (b) Prepares potentially hazardous food in advance using a food preparation method that involves two or more steps which may include combining potentially hazardous ingredients; cooking; cooling; reheating; hot or cold holding; freezing; or thawing;
      (c) Prepares food as specified under Subparagraph (C)(2)(b) of this section for delivery to and consumption at a location off the premises of the food establishment where it is prepared,
      (d) Prepares food as specified under Subparagraph (C)(2)(b) of this section for service to a highly susceptible population,
      (e) Prepares only food that is not potentially hazardous, or
      (f) Does not prepare, but offers for sale only prepackaged food that is not potentially hazardous;
(D) The name, title, address, and telephone number of the person directly responsible for the food establishment;
(E) [Deleted]
The names, titles, and addresses of:
  (1) The persons comprising the legal ownership as specified under ¶ (B) of this section including the owners and officers, and
  (2) The local resident agent if one is required based on the type of legal ownership;

A statement signed by the applicant that:
  (1) Attests to the accuracy of the information provided in the application, and
  (2) Affirms that the applicant will:
      (a) Comply with this Code, and
      (b) Allow the regulatory authority access to the establishment as specified under § 8-402.11 and to the records specified under §§ 3-203.12 and 5-205.13 and Subparagraph 8-201.14(D)(6); and

Other information required by the regulatory authority.

8-303.10 New, Converted, or Remodeled Establishments.
For food establishments that are required to submit plans as specified under § 8-201.11 the regulatory authority shall issue a permit to the applicant after:
(A) A properly completed application is submitted;
(B) The required fee is submitted;
(C) The required plans, specifications, and information are reviewed and approved; and
(D) A preoperational inspection as specified in § 8-203.10 shows that the establishment is built or remodeled in accordance with the approved plans and specifications and that the establishment is in compliance with this Code.

8-303.20 Existing Establishments, Permit Renewal, and Change of Ownership.
The regulatory authority may renew a permit for an existing food establishment or may issue a permit to a new owner of an existing food establishment after a properly completed application is submitted, reviewed, and approved, the fees are paid, and an inspection shows that the establishment is in compliance with this Code.

8-303.30 Denial of Application for Permit, Notice.
If an application for a permit to operate is denied, the regulatory authority shall provide the applicant with a notice that includes:
(A) The specific reasons and Code citations for the permit denial;
(B) The actions, if any, that the applicant must take to qualify for a permit; and
(C) Advisement of the applicant's right of appeal and the process and time frames for appeal that are provided under ORS 183.

8-304.10 Responsibilities of the Regulatory Authority.
(A) At the time a permit is first issued, the regulatory authority shall provide to the permit holder a copy of this Code so that the permit holder is notified of the compliance requirements and the conditions of retention, as specified under § 8-304.11, that are applicable to the permit.
(B) Failure to provide the information specified in ¶ (A) of this section does not prevent the regulatory authority from taking authorized action or seeking remedies if the permit holder fails to comply with this Code or an order, warning, or directive of the regulatory authority.

8-304.11 Responsibilities of the Permit Holder.
Upon acceptance of the permit issued by the regulatory authority, the permit holder in order to retain the permit shall:
(A) Post the permit in a location in the food establishment that is conspicuous to consumers;
(B) Comply with the provisions of this Code including the conditions of a granted variance as specified under § 8-103.12, and approved plans as specified under § 8-201.12;
(C) If a food establishment is required under § 8-201.13 to operate under a HACCP plan, comply with the plan as specified under § 8-103.12;
(D) Immediately contact the regulatory authority to report an illness of an employee as specified under § 2-201.15;
(E) Immediately discontinue operations and notify the regulatory authority if an imminent health hazard may exist as specified under § 8-404.11;
(F) Allow representatives of the regulatory authority access to the food establishment as specified under § 8-402.11;
(G) Except as specified under ¶ (H) of this section, replace existing facilities and equipment specified in § 8-101.10 with facilities and equipment that comply with this Code if:
   (1) The regulatory authority directs the replacement because the facilities and equipment constitute a public health hazard or nuisance or no longer comply with the criteria upon which the facilities and equipment were accepted,
   (2) The regulatory authority directs the replacement to meet current code requirements after the food establishment has been closed for a minimum of 12 consecutive months, or
   (3) The facilities and equipment are replaced in the normal course of operation;
(H) Upgrade or replace refrigeration equipment if the circumstances specified under Subparagraphs (G)(1)-(3) of this section do not occur first, or by no later than the time specified under ¶ 3-501.16(C);
(I) Comply with directives of the regulatory authority including time frames for corrective actions specified in inspection reports, notices, orders, warnings, and other directives issued by the regulatory authority in regard to the permit holder's food establishment or in response to community emergencies;
(J) Accept notices issued and served by the regulatory authority as may be authorized under ORS 183 and 624; and
(K) Be subject to the administrative, civil, injunctive, and criminal remedies as may be authorized under ORS 183 and 624.

8-304.20  Permits Not Transferable.
A permit may not be transferred from one person to another person, from one food establishment to another, or from one type of operation to another if the food operation changes from the type of operation specified in the application as specified under ¶ 8-302.14(C) and the change in operation is not approved.

8-4  INSPECTION AND CORRECTION OF VIOLATIONS

Subparts    8-401  Frequency
            8-402  Access
            8-403  Report of Findings
            8-404  Imminent Health Hazard
            8-405  Critical Violation

8-401.10  Establishing Inspection Interval.
(A) Except as specified in ¶(B) and (C) of this section, the regulatory authority shall inspect a food establishment at least once every 6 months.
(B) [Deleted]
(C) For temporary food establishments:
   (1) Except for Subparagraph (C)(2) of this section, the regulatory authority shall inspect at least once during the operation of a temporary food establishment.
   (2) For benevolent temporary food establishments, the regulatory authority shall either:
       (a) Inspect, or
       (b) Provide a consultation.

8-401.20  Performance- and Risk-Based.  [Deleted]

8-402.11  Allowed at Reasonable Times after Due Notice.
After the regulatory authority presents official credentials and provides notice of the purpose of, and an intent to conduct, an inspection, the person in charge shall allow the regulatory authority to determine if the food establishment is in compliance with this Code by allowing access to the establishment, allowing inspection, and providing information and records specified in this Code and to which the regulatory authority is entitled according to law, during the food establishment's hours of operation and other reasonable times.
8-402.20 Refusal, Notification of Right to Access, and Final Request for Access.
If a person denies access to the regulatory authority, the regulatory authority shall:
(A) Inform the person that:
   (1) The permit holder is required to allow access to the regulatory authority as specified under § 8-402.11 of this Code,
   (2) Access is a condition of the acceptance and retention of a food establishment permit to operate as specified under ¶ 8-304.11(F), and
(B) Make a final request for access.

8-402.30 Refusal, Reporting.
If after the regulatory authority presents credentials and provides notice as specified under § 8-402.11, explains the authority upon which access is requested, and makes a final request for access as specified in § 8-402.20, the person in charge continues to refuse access, the regulatory authority shall provide details of the denial of access on an inspection report form.

8-402.40 Inspection Order to Gain Access.
[Deleted]

8-403.10 Documenting Information and Observations.
The regulatory authority shall document on an inspection report form:
(A) Administrative information about the food establishment's legal identity, street and mailing addresses, type of establishment and operation as specified under ¶ 8-302.14(C), inspection date, and employee food safety cards; and
(B) Specific factual observations of violative conditions or other deviations from this Code that require correction by the permit holder including:
   (1) Failure of the person in charge to demonstrate the knowledge of foodborne illness prevention, application of HACCP principles, and the requirements of this Code specified under § 2-102.11,
   (2) Failure of food employees and the person in charge to demonstrate their knowledge of their responsibility to report a disease or medical condition as specified under §§ 2-201.14 and 2-201.15,
   (3) Nonconformance with critical items of this Code,
   (4) Failure of the appropriate food employees to demonstrate their knowledge of, and ability to perform in accordance with, the procedural, monitoring, verification, and corrective action practices required by the regulatory authority as specified under § 8-103.12,
   (5) Failure of the person in charge to provide records required by the regulatory authority for determining conformance with a HACCP plan as specified under Subparagraph 8-201.14(D)(6), and
   (6) Nonconformance with critical limits of a HACCP plan.

8-403.20 Specifying Time Frame for Corrections.
The regulatory authority shall specify on the inspection report form the time frame for correction of the violations as specified under §§ 8-404.11, and 8-405.11.

8-403.30 Issuing Report and Obtaining Acknowledgment of Receipt.
At the conclusion of the inspection and according to law, the regulatory authority shall provide a copy of the completed inspection report and the notice to correct violations to the permit holder or to the person in charge, and request a signed acknowledgment of receipt.

8-403.40 Refusal to Sign Acknowledgment.
The regulatory authority shall:
(A) Inform a person who declines to sign an acknowledgment of receipt of inspectional findings as specified in § 8-403.30 that:
   (1) An acknowledgment of receipt is not an agreement with findings,
   (2) Refusal to sign an acknowledgment of receipt will not affect the permit holder's obligation to correct the violations noted in the inspection report within the time frames specified, and
   (3) A refusal to sign an acknowledgment of receipt is noted in the inspection report and conveyed to the regulatory authority's historical record for the food establishment; and
(B) Make a final request that the person in charge sign an acknowledgment receipt of inspectional findings.

8-403.50 Public Information.
Except as specified in § 8-202.10, the regulatory authority shall treat the inspection report as a public document and shall
8-404.11   **Ceasing Operations and Reporting.**
(A) Except as specified in ¶ (B) of this section, a permit holder shall immediately discontinue operations and notify the regulatory authority if an imminent health hazard may exist because of an emergency such as a fire, flood, extended interruption of electrical or water service, sewage backup, misuse of poisonous or toxic materials, onset of an apparent foodborne illness outbreak, gross insanitary occurrence or condition, or other circumstance that may endanger public health.
(B) A permit holder need not discontinue operations in an area of an establishment that is unaffected by the imminent health hazard.

8-404.12   **Resumption of Operations.**
If operations are discontinued as specified under § 8-404.11 or otherwise according to law, the permit holder shall obtain approval from the regulatory authority before resuming operations.

8-405.11   **Timely Correction.**
(A) Except as specified in ¶ (B) of this section, a permit holder shall at the time of inspection correct a critical violation of this Code and implement corrective actions for a HACCP plan provision that is not in compliance with its critical limit.
(B) Considering the nature of the potential hazard involved and the complexity of the corrective action needed, the regulatory authority may agree to or specify a longer time frame, not to exceed 14 calendar days after the inspection, for the permit holder to correct critical Code violations or HACCP plan deviations.

8-405.20   **Verification and Documentation of Correction.**
(A) After observing at the time of inspection a correction of a critical violation or deviation, the regulatory authority shall enter the violation and information about the corrective action on the inspection report.
(B) As specified under ¶ 8-405.11(B), after receiving notification that the permit holder has corrected a critical violation or HACCP plan deviation, or at the end of the specified period of time, the regulatory authority shall verify correction of the violation, document the information on an inspection report, and enter the report in the regulatory authority's records.

8-406.11   **Time Frame for Correction.** [Deleted]

---

8-5   **PREVENTION OF FOODBORNE DISEASE TRANSMISSION BY EMPLOYEES**

**Subpart 8-501 Investigation and Control**

8-501.10   **Obtaining Information: Personal History of Illness, Medical Examination, and Specimen Analysis.**
The regulatory authority shall act when it has reasonable cause to believe that a food employee has possibly transmitted disease; may be infected with a disease in a communicable form that is transmissible through food; may be a carrier of infectious agents that cause a disease that is transmissible through food; or is affected with a boil, an infected wound, or acute respiratory infection, by:
(A) Securing a confidential medical history of the employee suspected of transmitting disease or making other investigations as deemed appropriate; and
(B) Requiring appropriate medical examinations, including collection of specimens for laboratory analysis, of a suspected employee and other employees.
8-501.20  **Restriction or Exclusion of Food Employee, or Summary Suspension of Permit.**
Based on the findings of an investigation related to a food employee who is suspected of being infected or diseased, the regulatory authority may issue an order to the suspected food employee or permit holder instituting one or more of the following control measures:
(A) Restricting the food employee's services to specific areas and tasks in a food establishment that present no risk of transmitting the disease;
(B) Excluding the food employee from a food establishment; or
(C) Closing the food establishment by summarily suspending a permit to operate as may be provided under ORS 624.

8-501.30  **Restriction or Exclusion Order: Warning or Hearing Not Required, Information Required in Order.**
Based on the findings of the investigation as specified in § 8-501.10 and to control disease transmission, the regulatory authority may issue an order of restriction or exclusion to a suspected food employee or the permit holder without prior warning, notice of a hearing, or a hearing if the order:
(A) States the reasons for the restriction or exclusion that is ordered;
(B) States the evidence that the food employee or permit holder shall provide in order to demonstrate that the reasons for the restriction or exclusion are eliminated;
(C) States that the suspected food employee or the permit holder may request an appeal hearing by submitting a timely request as provided under ORS 183; and
(D) Provides the name and address of the regulatory authority representative to whom a request for an appeal hearing may be made.
333-157-0000 Inspection Form Procedures

(1) (a) Violations which are observed during any sanitation inspection shall be described in the space provided on a form approved by the Department by: Citing the number of the related item on the Inspection Form, point value associated with the item including penalty additions, Oregon Administrative Rule/Oregon Revised Statute number violated; and by giving a brief statement of the specific problem and required corrections;

(b) One (1) point items shall be given an additional one (1) point weight when a Repeat Violation is observed. Two (2) point items shall be given an additional two (2) point weight when a Repeat Violation is observed. Four (4) point items shall be given an additional four (4) point weight when a Repeat Violation is observed. Five (5) point items shall be given an additional five (5) point weight when a Repeat Violation is observed. Additional points shall accumulate and be added to the value of uncorrected items which are repeat violations. Each one (1) point item can accumulate to two (2) points. Each two (2) point item can accumulate to four (4) points. Each four (4) point item can accumulate to eight (8) points. Each five (5) point item can accumulate to ten (10) points.

(2) Critical Violations Creating a Potential Danger to Public Health shall be recorded as in section (1) of this rule and shall specify:

(a) Any alternative procedure as may be approved, the time limit for its use, and that the alternative procedure must be implemented immediately; and

(b) The corrections to be made and the time limit by which the corrections shall be made. In the case where an alternative procedure has not been approved, the time limit by which the correction must be made shall be within but not to exceed 14 days.

(3) Critical Violations Creating an Imminent or Present Danger to Public Health shall be recorded as required in sections (1) and (2) of this rule except when no alternative procedure is approved, the correction shall be required immediately.

(4) If a restaurant obtains a sanitation score of less than 70 upon an unannounced Complete Inspection, the operator or person in charge shall be notified by a statement on the Inspection Form that the restaurant will be closed, if the score of another Complete Inspection conducted within 30 days is not 70 or above.

(5) Critical Violations Creating a Significantly Increased Risk for Food Borne Illness shall require a Recheck Inspection if found on consecutive Complete Inspections, and for the purposes of enforcement shall be considered uncorrected.

(6) If a restaurant is ordered Closed, the Closure Order as designated by the Department shall be attached to the Inspection Form and delivered to the operator or person in charge.

333-157-0010 Approved Alternative Procedures

(1) An alternative procedure may be approved on a temporary basis for a designated time period, if in the judgment of the Environmental Health Specialist the procedure provides interim health and safety protection equal to that provided by the rule. The Environmental Health Specialist may extend the designated time period if justified by unforeseen circumstances. Such an alternative procedure shall not authorize or condone any Critical Violation.

(2) All alternative procedures which have been approved shall be implemented immediately.

333-157-0020 Public Notice of Restaurant Sanitation

(1) The notice of restaurant sanitation shall be based upon the sanitation score calculated on the Inspection Form at the end of
each unannounced Complete Inspection and shall be posted at a customary entrance to the establishment. If, upon Recheck Inspection, any critical violation listed on the Inspection Form is not corrected within the designated time limit, the notice of restaurant sanitation posted at the end of the unannounced Complete Inspection shall be removed, the Notice of Closure posted, and Closure action taken.

(2) A notice of restaurant sanitation which states that the establishment "Complied with the Acceptable Sanitation Standards" shall be assigned to a restaurant which obtains a sanitation score of 70 or more in an unannounced Complete Inspection provided all critical violations have been corrected or remedied by approved alternative procedures. Upon Recheck Inspection, any uncorrected Critical Violation shall cause the notice of restaurant sanitation to be removed, the notice of Closure to be posted, and Closure action taken.

(3) A notice of restaurant sanitation which states that the establishment "Failed to Comply with the Acceptable Sanitation Standards" shall be assigned to a restaurant which obtains a sanitation score of less than 70 in an unannounced Complete Inspection provided all Critical Violations have been corrected or remedied by approved alternative procedures. Such a notice of restaurant sanitation shall remain until the facility is closed or until a sanitation score of 70 or more is obtained upon another inspection conducted within 30 days.

333-157-0025 Communication and Compliance Protocols

Communication and compliance protocols will be provided by the Assistant Director to operators of non-complying food service facilities. This communication will convey current and potential compliance actions, and will include the appropriate use of correspondence, meetings, and officials notices.

333-157-0027 Increased Inspection Schedule

(1) Any restaurant that fails to obtain a minimum acceptable sanitation score of 70 or more for two consecutive, unannounced semi-annual inspections shall be subject to an increased inspection schedule.

(2) Except as provided in section (4) of this rule, this schedule will consist of one complete unannounced inspection a quarter (three month period) as well as any re-check inspections required. This inspection schedule shall begin in the quarter immediately following the second consecutive score of less than 70.

(3) The increased inspection schedule will revert to semi-annual inspections after the facility has obtained four (4) consecutive scores of 70 or above.

(4) At the Assistant Director's option, one of the four required inspections may be an inspection using Hazard Analysis and Critical Control Point (HACCP) principles, as defined in these rules. HACCP based inspections may be announced. Participation by a restaurant in a HACCP-based inspection shall be the equivalent of a score of 70 or above for the purposes of this rule.

(5) The inspecting agency may assess a fee for each quarterly inspection required under this rule of up to one-half of the annual licensing fee otherwise assessable to the restaurant.
333-157-0030 Closure of Restaurants

(1) If the Assistant Director closes a restaurant, a statement by the Department ordering Closure and specifying the reasons therefore, and signed by the Assistant Director, shall be attached to the Inspection Form and delivered to the operator or person in charge:
   (a) When a restaurant is Closed, the Assistant Director shall post the notice of Closure at a customary entrance;
   (b) No person except the Assistant Director shall remove or alter this notice;
   (c) No person shall operate a restaurant which has been Closed.

(2) If a Critical Violation Which Creates an Imminent or Present Danger to Public Health is not corrected immediately or an approved alternative procedure is not initiated immediately by the operator, the restaurant shall be closed.

(3) If a Critical Violation Which Creates a Potential Danger to Public Health has not been corrected within the designated time limit, the restaurant shall be Closed.

(4) When a restaurant has been Closed because a Critical Violation(s) has not been corrected, it may be reopened after 24 hours if:
   (a) A Recheck Inspection by the Assistant Director confirms that all Critical Violations have been corrected; and
   (b) A Closure dismissal order designated by the Department is delivered to the operator or person in charge; and
   (c) The Closed sign previously posted is removed by the Assistant Director;
   (d) A restaurant may be reopened earlier than 24 hours following a voluntary meeting attended by the restaurant operator or person in charge, the Assistant Director, and the inspecting Environmental Health Specialist, at which the provisions of subsections (a) through (c) of this section are demonstrated to be met;
   (e) A restaurant Closed and reopened as described in this subsection will be assigned a notice of restaurant sanitation based on the sanitation score of the unannounced Complete Inspection which identified the Critical Violations causing the Closure.

(5) If a restaurant has obtained a sanitation score of less than 70 on two consecutive Complete Inspections conducted within 30 days as described in OAR 333-157-0000(4), it shall be Closed.

(6) When a restaurant has been Closed for failure to obtain a minimum acceptable sanitation score of 70 or more, it may be reopened after 24 hours if:
   (a) The operator submits a written plan of correction, specifying the corrections to be made and time limits for their completion, which would achieve a sanitation score of 80 points by the next Semi-Annual Inspection; and
   (b) The plan of correction is approved by the Assistant Director; and
   (c) A Complete Inspection after the restaurant has been Closed produces a sanitation score of 70 or more.
   (d) A Closure dismissal order designated by the Department is delivered to the operator or person in charge; and
   (e) The Closed sign previously posted is removed by the Assistant Director;
   (f) A restaurant may be reopened earlier than 24 hours following a voluntary meeting attended by the restaurant operator or person in charge, the Assistant Director, and the inspecting Environmental Health Specialist, at which the provision of subsections (a) through (e) of this section are demonstrated to be met;
   (g) A restaurant Closed and reopened as described in this subsection shall be assigned a notice of restaurant sanitation based on the sanitation score of the Complete Inspection performed while the restaurant was Closed.

(7) Appeals of Closures are contested cases pursuant to ORS Chapter 183.

(8) Operators whose facilities have been closed for failure to obtain a minimum acceptable sanitation score of 70 or more, or for failure to correct repeat Critical Violations must agree in writing, as part of reopening the restaurant, to:
   (a) Enroll in and successfully complete an approved food manager training course; or
   (b) In the event that an extraordinary situation exists whereby an approved food manager training course is not available to the operator, the Assistant Director shall make provision for an alternative type of food manager training using criteria approved by the Department.

333-157-0040 Display of Public Notice of Restaurant Sanitation

It shall be unlawful for any restaurant to display a Public Notice of Restaurant Sanitation that is higher than the one awarded by the Assistant Director. It shall be unlawful for anyone except the Assistant Director to post, change, remove, or deface a Public Notice of Restaurant Sanitation.
333-157-0045 Civil Penalties

(1) The Department or a Local Public Health Authority may impose civil penalties on any person for the following willful violations:
   (a) Operation of a restaurant, bed and breakfast facility or vending machine without a current license to do so from the
       Department or the Local Public Health Authority;
   (b) Failure to cease operation of a restaurant, bed and breakfast facility or vending machine that has been closed due to
       uncorrected critical violations. This authority shall be limited to those critical violations identified as creating an
       imminent or present danger to public health and defined in OAR 333-150-0000 Section 1-201.10(18.2).

(2) For the purposes of section (1) of this rule, the term 'willful' means intentional or deliberate.

(3) The maximum civil penalty for each of the violations listed in section (1) of this rule is $500 per day of violation.

(4) Civil penalties shall be imposed in the manner provided by ORS 183.090 or the equivalent.

333-157-0070 Licensing

Any license issued by the Department pursuant to ORS 624.010 through 624.530 shall expire and may be reinstated on
December 31 of each year; except for temporary restaurant licenses issued pursuant to ORS 624.025.

333-157-0080 Fees

Fees for eating and drinking establishments and other food service activities subject to ORS Chapter 624 shall be as specified
in ORS Chapter 624 and as follows: Any restaurant providing food or beverage solely to children, elderly persons, indigent
or other needy populations shall not be required to pay a restaurant license fee to the Department if such restaurant is:

(1) Operated by a benevolent organization as defined in ORS 624.015; and

(2) The patrons or recipients are not required to pay the full cost of the food or beverage. Such restaurants must obtain
    restaurant licenses and must comply with OAR 333-150-0000.
333-158-0000 Licensing and Inspections

The licensing of combination facilities shall be the responsibility of either the Department of Human Services or the Oregon Department of Agriculture in accordance with the following criteria:

(1) The establishments subject to these rules are those combination facilities as defined in OAR 333-150-0000 1-201.10(B)(11.1).

(2) A determination shall be made for each firm covered in OAR 333-150-0000 1-201.10(B)(11.1) as to which agency shall inspect and license. The determination shall be based upon which agency has statutory responsibility and authority for the predominant activities of the firm.

(3) In those instances where it is determined that either a full or limited service restaurant and/or other activity for which the Department of Human Services has authority, is predominant, the Department of Human Services shall perform the inspectional and licensing responsibilities to the exclusion of the Oregon Department of Agriculture.

(4) In those instances where it is determined that the bakery, retail grocery, food processing and/or other activities for which the Oregon Department of Agriculture has authority, is predominant, the Oregon Department of Agriculture shall perform the inspectional and licensing responsibilities to the exclusion of the Department of Human Services.

(5) The determination of the predominant activity at any combination facility subject to this agreement shall be made first by the field Environmental Health Specialists. If agreement is not reached, then it shall be referred to program supervisors of the Local Public Health Authority, and the Oregon Department of Agriculture for a determination of predominant activity. If an agreement is not reached among the Local Public Health Authority and the Oregon Department of Agriculture, or if a licensed facility disagrees with the determination, the matter may be appealed to an arbitration panel composed of the Administrator of the Food and Dairy Division (or appointee), the Administrator of the Office of Environmental Public Health (or appointee), and one representative each from the Conference of Local Health Officials, an association representing the restaurant industry and an association representing the retail grocery industry. The decision of this panel shall be final except as provided in section (6) of this rule.

(6) Any licensee wishing to contest the determination of predominance by agencies may produce records of gross annual sales to support the protest and be heard by the Local Public Health Authority in accordance with ORS Chapter 183.

333-158-0010 Applicability of Rules

(1) Any facility licensed and inspected by the Department of Human Services, pursuant to OAR 333-158-0000 through 333-158-0030, shall be subject to the applicable rules under OAR Chapter 333 of the Department of Human Services for all activities subject to ORS Chapter 624. The facility shall also be subject to the applicable statutes and rules under ORS 616 and 625, and OAR 603-021-0010, 603-021-0015, 603-021-0021, 603-021-0022, 603-021-0025, 603-021-0612, 603-025-0010 through 603-025-0040, 603-025-0080 through 603-025-0190 and 603-025-0220 of the Oregon Department of Agriculture, which are hereby adopted by reference.

(2) Any facility licensed and inspected by the Oregon Department of Agriculture, pursuant to OAR 333-158-0000 through 333-158-0030, shall be subject to the applicable rules under OAR Chapter 603 of the Oregon Department of Agriculture for all activities subject to statutes administered by the Oregon Department of Agriculture and ORS Chapter 624.

333-158-0020 Licenses and Permits

Licenses and permits issued pursuant to these rules shall be subject to the statutes of the licensing and inspecting agency, including fees and legal remedies, and shall be deemed to satisfy the licensing statutes of the other agency.
333-158-0030 Periodic Review

At least annual re-evaluations of predominance shall be made by the regulating agencies and changes in jurisdiction shall be made where indicated.
DEPARTMENT OF HUMAN SERVICES
DIVISION 160
DESTRUCTION OF FOOD UNFIT FOR HUMAN CONSUMPTION

333-160-0000 Destruction and Embargo of Mishandled, Adulterated or Spoiled Food and Beverage

Whenever the Department finds food or beverage for which there is probable cause to believe is adulterated, mishandled, spoiled, or otherwise potentially dangerous to health, the Department shall immediately notify the person in charge that the product is hazardous; and shall request immediate destruction of the product. If the person in charge agrees, the food or beverage shall be destroyed or removed in a manner specified by the Department:

(1) If the person in charge will not agree to destruction, an embargo order shall be placed on the food or beverage. The order shall include:
   (a) A statement of the reasons for the embargo;
   (b) A description of the products, their location and the amount of product embargoed;
   (c) The date and time of day when the order is issued, and the signature of the inspecting sanitarian.

(2) The product shall be marked, sealed, isolated, and otherwise identified as required by the Division to ensure that it remains off sale and is not moved prior to final disposition of the embargo.

(3) After placement of an embargo order, samples may be taken for testing by the Department.

(4) If the order of embargo does not include a notice of hearing; within 48 hours of the placement of an embargo, the person in charge shall be notified in writing that a hearing on the embargo order will be held if requested in writing within ten (10) days of the delivery of the notice.

(5) If a hearing is requested, it shall be held in accordance with ORS 183 and the model rules of the Attorney General for contested cases.

(6) If no hearing is requested as provided in section (4) of this rule, a default order for destruction shall be issued to the person in charge.

(7) Destruction or removal of embargoed product shall be done only under the direct supervision of the Department. Denaturation may be required where it is necessary to render the product unpalatable or to identify it as unfit for human consumption.

(8) Violation of any embargo or destruction order or removal of any product under embargo is grounds for closure of the facility, revocation or denial of license or criminal penalties provided under ORS 624.990.
DEPARTMENT OF HUMAN SERVICES
DIVISION 162
MOBILE FOOD UNITS, COMMISSARIES AND WAREHOUSES

333-162-0020 Mobile Food Units, General Requirements

(1) Mobile food units shall comply with the applicable requirements in OAR 333-150-0000 and these rules. The Department of Human Services may impose additional requirements to protect against health hazards related to the conduct of the mobile food unit operation and may prohibit the sale of potentially hazardous food.

(2) There are four types of mobile food units:
   (a) Class I. These mobile food units can serve only intact, packaged foods and non-potentially hazardous drinks. No preparation or assembly of foods or beverages may take place on the unit. Non-potentially hazardous beverages must be provided from covered urns or dispenser heads only. No dispensed ice is allowed;
   (b) Class II. These mobile food units may serve foods allowed under Class I and provide hot and cold holding display areas from which unpackaged foods are displayed. Self-service by customers of unpackaged foods is not allowed. Preparation, assembly or cooking of foods is not allowed on the unit;
   (c) Class III. These mobile food units may serve any food item allowed under Class I and II mobile food units, and may cook, prepare and assemble food items on the unit. However, cooking of raw animal foods on the unit is not allowed;
   (d) Class IV. These mobile food units may serve a full menu.

(3) All operations and/or equipment shall be an integral part of the mobile food unit. This does not preclude the use of a barbecue unit used in conjunction with a Class IV mobile food unit. The barbecue, however, may only be used under the following conditions:
   (a) It must be used in close proximity to the mobile food unit;
   (b) Food shall only be cooked on the barbecue. Processing, portioning, preparation, or assembly of food must be conducted from inside the mobile food unit; and
   (c) A handwashing system shall be provided adjacent to the barbecue as specified in 333-150-0000§ 5-203.11(C)(1)-(6).

(4) Mobile food unit operators may provide seating for customers if a readily accessible restroom is provided. The restroom must have a handwashing facility that provides hot and cold running water and meets the requirements of OAR 333-150-0000 §§ 6-301.11, 6-301.12, 6-301.20 and 6-302.11.

(5) Auxiliary storage may be provided if it is limited to impervious, nonabsorbent, covered containers stored in such a manner as to preclude contamination or infestation. Auxiliary storage shall be limited to items necessary for that day’s operation. No self-service, assembly or preparation activities may occur from auxiliary storage containers.

333-162-0030 Mobile Unit Operation, General

Mobile food units shall remain mobile at all times during operation. The wheels of the unit shall not be removed from the unit at the operating location. A removable tongue may be allowed if the tongue can be removed with the use of only simple tools and the tools are available on the unit at all times.

333-162-0040 Base of Operation

(1) Mobile food units shall operate from a licensed restaurant, commissary or warehouse.

(2) If only prepackaged goods are sold, a warehouse may be accepted in lieu of a commissary.
(3) Notwithstanding section (1) of this rule, self-contained mobile food units may not be required to have a base of operation if the unit contains all the equipment and utensils necessary to assure the following:
   (a) Maintaining proper hot and cold food temperatures during storage and transit;
   (b) Providing adequate facilities for cooling and reheating of foods;
   (c) Providing adequate handwashing facilities;
   (d) Providing adequate warewashing facilities and assuring proper cleaning and sanitizing of the unit;
   (e) Obtaining food and water from approved sources;
   (f) Sanitary removal of waste water and garbage at approved locations.

(4) The ability to operate without a base of operation shall be determined by the regulatory authority.

(5) A mobile food unit may not serve as a commissary for another mobile food unit or as the base of operation for a caterer.

333-162-0050 Exceptions

Class I mobile food units need not comply with the requirements of the rules pertaining to the necessity of water and sewage systems nor to those requirements pertaining to the cleaning and sanitization of equipment and utensils.

333-162-0280 Food Transportation, General

(1) Food shall be maintained at required temperatures at all times during transport. Mobile food units that do not maintain food at temperatures required in OAR 333-150-0000 §3-501.16 may be required to provide an on board power source, such as a battery or generator, to assure maintenance of food at proper temperatures during transit.

(2) Transport vehicles shall not be used in activities incompatible with safe and sanitary food service operations.

333-162-0470 Compressed Gas Bottles

Compressed gas bottles shall be fastened securely to a wall or stationary object at all times and in such a manner as to prevent damage to the valve mechanism.

333-162-0680 Overhead Protection

Overhead protection shall be provided for mobile food units that are operated outdoors and where food is not covered at all times. The overhead protection shall consist of, but not be limited to, roofing, ceilings, awnings, or umbrellas. Overhead protection is not required for barbecue units that have a lid or covering that will protect foods from contamination. The overhead protection must be easily cleanable.

333-162-0930 Commissaries

(1) The commissary or other fixed food service establishment used as a base of operation for mobile food units or pushcarts shall be constructed and operated in compliance with the requirements of OAR 333-150-0000.

(2) Notwithstanding section (1) of this rule, commissaries which are constructed in or adjacent to a single family residence are not required to provide a separate restroom, if a restroom in the residence is available at all times during operation of the commissary. The restroom facility must meet the requirements of OAR 333-150-0000.
333-162-0940 Warehouses

(1) If only prepackaged goods are sold, a warehouse may be accepted in lieu of a commissary.

(2) Warehouses shall be required to meet only those rules necessary to prevent the contamination of stored foods, single-service articles, utensils and equipment. In general, warehouses shall be exempt from the rules relating to finished walls, ceilings or storage bases, light colored surfaces, restrooms, lavatories and utility facilities, provided foods are protected from contamination from dust, insects, rodents, flooding, drainage, or other contaminants.

(3) Handling of unpackaged foods, dishwashing and ice making are prohibited in a warehouse.

(4) The Assistant Director may impose additional requirements as deemed necessary to prevent the contamination of stored foods, single-service articles, utensils, and equipment.
INSPECTION AND LICENSING PROCEDURES
MOBILE FOOD UNITS, COMMISSARIES AND WAREHOUSES

333-162-0880 Licensing Procedure

(1) All procedures shall be in accordance with ORS Chapter 624 in the licensure of mobile food units, commissaries
and warehouses. Any license issued by the Department pursuant to ORS 624.320 shall expire and may be reinstated on
December 31 of each year.

(2) A permanent license number shall be assigned each operator of mobile food units by the regulatory authority.

(3) Each mobile food unit shall be clearly marked with the licensee's name or a distinctive identifying symbol. The
lettering shall be at least 2 inches in height and of a color contrasting with the background color. If a symbol is used, it shall
be at least 12 inches in diameter or of an equivalent size. An accurate scale drawing or photograph of the symbol shall be
filed with the regulatory authority.

(4) Each mobile food unit shall be clearly marked with a number for purposes of identifying each unit on inspection
reports and other communications.

(5) Stored units are not subject to licensure.

333-162-0890 Inspection Form Procedures

(1) Violations which are observed during any sanitation inspection shall be described in the space provided on a
form approved by the Department by citing the OAR/ORS number violated, and by giving a brief statement of the specific
problem and required corrections.

(2) Critical Violations shall result in closure of a mobile food unit, commissary or warehouse if the Assistant
Director determines that an imminent danger to public health exists, and that the violation cannot be corrected immediately or
an approved alternative procedure has not been implemented. For Critical Violations not resulting in closure, the time limit
by which the correction must be made shall be within but not to exceed 14 days.

(3) Violations other than those specified in section (2) of this rule shall be corrected by the next semi-annual
Inspection.

(4) If a mobile food unit, commissary or warehouse is ordered Closed, the reason for closure shall be stated on the
Inspection Form and signed by the Assistant Director.

333-162-0900 Posting of Inspection Report

One copy of the most recent inspection report shall be in the mobile unit at all times. One copy of the inspection
report shall be posted by the Assistant Director upon an inside wall of the commissary or warehouse. The inspection report
shall not be defaced or removed by any person except the Assistant Director.

333-162-0910 Closure of Mobile Food Units, Commissaries or Warehouses

(1) If the Assistant Director closes a mobile food unit, commissary or warehouse, a statement by the Department
shall be made on the Inspection Form specifying the reasons for closure. The Inspection Form must be signed and delivered
to the operator or person in charge within 24 hours.
(2) When a mobile food unit is Closed, the Assistant Director shall post the inspection report on the unit. When a commissary or warehouse is Closed, the Assistant Director shall post the inspection report inside the facility. No person except the Assistant Director shall remove or alter this inspection report, or operate a mobile food unit that has been Closed.

(3) If a Critical Violation presenting an imminent danger to public health is not corrected immediately or an approved alternative procedure has not been implemented, the mobile food unit, commissary or warehouse shall be Closed.

(4) If a Critical Violation that does not result in immediate closure at the time of the Semi-annual Inspection has not been corrected within the designated time limit, the mobile food unit, commissary or warehouse shall be Closed.

(5) When a mobile food unit, commissary or warehouse has been Closed because a Critical Violation has not been corrected, it may be reopened if a Recheck Inspection by the Assistant Director confirms that all Critical Violations have been corrected.

(6) The Assistant Director shall, if requested, hold a hearing in accordance with ORS 183.

333-162-0920 Plan Review

(1) Newly constructed or extensively remodeled mobile food units, commissaries and warehouses must undergo plan review and a pre-operational inspection. Mobile food units having the sanitary approval of a recognized qualified, independent testing laboratory, or approved by the Department of Human Services will be accepted without the submission of plans.

(2) Approval from the Assistant Director to operate after the plan review process does not preclude obtaining required permits or approvals from other agencies or jurisdictions of concern.

(3) Mobile food unit operators must obtain approval from the Assistant Director to add to or change menu items served from the mobile food unit;

(4) Mobile food units that operate on a fixed route must provide an itinerary to the regulatory authority prior to licensure and at the beginning of each licensing period. Mobile food units operating at a specific or multiple locations shall provide a list of all locations to the regulatory authority.

333-162-0950 Memorandum of Commissary or Warehouse Usage/Verification

A Memorandum of Commissary or Warehouse Usage/Verification shall be on file with the Assistant Director for mobile units using a licensed food service facility as a commissary or warehouse. This memorandum shall be on a form approved by the Department, and be updated at least once per year.

333-162-1005 Civil Penalties

(1) The Department or a local public health authority may impose civil penalties on any person for the following willful violations:

(a) Operation of a mobile food unit, commissary, or warehouse without a current license to do so from the Department or local public health authority;

(b) Failure to cease operation of a mobile food unit, commissary, or warehouse that has been closed due to uncorrected critical violations. This authority shall be limited to those critical violations identified as creating an imminent or present danger to public health and defined in OAR 333-150-0000 Section 1-201.10(B)(18.2).

(2) For the purposes of section (1) of this rule, the term 'willful' means intentional or deliberate.

(3) The maximum civil penalty for each of the violations listed in section (1) of this rule is $500 per day of violation.

(4) Civil penalties shall be imposed in the manner provided by ORS 183.090 or the equivalent.
ANNEX
Form 1: Applicant and Food Employee Interview
Preventing Transmission of Diseases through Food by Infected Food Employees with Emphasis on illness due to *Salmonella* Typhi, *Shigella* spp., *Escherichia coli* O157:H7, and Hepatitis A Virus

The purpose of this form is to ensure that Applicants to whom a conditional offer of employment has been made and Food Employees advise the Person in Charge of past and current conditions described so that the Person in Charge can take appropriate steps to preclude the transmission of foodborne illness.

**Applicant or Employee name (print)______________________________**

**Address______________________________________________________**

**Telephone** Daytime: _____________________________ Evening: __________________________

**TODAY:** Are you suffering from any of the following symptoms:

<table>
<thead>
<tr>
<th>Symptom</th>
<th>Yes/No</th>
</tr>
</thead>
<tbody>
<tr>
<td>Diarrhea</td>
<td></td>
</tr>
<tr>
<td>Fever</td>
<td></td>
</tr>
<tr>
<td>Sore throat with fever</td>
<td></td>
</tr>
<tr>
<td>Vomiting</td>
<td></td>
</tr>
<tr>
<td>Jaundice</td>
<td></td>
</tr>
</tbody>
</table>

2. Lesions containing pus on the hand, wrist or an exposed body part?........... Yes/No
   (such as boils and infected wounds, however small)

**PAST:** Have you ever been diagnosed as being ill with typhoid fever (*Salmonella* Typhi), shigellosis (*Shigella* spp.), *Escherichia coli* O157:H7 infection (*E. coli* O157:H7), or hepatitis A (hepatitis A virus)? Yes/No

If you have, what was the date of the diagnosis? __________________________________________

**HIGH-RISK CONDITIONS**

1. Have you been exposed to or suspected of causing a confirmed outbreak of typhoid fever, shigellosis, *E. coli* O157:H7 infection, or hepatitis A?...........Yes/No

2. Do you live in the same household as a person diagnosed with typhoid fever, shigellosis, hepatitis A, or illness due to *E. coli* O157:H7?...........Yes/No

3. Do you have a household member attending or working in a setting where there is a confirmed outbreak of typhoid fever, shigellosis, *E.coli* O157:H7 infection, or hepatitis A?...........Yes/No

**Name, Address, and Telephone Number of your Doctor:**

Name _______________________________________ Telephone __________________________

Address ____________________________________________________________________________

____________________________________________________________________________

**Signature of Applicant or Food Employee:** ______________________________ Date __________

**Signature of Permit Holder’s Representative:** ______________________________ Date __________

To obtain this in an alternate format, please contact the Food Program at (971) 673-0185.
Form 2: Food Employee Reporting Agreement

Preventing Transmission of Diseases through Food by Infected Food Employees with Emphasis on illness due to Salmonella Typhi, Shigella spp., Escherichia coli O157:H7, and Hepatitis A Virus

The purpose of this agreement is to ensure that Food Employees notify the Person in Charge when they experience any of the conditions listed so that the Person in Charge can take appropriate steps to preclude the transmission of foodborne illness.

I AGREE TO REPORT TO THE PERSON IN CHARGE:

FUTURE SYMPTOMS and PUSTULAR LESIONS:

1. Diarrhea  
2. Fever  
3. Vomiting  
4. Jaundice  
5. Sore throat with fever  
6. Lesions containing pus on the hand, wrist or an exposed body part (such as boils and infected wounds, however small)

FUTURE MEDICAL DIAGNOSIS:

Whenever diagnosed as being ill with typhoid fever (Salmonella Typhi), shigellosis (Shigella spp.), Escherichia coli O157:H7 infection (E. coli O157:H7), or hepatitis A (hepatitis A virus)

FUTURE HIGH-RISK CONDITIONS:

1. Exposure to or suspicion of causing any confirmed outbreak of typhoid fever, shigellosis, E. coli O157:H7 infection, or hepatitis A.  
2. A household member diagnosed with typhoid fever, shigellosis, hepatitis A, illness due to E. coli O157:H7, or hepatitis A.  
3. A household member attending or working in a setting experiencing a confirmed outbreak of typhoid fever, shigellosis, E. coli O157:H7 infection, or hepatitis A.

I have read (or had explained to me) and understand the requirements concerning my responsibilities under the Food Code and this agreement to comply with:

1. Reporting requirements specified above involving symptoms, diagnoses, and high-risk conditions specified;  
2. Work restrictions or exclusions that are imposed upon me; and  
3. Good hygienic practices.

I understand that failure to comply with the terms of this agreement could lead to action by the food establishment or the food regulatory authority that may jeopardize my employment and may involve legal action against me.

Applicant or Food Employee Name (please print)

____________________________________________________

Signature of Applicant or Food Employee: ___________________________ Date ________

Signature of Permit Holder’s Representative: ___________________________ Date ________

To obtain this in an alternate format, please contact the Food Program at (971) 673-0185.
The Food Code specifies, under Part 2-2 Employee health Subpart 2-201 Disease or Medical condition, that Applicants to whom a conditional offer of employment has been made and Food employees obtain medical clearance from a physician licensed to practice medicine whenever the individual:

1. Is chronically suffering from a symptom such as diarrhea; or
2. Meets one of the high-risk conditions specified under Paragraph 2-201.11(D) and is suffering from any symptom specified under Subparagraph 2-201.11(B)(1).
3. Has a current illness involving Salmonella Typhi (typhoid fever), Shigella spp. (shigellosis), Escherichia coli O157:H7 (E. coli O157:H7 infection), or hepatitis A virus (hepatitis A), or
4. Reports past illness involving S. Typhi (typhoid fever), Shigella spp. (shigellosis), E. Coli O157:H7, or hepatitis A virus (hepatitis A), if the establishment is a facility, serving a highly susceptible population such as preschool age children, immunocompromised persons, or older adults.

Applicant or Food Employee being referred: (Name, print)

Serving a highly susceptible population? 
☐ Yes ☐ No

REASON FOR MEDICAL REFERRAL: (The reason for this referral is checked below):

☐ Chronic diarrhea or other chronic symptom (specify)__________________________

☐ Meets a high-risk condition specified under Paragraph 2-201.11(D), (specify)__________________________ and suffers from a symptom specified under Subparagraph 2-201.11(B)(1).

☐ Diagnosed or suspected typhoid fever, shigellosis, E. coli O157:H7 infection, or Hepatitis A.

☐ Reported past illness from typhoid fever, shigellosis, E. coli O157:H7 infection, or hepatitis A.

☐ Other medical condition of concern per the following description:

__________________________

PHYSICIAN’S CONCLUSION:

☐ Applicant or food employee is free of S.Typhi, Shigella spp., E. coli O157:H7, or hepatitis A virus and may work as a food employee without restrictions.

☐ Applicant or food employee is an a symptomatic shedder of ________________________________ and is restricted from working with exposed food; clean equipment, utensils, and linens; and unwrapped single-service and single-use articles in establishments that do not serve highly susceptible populations.

☐ Applicant or food employee is not ill but continues as an a symptomatic shedder of ________________________________ and should be excluded from working with exposed food; clean equipment, utensils, and linens; and unwrapped single-service and single-use articles in food establishments that serve highly susceptible populations such as those who are preschool age, immunocompromised, or older adults and in a facility that provides preschool custodial care, health care, or assisted living.
☐ Applicant or food employee is suffering from typhoid fever, shigellosis, E. coli O157:H7 infection, or hepatitis A and should be excluded from working with exposed food; clean equipment, utensils, and linens; and unwrapped single-service and single-use articles.

**COMMENTS:** In accordance with Title I of the Americans with Disabilities Act (ADA) and to provide only the information necessary to assist the food establishment operator in preventing food borne disease transmission, please confine comments to explaining your conclusion and estimating when the employee may be reinstated.

Signature of Physician ___________________________ Date ________________
